(a)	Name and address of	exporter:	
(b)	Name, address and o	official approval number of plant of produ	action

III. DESTINATION OF PRODUCTS

(b) Name and address of consignee:

(c) Means of transportation:

IV. HEALTH INFORMATION

- I, the undersigned, certify that:
 - 1. the products described at paragraph I bear oval marks, or are made from milk ingredients which bear oval marks, which demonstrate that they are fit for human consumption;
 - 2. the products do not contain milk which originates from holdings on which an epizpotic Office International des Epizooties (OIE) Listed disease to which the species of origin is susceptible, and which can be transmitted through milk¹, has been confirmed at the time of collection of the milk;
 - 3. the products have undergone, or contain milk which has undergone, treatment in accordance with European Union legislation on the health rules on the production of milk and milk products, and meet the microbiological criteria laid down therein, including freedom from salmonella and other pathogenic organisms associated with milk;
 - 4. all the necessary precautions were taken after treatment to prevent contamination of the products:
 - 5. the United Kingdom has a comprehensive programme in place to monitor radioactivity in food and the environment. The results demonstrates that even the most exposed members of the UK public received radiation doses from consumption of local food and exposure to environmental radioactivity (due to discharges and direct radiation) that were below the statutory EU annual dose limit to members of the public of 1 millisievert per year from artificially-produced radionuclides as set in the Council Directive 96/29/Euratom of 13 May 1996.
