HEALTH CERTIFICATE

EXPORT OF FISH AND FISHERY PRODUCTS FOR HUMAN CONSUMPTION TO TAIWAN

EXPORTING COUNTRY: UNITED KINGDOM

COUNTRY OF PRODUCTION:

COMPETENT AUTHORITY: DEFRA

CERTIFYING DEPARTMENT:

FOR COMPLETION BY: OFFICIAL INSPECTOR

I. DETAILS IDENTIFYING THE FISHERY PRODUCTS

A) COMMODITY NAME:	SCIENTIFIC NAME:
1.	
2.	
3.	
4.	

B) TYPE OF PROCESSING ¹ :	TYPE OF PACKAGING:
1.	
2.	
3.	
4.	

C) NUMBER OF PACKAGES:	NET WEIGHT (kg):	DATE OF PROCESSING:
1.		
2.		
3.		
4.		
		TOTALS

D) Temperature during storage and transport:

II. ORIGIN OF FISH AND FISHERY PRODUCTS

A) PRODUCTION MODE: ☐ AQUACULTURED ☐ WILD CAUGHT

AQUACULTURE AREA:		CATCH AREA:
1.		
2.		
3.		
4.		

B) NAME & ADDRESS(ES) & APPROVAL NUMBER(S) OF PROCESSING ESTABLISHMENT(S) AUTHORIZED FOR EXPORT BY COMPETENT AUTHORITY	
1.	
2.	
3.	
4.	

III. DESTINATION OF FISH AND FISHERY PRODUCTS

(a) The products are to be dispatched from:

(b) Country and place of destination:

(c) Means of transport and Identification:

(i.e. Flight Number/ Vessel Name/ Vehicle Number)

(d) Container Numbers:

(e) Seal Numbers:

(f) Name and address of Consignor:

(g) Name and address of Consignee:

IV. HEALTH INFORMATION

This is to certify that:

- i) The above fish and fishery products were produced in an establishment approved by the competent authority in the United Kingdom;
- ii) The products were produced, packed, stored and transported under sanitary conditions which are under the supervision of the competent authority;
- iii) The fish and fishery products were inspected by the competent authority in accordance with regulations in force in the United Kingdom which are in line with international (Codex) recommendations;
- iv) The fish and fishery products meet United Kingdom veterinary and sanitary requirements and are fit for human consumption;
- v) The processing standards fulfil organoleptic, parasitological, chemical and microbiological requirements established by regulations in force in the United Kingdom which are in line with international (Codex) recommendations;
- vi) No pathogenic strains of *Escherichia coli* (0157), *Salmonella*, and *Listeria monocytogenes* have been found during routine sampling as required under regulations in force in the United Kingdom. Results of this routine monitoring are subject to official checks prior to export;
