

EXPORT OF CATS AND DOGS FROM GREAT BRITAIN TO LIBYA

NOTES FOR GUIDANCE OF THE OFFICIAL VETERINARIAN AND EXPORTER

IMPORTANT

These notes provide guidance to Official Veterinarians (OV) and exporters. The Notes for Guidance (NFG) should have been issued to you together with export certificate 3913EHC. The NFG should not be read as a standalone document but in conjunction with certificate 3913EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment.

1. SUMMARY OF REQUIREMENTS

- Export health certificate issued by DEFRA UK;
- Animals must be examined by the OFFICIAL VETERINARIAN, not more than 96 hours prior to export;
- Animals must have been resident in the UK for at least six months prior to export, or since birth;
- Legalisation of the export health certificate by the Foreign and Commonwealth Office and the Libyan Embassy in London.

2. CERTIFICATION BY AN OFFICIAL VETERINARIAN (OV)

This certificate may be signed by an OV appointed by the Department for Environment, Food and Rural Affairs, the Scottish Government or the Welsh Government, who is on the appropriate panel for export purposes or who holds the appropriate Official Controls Qualification (Veterinary)(OCQ(V)) authorisation, or an Authorised Veterinary Inspector (AVI) appointed by the Department of Agriculture, Environment and Rural Affairs - Northern Ireland (DAERA).

OVs/AVIs should sign and stamp the health certificate with the OV/AVI stamp in any colour **OTHER THAN BLACK**.

A certified copy of the completed certificate must be sent to the issuing office (in GB - the Centre for International Trade, Carlisle) within seven days of signing, or in the case of Northern Ireland, to DAERA, Dundonald House, Belfast.

The OV/AVI should keep a copy for his/her own records.

3. RABIES VACCINATION

Libya does not require rabies vaccination. Nevertheless, if the animals have been vaccinated, the export health certificate must be amended accordingly (deletion of paragraph IV.b.ii).

4. RESIDENCY IN GREAT BRITAIN

We understand that the veterinary authorities in Libya require animals to have been resident in Great Britain for six months prior to their export, or since birth. Exporters must provide the OFFICIAL VETERINARIAN with a written declaration to this effect. The declaration must also state that it is the owner's intention to export the animal from Great Britain.

5. LEGALISATION

The Export Health Certificate, once complete, must be legalised and should be sent or taken to:

- a) The Foreign and Commonwealth Office
Norfolk House West
437 Silbury Boulevard
Milton Keynes
MK9 2AH

(Tel: 020 72701500); and

b) The Libyan Embassy
119 Harley Street
London

6. TRAVELLING THROUGH OTHER COUNTRIES

It is the responsibility of the exporter/agent to apply to the relevant authorities of any transit countries for permission to transport the animals through these countries. Additional health certification may be necessary.

7. NOTIFIABLE DISEASE CLEARANCE

OFFICIAL VETERINARIANS may certify country freedom from rabies provided written authority to do so has been obtained from the issuing office on form EC618.

8. **WELFARE DURING TRAVEL**

Welfare conditions during transport are laid down by Council Regulation EC 1/2005, implemented in England by The Welfare of Animals (Transport) (England) Order 2006, and parallel legislation in Scotland, Wales, and Northern Ireland.

Exporters must comply with the UK welfare laws relating to the export of animals. If transported by air, animals should be transported in accordance with International Air Transport Association (IATA) standards.

Further information about the necessary requirements may be obtained from the Animal Welfare Team at any of the offices mentioned below:

England, Scotland & Wales

9. **DISCLAIMER**

This certificate is provided on the basis of information available at the time and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the Centre for International Trade - Carlisle, via the link below:
