No:

EXPORT OF POULTRY HATCHING EGGS TO ALBANIA

SUPPORT HEALTH CERTIFICATE

I. Name and address of Official Veterinarian to whom this certificate must be returned as soon as possible:

II. Name and address of exporter:

III. Address of flock of origin:

IV. Date of export:

V. Health Information.

I, the undersigned, certify that the birds comprising the flock(s) of origin meet the following requirements:

- a) They come from flocks which have remained on the territory of the United Kingdom (UK) for at least the past 3 months. Where the flocks from which the hatching eggs come were imported into the UK this took place in accordance with veterinary conditions at least as strict as the relevant requirements of Directive 2009/158/EC and any subsidiary decisions;

b) They are derived from parent flocks which have not been vaccinated against **avian influenza**;

c) They are derived from parent flocks which:

(i) were examined on the date of issue of this certificate and showed no clinical signs or grounds for suspecting any diseases;

(ii) have been kept for at least 6 weeks immediately prior to this export to Albania at the establishment(s) in paragraph II(b) above which are officially approved in accordance with Annex II of Directive 2009/158/EC; and

- the approval has not been suspended or withdrawn;
- they are not subject to animal health restrictions;

(iii) during the 6 weeks mentioned in sub-paragraph (ii) above, have had no contact with poultry not complying with the requirements laid down in this certificate or with wild birds;

(iv) have undergone a disease surveillance programme for **Salmonella pullorum, S.gallinarum, S.arizonae, Mycoplasma gallisepticum, and M. meleagridis** in accordance with Chapter III of Annex II of Directive 2009/158/EC and were not found to be infected, nor showed any grounds for suspecting any infection, by these agents;

- (v) - *Either have not been vaccinated against Newcastle disease
- *Or have been vaccinated against Newcastle disease using

[name and type (live or inactivated) of Newcastle disease virus strain used in vaccine]

at the age of _____ weeks

*And/Or have been vaccinated using officially approved vaccines as shown on the attached schedule.

d) The eggs have been disinfected in accordance with my instructions, using

[name of product and active substance]

for _____ minutes

e) The eggs were collected from _____ [dd/mm/year]

to _____ [dd/mm/year]

Public Health Additional Guarantees:

f) The Salmonella control programme referred to in Article 10 of Regulation EC 2160/2003, and the specific requirements for the use of antimicrobials and the use of vaccines in Regulation EC 1177/2006, have been applied to the parent flock(s) of origin and this (these) parent flock(s) have been tested for Salmonella serotypes of public health significance.

Date of last sampling of the parent flock(s) from which the testing result is known: [dd/mm/year]

Result of all testing in the parent flock(s):

Either* positive. Or* negative

g) Neither **Salmonella enteritidis** nor **Salmonella typhimurium** were detected within the control programme referred to in paragraph (f) above.

Animal Health Additional Guarantees

h) The hatching eggs described in this certificate are derived from poultry which:

- Either* (i) have not been vaccinated against Newcastle disease;
- Or* (ii) have been vaccinated against Newcastle disease using an inactivated vaccine;
- Or* (iii) have been vaccinated against Newcastle disease using a live vaccine at the latest 60 days before the egg collection mentioned in paragraph IV (h) above.

VI. This certificate is valid for 10 days.
