Road traffic incidents - fatalities

Definition:

This **includes** deaths of motorists, cyclists or pedestrians arising from police pursuits, police vehicles responding to emergency calls and other police traffic-related activity. It **does not** include deaths following a road traffic incident (RTI) where the police have attended immediately after the event as an emergency service.

Notes:

- In 2011 the ACPO guidance on police pursuits was issued as a statutory code of practice.

*Following changes to ethnicity classification by the Office for National Statistics, since 2015/16 the Asian ethnic group now includes Chinese. This was previously recorded under the 'Other' ethnic group. Data recorded for previous years, maintains the old classification where Chinese is included in the 'Other' ethnic group.

[^]Prior to 2015/16, this ethnic group included 'Chinese'.

A single incident can result in more than one death. The tables below show the number of incidents and number of fatalities these resulted in.

Deaths in or following police custody

Definition:

This **includes** deaths that occur while a person is being arrested or taken into detention. It includes deaths of persons who have been arrested or have been detained by police under the Mental Health Act 1983. The death may have taken place on police, private or medical premises, in a public place or in a police or other vehicle.

For example:

- Deaths that occur during or following police custody where injuries that contributed to the death were sustained during the period of detention.
- Deaths that occur in or on the way to hospital (or other medical premises) following or during transfer from scene of arrest or police custody.
- Deaths that occur as a result of injuries or other medical problems that are identified or that develop while a person is in custody.

Other deaths following police contact

Definition:

This includes deaths that follow contact with the police, either directly or indirectly, that did not involve arrest or detention under the Mental Health Act 1983 and were **subject to an independent investigation**. An independent investigation is determined by the IOPC for the most serious incidents that cause the greatest level of public concern, have the greatest potential to impact on communities or have serious implications for the reputation of the police service. The criteria to include only deaths subject to an independent investigation have been applied **since 2010/11** to improve consistency in the reporting of these deaths.

For example:

- Deaths that occur after the police are called to attend a domestic incident that results in a fatality.
- Deaths that occur after the police have been contacted following concerns about a person's welfare and there is concern about the nature of the police response.
- Deaths that occur where the police are called to assist medical staff to restrain individuals who are not under arrest.

" Following changes to ethnicity classification by the Office for National Statistics, since 2015/16 the Asian ethnic group now includes Chinese. This was previously recorded under the 'Other' ethnic group. Data recorded for previous years, maintains the old classification where Chinese is included in the 'Other' ethnic group.

^ Prior to 2015/16, this ethnic group included 'Chinese'.
