EXPORTING COUNTRY: UNITED KINGDOM (GREAT BRITAIN)

FOR COMPLETION BY: OFFICIAL VETERINARIAN

I. Identification of the food products

a) Description of products:

b) Gross quantity (e.g. number of pallets, cages etc):

c) Species of origin:

d) Shipping marks:

II. Origin of the food products

a) Name and address of consolidation centre or despatch depot:

b) Name and address of exporter:

III. Destination of the food products

a) The products will be despatched from: GREAT BRITAIN

to:

(Country and place of destination)

b) Name and address of consignee:

c) Means of transport:

IV. Animal Health Attestation

I, the undersigned, hereby certify that:

1. the consignment described in Paragraph I bears oval marks which demonstrate that it is fit for human consumption and was produced in accordance with EU legislation and Commission Decision 2007/554/EC concerning interim protection measures against foot and mouth disease in the UK;
2. UK law prohibits the sale or supply of milk from cows affected or suspected of being affected with Bovine Spongiform Encephalopathy;
3. the feeding of ruminant protein to ruminants has been prohibited in Great Britain since July 1988;
4. the United Kingdom has a comprehensive programme in place to monitor radioactivity in food and the environment. The results demonstrates that even the most exposed members of the UK public received radiation doses from consumption of local food and exposure to environmental radioactivity (due to discharges and direct radiation) that were below the statutory EU annual dose limit to members of the public of 1 millisievert per year from artificially-produced radionuclides as set in the Council Directive 96/29/Euratom of 13 May 1996;
5. the meat/poultrymeat (and meat/poultrymeat used in the manufacture of preparations/products) was derived from animals which originated from holdings on which none of the following OIE List A diseases to which the species of origin is susceptible have been confirmed: African swine fever, classical swine fever, swine vesicular disease, Newcastle disease or avian influenza.
