6399EHC (cleared 14/08/2008)

(country and place of destination)

- (b) Name and address of consignee:
- (c) Means of Transportation:

IV Health information:

- I, the undersigned, hereby certify that,
- 1. I have received a declaration from the exporter of the product described overleaf at Paragraph I (a) stating that these products meet the following requirements:
 - (a) the products were derived from animals which were slaughtered in an approved slaughterhouse in the United Kingdom (UK);
 - (b) the animals from which the products were obtained were subjected to ante mortem inspection under official veterinary supervision and no clinical evidence of notifiable infections or contagious disease was noted;
- 2. animals slaughtered in approved slaughterhouses in the United Kingdom are subjected to ante and post mortem inspection under veterinary Supervision. If sheep are suspected as being clinically affected with a Transmissible Spongiform Encephalopathy, slaughter must take place under strict controls to prevent any part of that animal entering the human food chain. Therefore casings sold for human consumption from approved slaughterhouse in the United Kingdom may not be derived from sheep clinically affected with Transmissible Spongiform Encephalopathy.
- 3. Transmissible Spongiform Encephalopathies (TSEs) are compulsorily notifiable in the United Kingdom. A surveillance and monitoring system for scrapie and bovine Spongiform Encephalopathy as referred to in the Office International des Epizooties Terrestrial Animal Health Code is in place and affected sheep and goats are slaughtered and completely destroyed.
- 4. the products do not contain and are not derived from specified risk material as defined in Annex X1, Section A of the TSE Regulation (EC) 999/2001 or mechanically recovered meat obtained from the bones of bovine, ovine or caprine animals.
