IV. HEALTH INFORMATION

I, the undersigned, certify that:

1. the consignment described at I. overleaf bears health marks which demonstrate that it is fit for human consumption and was produced in accordance with EU legislation in an establishment approved for intra-Community trade;
2. the milk/milk products described at I. overleaf do not originate from holdings subject to veterinary restrictions for any OIE Listed disease at the time of collection;
3. UK law prohibits the sale or supply of milk from cows affected or suspected of being affected with Bovine Spongiform Encephalopathy;
4. the feeding of ruminant protein to ruminants has been prohibited in Great Britain since July 1988 and in Northern Ireland since January 1989.
5. The United Kingdom has a comprehensive programme in place to monitor radioactivity in food and the environment. The results demonstrates that even the most exposed members of the UK public received radiation doses from consumption of local food and exposure to environmental radioactivity (due to discharges and direct radiation) that were below the statutory EU annual dose limit to members of the public of 1 millisievert per year from artificially-produced radionuclides as set in the Council Directive 96/29/Euratom of 13 May 1996.
