## **Community Work Placement Live Running Memo**

**To:** Community Work Placement Providers

**Cc:** Category Managers  
Non-Work Programme Policy Team Managers  
Senior Performance Managers  
Performance Managers  
Liam Murray

**From:** Andrew Evans

**Memo Serial Number:** CWP LR08

**Date:** 23 January 2015

**Subject:** CWP Validation

**Action:** For information

**Timing:**

### **Background**

It has been agreed that where appropriate CWP will follow the validation changes being introduced for Work Programme as part of the contract changes.

For CWP this means that claims, which do not meet the required number of weeks or days of participation and or employment in the claim period (12-21 weeks, 22-26 weeks or 182 days) but do at the point of validation, will be treated as a Technical Pass and therefore not contribute to the error rate for extrapolation.

In addition, claims that PPVT has genuinely not been able to validate will be apportioned across the other validation results (Pass, Fail and Technical Pass). Before any of these claims are apportioned, you will have the opportunity to seek review by submitting additional information that will allow PPVT to have another attempt at validation.

### **Summary and action**

The change to a Technical Pass will apply to Short Completion Outcome Fees, Long Completion Outcome Fees and Job Outcome Fees.

Apportioning claims which PPVT have been unable to validate will apply to all four payment types

### **Further Information Contact Details**

All enquiries on the subject of this memo should be raised with your Performance Manager in the first instance; they will endeavour to provide you with an answer as soon as possible.

Regards

Provider Payment Validation Team.

Provision Performance and Controls Division.
