PART II : CERTIFICATION	II. HEALTH ATTESTATION/ I, the undersigned official veterinarian, hereby certify that the collagen casing described in this certificate was produced in accordance with the following requirements/ :	
II.1.1. It has been produced from raw materials (hides and skins) which met the following requirements: - (a) the raw materials are derived from animals which have been slaughtered in a slaughterhouse and have been found fit for human consumption following <i>ante-mortem</i> and <i>post-mortem</i> inspection; - (b) the raw materials originated from establishments under the supervision of the competent veterinary authorities; - (c) hides and skins used have not undergone any tanning process; and (d) the collagen was prepared exclusively from hides and skins;		
II.1.2. It has been manufactured: - (a) in an establishment under the supervision of the competent veterinary authorities and approved for the manufacture of collagen; - (b) by a process to ensure that the raw material is subjected to a treatment involving washing, pH adjustment using acid or alkali followed by one or more rinses, filtration and extrusion or by an approved equivalent process. The extrusion step may be omitted when manufacturing low molecular collagen from raw materials of non-ruminant origin; - (c) such that after having been subjected to the process referred to in point (b), the collagen underwent a drying process.		
II.1.3. After manufacture, the product was stored under appropriate hygiene conditions and the necessary measures were taken to avoid contamination.		

II.1.4. The product meets the following microbiological limits:

Micro organisms	Limits
<i>Salmonella</i>	Absence in 25g

II.1.5. The packages were appropriately wrapped and labelled.

II.1.6. The label bears the words "collagen fit for human consumption" and indicates the country and establishment of origin and the date of preparation.

II.1.7. The container in which the product is dispatched complies with appropriate hygiene and sanitary requirements.
