# APPLICATION ONLY

## NOT TO BE CERTIFIED

### IV. Health Information

I \_\_\_\_\_, the undersigned Official Veterinarian of the Veterinary Authority of the United Kingdom, certify that the animals described in Section I:

- a) Have been continuously resident in the United Kingdom since birth/hatching;
- b) Originate from The United Kingdom which is officially free from Eastern, Western and Venezuelan Equine Encephalomyelitis, and Japanese Encephalitis;
- c) Originate from premises where there have been no outbreaks of notifiable contagious disease to which the animals are susceptible;
- d) Were clinically examined and found to be healthy and free of external parasites. The animals were treated with an ectoparasiticide drug approved by the Veterinary Authority of the United Kingdom;
- e) Were shipped in insect and leak-proof containers which conform to IATA regulations and which were either new or suitably disinfected and fumigated before loading, to my satisfaction.
