(a) Name and address of exporter:

III Destination of products

(a) The product will be despatched from Great Britain to:

(country and place of destination)

(b) Name and address of consignee:

(c) Means of transportation:

IV Health Information

I, the undersigned, certify that:-

1. the consignment described at **I** overleaf bears oval marks which demonstrate that it is fit for human consumption and was produced in accordance with EU legislation in an establishment approved for intra-Community trade.

2. **EITHER**

*i) the United Kingdom is recognised by the Office International des Epizooties (OIE) as a country free from foot and mouth disease, without vaccination;

OR

*ii) the milk/milk products meet the following requirements

a) the milk/milk products originated from herds or flocks which were not infected or suspected of being infected with foot and mouth disease at the time of milk collection;

and

b) the milk has been subjected to a procedure which ensures inactivation of the foot and mouth disease virus, as set out in Articles 3.6.2.5. and 3.6.2.6. of the OIE Terrestrial Animal Health Code.

3. the feeding of ruminant protein to ruminants has been prohibited in the United Kingdom since July 1988.

4. the United Kingdom has a comprehensive programme in place to monitor radioactivity in food and the environment. The results demonstrate that even the most exposed members of the UK public received radiation doses from consumption of local food and exposure to environmental radioactivity (due to discharges and direct radiation) that were below the statutory EU annual dose limit to members of the public of 1 millisievert per year from artificially-produced radionuclides as set in the Council Directive 96/29/Euratom of 13 May 1996.
