Pre-release access for the 2016/17 monthly Seasonal influenza vaccine uptake for children of primary school age report (England)

For the 2016-17 influenza season, PHE publishes online a cumulative seasonal influenza vaccine uptake report for children of primary school age (all eligible children in all Local Authorities – England). The report is published monthly on Thursdays at 14:00. The first monthly report will be published on 17 November 2016 at 14:00.

The following post holders were given pre-release access up to 24 hours prior to release. Those staff involved in the production and quality assurance of the document are excluded.
