EXPORT OF DAY OLD CHICKS, DAY OLD TURKEY POULTS AND DAY OLD DUCKLINGS TO  
EGYPT

SUPPORT HEALTH CERTIFICATE

I. Name and address of OFFICIAL VETERINARIAN to whom this certificate  
must be returned as soon as possible:

II. Name and address of exporter:

III. Address of flock of origin:

IV. Date of export:

V. Health Information.

I, the undersigned, certify that the birds comprising the flock of  
origin meet the following requirements:

- a) on (date), all birds comprising the flock(s)  
of origin were inspected and found to be free from clinical signs of  
infectious or contagious disease;
- b) in so far as can be determined, there has been no evidence of  
**Pasteurella multocida (fowl cholera), ornithosis, Marek's disease,  
avian leukosis, infectious laryngotracheitis, infectious bronchitis**

or avian encephalomyelitis (epidemic tremor), Salmonellosis (S.typhimurium and S.enteritidis), duck virus hepatitis, or duck virus enteritis on the premises of origin or hatchery during the past 6 months;

c) the flock(s) of origin and hatchery are members of the Government supervised Poultry Health Scheme or Northern Ireland Poultry Health Assurance Scheme and are considered free:

i\* **IN THE CASE OF DOMESTIC FOWL ONLY**  
Salmonella pullorum (pullorum disease), Salmonella gallinarum (fowl typhoid) and Mycoplasma gallisepticum;

ii\* **IN THE CASE OF TURKEYS ONLY**  
Salmonella pullorum (pullorum disease), Salmonella gallinarum (fowl typhoid), Salmonella arizonae, Mycoplasma meleagridis and Mycoplasma gallisepticum;

iii\* **IN THE CASE OF DUCKLINGS ONLY**  
Salmonella pullorum and Salmonella gallinarum;

d) Surveillance for zoonotic salmonella species and serovars occurs:

i\* **IN THE CASE OF CHICKENS AND TURKEYS ONLY**  
the flock of origin and hatchery participates in the National Control Plan for Salmonella Enteritidis, Salmonella typhimurium and other zoonotic salmonella species and serovars, with negative results for the last 12 months;

ii\* **IN THE CASE OF DUCKS ONLY**  
the flocks of origin are subject to routine testing for Salmonella Enteritidis and Salmonella typhimurium and other zoonotic Salmonella species following a similar programme to that applied in the statutory testing under the National Control Programme and with negative results for the last 12 months.

e) The flock(s) of origin are tested within \*28 days (for turkey or duck flocks) or \*21 days (for chicken flocks) of export by serology for all haemagglutinin sub-types of avian influenza with negative results.

\* delete if not applicable
