IV. Health Information

I, the undersigned, being an Official Veterinarian, hereby certify that:

- (a) on _____ (date), being not more than 72 hours prior to the date of export, I examined the animal(s)* and found it/them* to be free from clinical signs of infectious or contagious disease, including rabies, free from injury, and in my opinion fit to travel;
- (b) the animal(s)* has/have* been kept continuously in the United Kingdom during the six months prior to examination, or since birth;
- (c) no case of rabies other than those due to European Bat Lyssavirus (EBL 1 or 2) has occurred in the United Kingdom during the 6 months prior to examination;
- (d) the animal(s)* have been derived from a population in which there has been no clinical, serological or cultural evidence of Mycobacterium tuberculosis, brucellosis, morbillivirus, herpesvirus, calicivirus, pox viruses and influenza A during the past 180 days;
- (e) on _____ (date), being within 15 days of export, the animals have been treated for internal parasites with a broad spectrum anthelmintic as follows:

Name of product

Active ingredient
- (f) on _____ (date), being within 15 days of export, the animals were treated for external parasites using a reliable parasiticide as follows:

Name of preparation

Active ingredient

(g) a written declaration has been received from the owner/exporter* stating that the animal will be shipped in a container which conforms to the International Air Transport Association (IATA) regulations, and which is either new or has been suitably disinfected and fumigated before loading and is of such nature that contact with other animals of lesser health status en route will be prevented.

***Delete as applicable**

V. ♦ This certificate is valid for 10 (ten) days from the date of signature.
