to:

(country and place of destination)

b) Name and address of consignee:

c) Means of transportation:

d) Proposed date and port of shipment:

**IV. Health Information**

I, the undersigned, certify that the fresh meat described overleaf at I meets the following requirements:

- a) the said meat was obtained under conditions governing production and control laid down in European Community legislation on health problems affecting intra-community trade in fresh meat;
- b) the animals from which the meat was obtained were subjected to ante-mortem inspection under official veterinary supervision where no clinical evidence of notifiable infectious or contagious disease was noted;
- c) the animals from which the meat was derived were examined under official veterinary supervision immediately after slaughter and found fit for human consumption in accordance with legislation currently in force in the European Union (EU);
- d) the animals were slaughtered and the meat prepared in an establishment approved for trade within the EU;
- e) the animals from which the meat was derived originate from holdings on which no case of an OIE list A disease to which the species of origin is susceptible has been confirmed at the time of slaughter;

- f) the meat has been produced, handled, stored and transported within the EU in accordance with EU hygiene legislation;
- g) the meat is oval marked to denote that it is acceptable for human consumption in the United Kingdom;
- h) no case of an OIE list A disease to which the species of origin is susceptible has been confirmed in the United Kingdom during the last 12 months.

(1) Antigua will only accept fresh meat of non-bovine origin derived from animals slaughtered on or after 1st October 2002.
