I, the undersigned Official Inspector/Official Veterinarian certify that:

The certificate is based on the following pre-export/ import certificates (see attached list in case there are more than two)¹:

Date	Number	Country of origin	Administrative territory	Approval number of the Establishment	Name and quantity (net weight) of the product

- 4.1 Live, chilled and frozen fish, seafood and products of their processing subjected to treatment, destined for human consumption and exported to Azerbaijan were produced in establishments, approved by the Competent Veterinary Service in the EU for supplying their production for export and operating under its constant supervision.
- 4.2 Fish and seafood (fishery products) originate from establishments which have not been placed under animal health restrictions.
- 4.3 Commercial sea and fresh-water fish and seafood (fishery products) were examined by an Official of the Competent Authority of the country for presence of helminths, bacteriological and viral infections by methods, which are used in the EU.
- 4.4 Any helminths in the fish are within acceptable limits and/or inactivated by the current methods.
- 4.5 Frozen fish and seafood (fishery products) exported to Azerbaijan have a temperature of muscle thickness not exceeding minus 18 degrees Celsius; are not contaminated with salmonella or other bacterial disease agents; have no alterations typical for infectious diseases; have no poor organoleptic quality; were not defrosted during the storage period; were not treated by coloring and odouring substances, ionizing and ultra-violet rays.
- 4.6 As a result of veterinary-sanitary inspection, sea-fish, fresh-water fish, sea-food (fishery products) and ready products are considered fit for human consumption and their organoleptic quality is satisfactory and they do not contain natural or synthetic estrogenic and hormonal substances, thyreostatics, antibiotics, other drugs and pesticides.
- 4.7 Microbiological, chemical, toxicological and radiological characteristics of fish, sea-food (fishery products) and finished products are in accordance with EU legislation.
- 4.8 Fish and sea-food (fishery products) is recognized fit for human consumption in accordance with EU legislation .
- 4.9 Products must have official identification mark on package. Stamped label must be placed on package in a way to ensure that opening of package is impossible without breaking the label.
- 4.10 Single-use containers and packaging material correspond to hygienic requirements.
- 4.11 Means of transport are treated and prepared in accordance with the rules approved in the EU.
