

**EXPORT OF ZOO CARNIVORES FROM THE UNITED KINGDOM TO CANADA**

**NOTES FOR THE GUIDANCE OF THE OFFICIAL VETERINARIAN AND EXPORTER**

**IMPORTANT**

These notes provide guidance to Official Veterinarians (OV) and exporters. The Notes for Guidance (NFG) should have been issued to you together with export certificate 3081EHC. The NFG should not be read as a standalone document but in conjunction with certificate 3081EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment.

1. **Scope of the certificate**

Export health certificate 3081EHC may be used for the export of Zoo carnivores from the United Kingdom to Canada.

2. **Certification by an Official Veterinarian (OV)**

This certificate may be signed by an Official Veterinarian (OV) appointed by the Department for Environment, Food and Rural Affairs (Defra), Scottish Government - Rural Directorate, Welsh Government - Department for Rural Affairs, or an Authorised Veterinary Inspector (AVI) appointed by the Department of Agriculture and Rural Development Northern Ireland (DARDNI), who is an OV/AVI on the appropriate panel for export purposes. OVs/AVIs should sign and stamp the health certificate with the OV/AVI stamp in any colour **OTHER THAN BLACK**.

A certified copy of the completed certificate must be sent to the issuing Animal Health office within seven days of issue.

The OV/AVI should keep a copy for his/her own records.

3. **Identification**

Paragraph I refers. The animals to be exported must be individually identified, preferably by means of a microchip or tattoo. The method used for identification must be entered at the table for each animal or a common entry used if all the animals are identified in the same manner.

**Health Information**

4. **Examination**

The examination referred to at Paragraph IV (a) should be carried out by arrangement with the exporter from a maximum of 72 hours before the export up to the last business day before loading. The certifying OV may need to seek clarification with the flight airline as regards welfare requirements under IATA guidelines. Further information on IATA and CITES welfare requirements can be found at the following links:

5. **Notifiable Disease Clearance**

Official Veterinarians may certify paragraph IV. (c), (d) and (e) on behalf of the Department provided written authority to do so has been obtained from the Animal Health, Specialist Service Centre - Exports, Carlisle on form 618NDC.

6. **Premises Clearance**

Paragraphs IV(c), (d) and (e) refer. The OV should certify these paragraphs on the basis of personal knowledge of the premises of origin, supported by laboratory reports, pathological examinations and other records as appropriate. If the OV does not have personal knowledge of the premises he/she must obtain a written support statement from another veterinarian who does have such knowledge.

7. **Residence Requirements, contact with other animals and treatments / vaccinations**

Paragraphs IV(b), IV(f) and if appropriate IV(j) refer. These paragraphs can be certified on the basis of a written information / declarations from the exporter and further enquiries that the certifying veterinarian considers appropriate.

8. **Parasite Treatment**

Paragraph IV(g). Ideally the OV must use products with a product licensed for use in the United Kingdom in the species for export. If there are no products licensed for the particular species, then the OV should follow the cascade principle in using other products. The owner should be advised that the use of any product out-with the data sheet can entail a risk of adverse reactions.

9. **C.I.T.E.S**

This certificate does not provide exemption from other legislation laid down for the protection or conservation of certain wild species, e.g. the Convention on International Trade in Endangered Species (C.I.T.E.S.).
