9 HEALTH INFORMATION

I, the undersigned Official Veterinarian, hereby certify that:

- 9.1 The United Kingdom is free from Rinderpest and Foot and Mouth Disease in accordance with the World Organisation for Animal Health (WOAH) Terrestrial Animal Health Code;
- 9.2 The United Kingdom complies with the conditions in the Terrestrial Animal Health Code of the WOAH, as a country that presents a Negligible or Controlled Risk for Bovine Spongiform Encephalopathy;
- 9.3 The meat and meat products described above were derived from animals which were born and reared in the United Kingdom. The animals were born and reared in the United Kingdom on or after 1 August 2001, the date from which the ban on the feeding of ruminant protein (other than milk) and mammalian meat/bone meal to ruminants in the EU is considered to have been effectively enforced;
- 9.4 The meat was derived from animals which received ante- and post-mortem inspection under veterinary supervision at the time of their slaughter and were found to be sound, healthy and fit for human consumption;
- 9.5 The animals from which the meat was derived were examined by an Official Veterinarian prior to slaughter for signs of a Transmissible Spongiform Encephalopathy, with negative results;
- 9.6 Cattle from which the fresh meat and meat products destined for export originate were not subjected to a stunning process, prior to slaughter, with a device injecting compressed air or gas into the cranial cavity, or to a pithing process;
- 9.7 All nervous and lymphatic tissue which is considered to be 'specified risk material' in accordance with the Terrestrial Animal Code Chapter on Bovine Spongiform Encephalopathy has been removed from the carcasses following slaughter;
- 9.8 The slaughterhouse(s), cutting plants(s) and cold stores listed above are approved for export to the EU;
- 9.9 The meat, packages of meat referred to above bears an EU, UK or GB oval mark indicating that it has been obtained, handled and stored in accordance with EU regulations or EU regulations as assimilated into UK law and it continues to be fit for human consumption;
