Key messages

Cough calls continued to increase in week 38 in line with seasonal expectations, notably in the under 15 years age groups (figure 4, 4a).

Syndromic indicators at a glance:

Indicator	Trend	Level *
Cold/flu	increasing	similar to baseline levels
Fever	no trend	below baseline levels
Cough	increasing	similar to baseline levels
Difficulty breathing	increasing	similar to baseline levels
Sore throat	increasing	below baseline levels
Diarrhoea	no trend	below baseline levels
Vomiting	increasing	below baseline levels
Eye problems	no trend	below baseline levels

^{*}Since week 47 2014 new baselines have been introduced for comparison with previous years.

Data summary:

Year	Week	Total calls
2018	38	204,547

25 September 2018 Year: 2018 Week: 38 100000 1: Total calls. 90000 The total number of 80000 syndromic calls recorded each day by 70000 NHS 111. 60000 50000 40000 30000 20000 24/09/17 22/10/17 19/11/17 17/12/17 14/01/18 11/02/18 11/03/18 08/04/18 06/05/18 03/06/18 01/07/18 23/09/18 bank holiday weekend total calls ■7 day average (adjusted for bank holidays) 2: Cold/flu Daily 'cold/flu' calls as a 5.0 percentage of total calls. ■ 7 day average (adjusted for bank holidays)

25 September 2018 Year: 2018 Week: 38

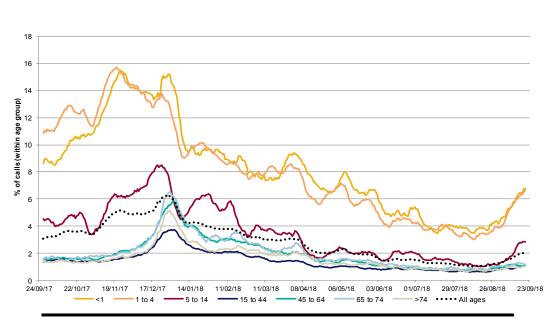

4: Cough

Daily 'cough' calls as a percentage of total calls. Baselines are constructed from historical data since 2010, including data from NHS 111 and NHS Direct.

4a: Cough calls by age group

Difficulty breathing calls as a percentage of total calls within each age group, shown as a 7 day moving average adjusted for bank holidays.

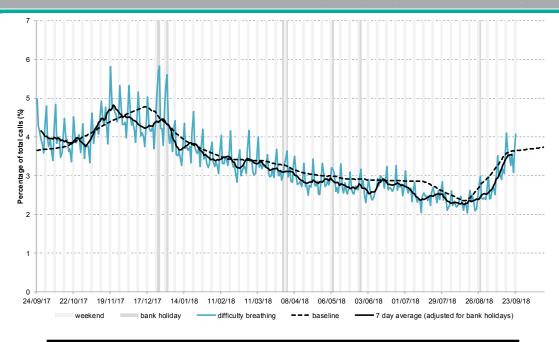

Intentionally blank

25 September 2018 Year: 2018 Week: 38

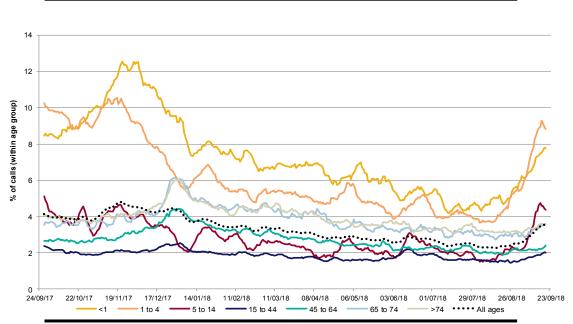

5: Difficulty breathing

Daily 'difficulty breathing' calls as a percentage of total calls. Baselines are constructed from historical data since 2013.

5a: Difficulty breathing calls by age group

Difficulty breathing calls as a percentage of total calls within each age group, shown as a 7 day moving average adjusted for bank holidays.

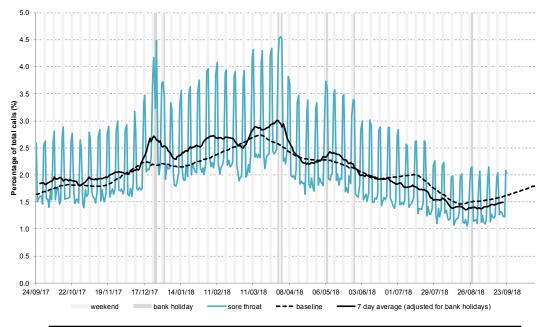

Intentionally blank

25 September 2018 Year: 2018 Week: 38

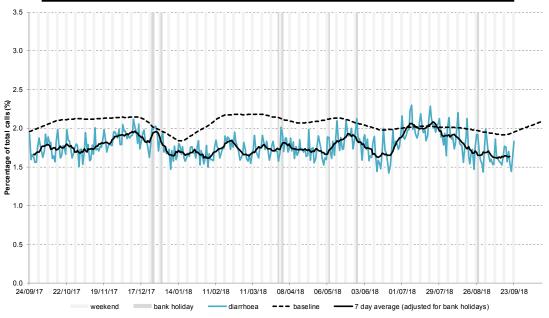

6: Sore throat

Daily 'sore throat' calls as a percentage of total calls. Baselines are constructed from historical data since 2013.

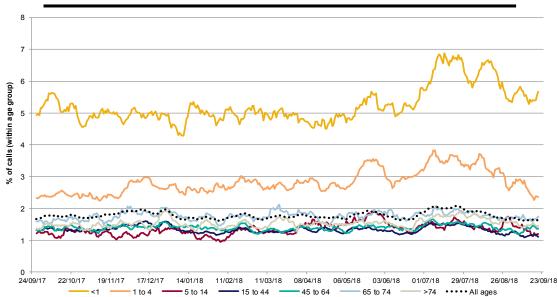

7. Diarrhoea

Daily 'diarrhoea' calls as a percentage of total calls. Baselines are constructed from historical data since 2013.

7a: Diarrhoea calls by age group

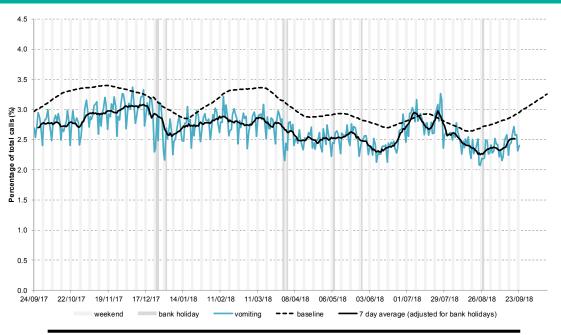

Diarrhoea calls as a percentage of total calls within each age group, shown as a 7 day moving average adjusted for bank holidays.

25 September 2018 Year: 2018 Week: 38

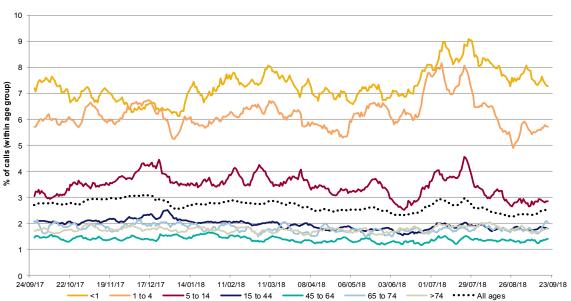

8: Vomiting

Daily 'vomiting' calls as a percentage of total calls. Baselines are constructed from historical data since 2013.

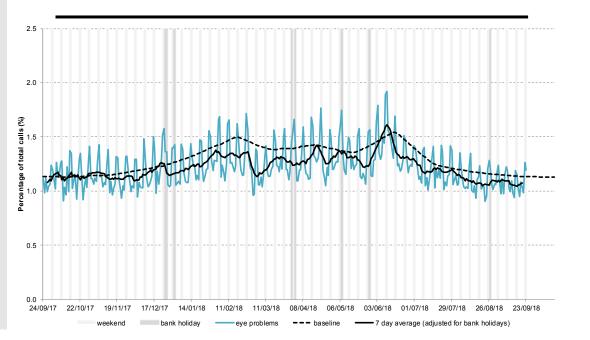

8a: Vomiting calls by age group

Vomiting calls as a percentage of total calls within each age group, shown as a 7 day moving average adjusted for bank holidays.

9: Eye problems

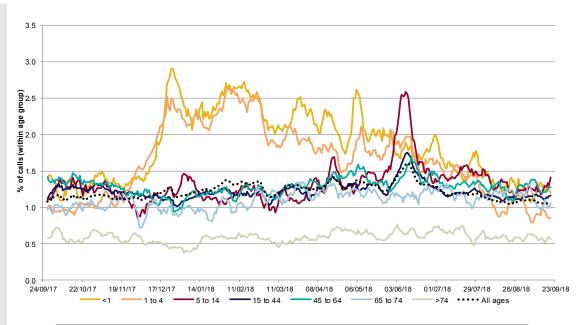

Daily 'eye problems' calls as a percentage of total calls. Baselines are constructed from historical data since 2013.

25 September 2018 Year: 2018 Week: 38

9a: Eye problems by age group

Eye problems calls as a percentage of total calls within each age group, shown as a 7 day moving average adjusted for bank holidays.

Intentionally left blank

Introduction to charts:

- Weekends and bank holidays are marked by vertical grey lines (bank holidays darker grey).
- A 7-day moving average (adjusted for bank holidays) is overlaid on the daily data reported in each chart, unless specified.
- Baselines represent seasonally expected levels of activity and are constructed from historical data since September 2013. They take into account any known substantial changes in data collection, population coverage or reporting practices. Baselines are refreshed using the latest data on a regular basis.
- NHS 111 call data are analysed on a daily basis to identify national and regional trends. A statistical algorithm underpins each system, routinely identifying activity that has increased significantly or is statistically significantly high for the time of year. Results from these daily analyses are assessed by the ReSST, along with analysis by age group, and anything deemed of public health importance is alerted by the team.

Notes and further information:

Further information about NHS 111 can be found at:
