Subject: Illicit IPTV Streaming devices - Call for Views
Attachments: Techshop Media - Piracy - summary of evidence.pdf
Categories: IPTV call for views

Dear Sir / Madam,

Thanks for the opportunity to submit a view and some evidence on unauthorised IPTV (Android boxes). I have been involved in monitoring , reporting and enforcement action on these boxes in Hong Kong, Singapore and Australia for the last 7 years. These boxes are one of the most damaging forms of piracy facing the media/content industries.

Here is a summary of evidence of a box operated by a group of English ex-pats living in Australia. We have taken down most of their social media pages. We have not commenced legal action against the operators at this point as the case law in Australia suggests we may not be successful due to outdated legislation and standing issues.

We are encouraged by recent successful actions in the UK and hope to use these cases as judicial guidance for enforcement action in other parts of the world.

Best regards
