| | | | | |

II. Origin of the bird(s)

a) Name and address of exporter:

b) Address(es) of premises of origin:

III. Destination of the bird(s)

a) Name and address of consignee:

b) Means of transportation:

IV. Health Information

I, the undersigned, certify that the bird(s) described above meet(s) the following requirements:

a) I have on this day inspected the bird(s) for export and found it/them to be free from clinical signs of infectious or contagious disease including **Newcastle Disease, Avian Influenza, West Nile Disease, Avian Chlamydiosis, Fowl Typhoid (Salmonella gallinarum) and Pullorum Disease (Salmonella pullorum)**;

b) the region of origin is free of any restrictions imposed due to an outbreak of **velogenic Newcastle Disease** or **notifiable avian influenza**;

c) in so far as can be determined, no case of **Avian Chlamydiosis** has been confirmed at the premises of origin at paragraph II. b) above; at the premises of origin at paragraph II (b) above, nor within a radius of 25 kms therefore, during the 30 days prior to export.

c) in so far as can be determined, no outbreak of **Ornithosis** or **Psittacosis** has been confirmed at the premises of origin at paragraph II (b) above during the 3 months prior to export;

d) to the best of my knowledge and based on a written declaration from the owner/exporter the birds for export were hatched in and have never left the United Kingdom;

e) **either*** (i) the birds were kept in quarantine since hatching,

or* (ii) the birds were kept in quarantine for twenty-one (21) days prior to shipment,

And (in either case) during the quarantine period there were no clinical signs of disease including **Newcastle Disease, Avian Influenza, West Nile Disease, Avian Chlamydiosis, Fowl Typhoid (Salmonella gallinarum) and Pullorum Disease (Salmonella pullorum)**;

f)* **(applies in the case of psittacines only; (delete in all other cases)** the birds were kept under veterinary supervision for forty-five (45) days prior to shipment and were treated against **Avian Chlamydiosis** using an authorised doxycycline product according to the manufacturer's instructions;

g) 7 - 14 days prior to export, the birds were subjected to a test for avian influenza with negative results;

h) no case of **West Nile virus** infection has been confirmed in the area of origin of the birds for export;

i) the birds have not been vaccinated against **Avian Influenza**.

* **Delete if not applicable**

V. **This certificate is valid for 10 days.**
