

EXPORT OF DOGS, CATS AND FERRETS FROM THE UNITED KINGDOM TO TURKEY

NOTES FOR THE GUIDANCE OF THE OFFICIAL VETERINARIAN AND EXPORTER

IMPORTANT

These notes provide guidance to Official Veterinarians (OVs) and exporters. The NFG should have been issued to you together with export certificate 3818EHC. The NFG should not be read as a standalone document but in conjunction with certificate 3818EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment.

1. **Scope of the certificate**

This certificate 3818EHC may be used for the export of dogs, cats and ferrets from the United Kingdom to Turkey.

2. **Certification by an Official Veterinarian (OV)**

This certificate may be signed by an OV appointed by the Department for Environment, Food and Rural Affairs, the Scottish Government, Welsh Government or the Department of Agriculture, Environment and Rural Affairs (DAERA) Northern Ireland, who is on the appropriate panel for export purposes or who holds the appropriate Official Controls Qualification (Veterinary) (OCQ(V)) authorisation.

OVs should sign and stamp the health certificate with the OV stamp in any colour **OTHER THAN BLACK**.

Certified Copy Requirements - England, Wales and Scotland

Guidance concerning return of certified copies of EHCs has changed and only specific certified copies are required to be returned to the APHA. Certifying OVs must return a certified copy of EHCs only for the following EHC types:

- if the exported commodity is cattle, pigs, sheep, goats or camelids;
- if the certificate was applied for manually and the application documents have been emailed to APHA and not applied for via the Exports Health Certificates Online (EHCO) system.

Certified copies should be emailed on the day of signature to the Centre for International Trade Carlisle (CITC) at the following address: certifiedcopies@apha.gov.uk.

For certificates that have been issued to the Certifying OV via the EHCO system, the Certifying OV must complete the certifier portal with the status of the certificate and the date of signature.

A copy of all EHCs and supporting documentation certified must be retained for two years.

Certifying OVs are not required to return certified copies of other EHCs issued, however CITC may request certified copies of EHCs and supporting documentation in order to complete Quality Assurance checks or if an issue arises with the consignment after certification.

DAERA Export Health Certificates: provision of certified copies

Authorised Private Veterinary Practitioners (aPVPs) certifying DAERA Export Certification On-Line (DECOL) produced EHCs must return a

legible, scanned copy of the final EHC to the relevant DAERA Processing Office within 1 working day of signing.

Good quality photographic copies will be accepted by the Department where obtaining a scanned copy is not feasible - for example, where 'on site' certification is undertaken and scanning facilities are not available.

For record purposes, a copy of the final Export Health Certificate and associated Support documents should be retained by the aPVP for a period of 2 years from the date of certification.

The Department will carry out periodic audits of all aspects of export certification to ensure that a high standard of certification is being maintained.

3. **Import Permit**

The import of dogs, cats and ferrets is not subject to the requirement of an import permit unless those animals are travelling unaccompanied. Unaccompanied animals will not be allowed entry unless an import permit has first been obtained from the Department of Agriculture and Rural Affairs, Akay Cad No 3: Bakanlikar, Ankara, Turkey. This permit must accompany the animal. Failure to comply with any stipulated condition can lead to refusal of entry.

4. **Export Health Certificate**

An accompanied cat dog or ferret requires a veterinary health certificate and a rabies vaccination certificate.

5. **Clinical inspection**

The inspection must be carried out not more than 24 hours prior to the proposed date of export.

6. **Rabies vaccination and serology**

The animal must be vaccinated against rabies with a government authorised inactivated rabies virus vaccine on an **animal not less than 90 days old**. In this context, "government authorised vaccine" means a vaccine with a current marketing authorisation for use in dogs/cats/ferrets. If the vaccination has been carried out in another country, and the animal was legally imported into the UK under PETS, then the vaccine can be considered to be government approved or authorised.

It is highly recommended that the blood sample is taken at least 30 days after the pet is vaccinated against rabies, so there is compliance with the [Pet Travel Scheme](#) in case the animal is intended to return to the EU from a [non-EU unlisted country](#). Also, this will enable the animal to produce sufficient antibodies to record a positive test result.

7. **Welfare**

Exporters and transporters must comply with all the legislation for the welfare of live animals during transport. The welfare conditions required during transport, are set out in Council Regulation EC No 1/2005 (as retained), implemented in England by The Welfare of Animals (Transport)(England) Order 2006, with parallel legislation in Scotland and Wales.

If transported by air, animals should also be transported in accordance with International Air Transport Association (IATA)

standards.

Information about welfare during transport in Great Britain and the necessary requirements can be obtained from the Animal and Plant Health Agency: Welfare in Transport Team
Centre for International Trade
Eden Bridge House
Lowther Street, Carlisle
CA3 8DX
Phone: +44 (0) 3000 200 301
E-mail: WIT@apha.gov.uk

Or, in the case of Northern Ireland, DAERA at Dundonald House, Belfast.

8. **DISCLAIMER**

This certificate is provided on the basis of information available at the time, and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the APHA Centre for International Trade, Carlisle or DAERA, via the link or e-mail address below:
