

No:

EXPORT OF ANIMAL FEED CONTAINING NO INGREDIENTS OF ANIMAL ORIGIN TO INDIA - 7860EHC

NOTES FOR GUIDANCE OF THE OFFICIAL VETERINARIAN

Associated Documents: 7860EHC and 618NDC

IMPORTANT

These notes provide guidance to Official Veterinarians (OV) and exporters. The NFG should have been issued to you together with export certificate 7860EHC. The NFG should not be read as a standalone document but in conjunction with certificate 7860EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment.

1. SCOPE OF THE CERTIFICATE

Export health certificate 7860EHC may be used for the export from the UK of animal feed that does not contain any ingredients of animal origin or any aquatic products or any marine products, to India.

Exporters wishing to consign products containing intestinal microorganisms should verify, via their contacts, if the authorities in India would accept this certificate for their specific products.

2. Certification by an Official Veterinarian (OV)

This certificate may be signed by an OV appointed by the Department for Environment, Food and Rural Affairs, the Scottish Government, Welsh Government or the Department of Agriculture, Environment and Rural Affairs (DAERA) Northern Ireland, who is on the appropriate panel for export purposes or who holds the appropriate Official Controls Qualification (Veterinary) (OCQ(V)) authorisation.

OVs/AVIs should sign and stamp the health certificate with the OV/AVI stamp in any colour **OTHER THAN BLACK**.

Certified Copy Requirements - England, Wales and Scotland

Guidance concerning return of certified copies of EHCs has changed and only specific certified copies are required to be returned to the APHA. Certifying OVs must return a certified copy of EHCs only for the following EHC types:

- if the exported commodity is cattle, pigs, sheep, goats or camelids;
- if the certificate was applied for manually and the application documents have been emailed to APHA and not applied for via the Exports Health Certificates Online (EHCO) system.

Certified copies should be emailed on the day of signature to the Centre for International Trade Carlisle (CITC) at the following address: certifiedcopies@apha.gov.uk.

For certificates that have been issued to the Certifying OV via the EHCO system, the Certifying OV must complete the certifier portal with the status of the certificate and the date of signature.

A copy of all EHCs and supporting documentation certified must be retained for two years.

Certifying OVs are not required to return certified copies of other EHCs issued, however CITC may request certified copies of EHCs and supporting documentation in order to complete Quality Assurance checks or if an issue arises with the consignment after certification.

DAERA Export Health Certificates: provision of certified copies

Authorised Private Veterinary Practitioners (aPVPs) certifying DAERA Export Certification On-Line (DECOL) produced EHCs must return a legible, scanned copy of the final EHC to the relevant DAERA Processing Office within 1 working day of signing.

Good quality photographic copies will be accepted by the Department where obtaining a scanned copy is not feasible - for example, where 'on site' certification is undertaken and scanning facilities are not available.

For record purposes, a copy of the final Export Health Certificate and associated Support documents should be retained by the aPVP for a period of 2 years from the date of certification.

The Department will carry out periodic audits of all aspects of export certification to ensure that a high standard of certification is being maintained.

3. Paragraph IV - HEALTH INFORMATION

Taking into consideration the additional guidance below, the health attestation may be certified on the basis of the OV's familiarity with the sourcing, processing, handling and storage arrangements in place at the processing establishment and/or examination of relevant records and documentation including applicable laboratory test results.

Paragraph IV(a) Notifiable disease clearance

This paragraph may be certified on behalf of the Department provided written authority to do so has been obtained from the APHA Centre for International Trade in Carlisle or from DAERA on form 618NDC.

Paragraph IV(b) Risk of transmitting TSE

That the product does not present a risk of transmitting TSE may be certified on the basis that the product does not contain any ingredients of animal origin.

It is therefore important that the manufacturer's declaration is supported by the certifying OV's knowledge and familiarity of the manufacturing plant to verify the basis on which the declaration is being made.

4. SUPPORTING DECLARATIONS

If declarations are relied upon to support the completion of this certificate, these must be signed by someone who has knowledge of and responsibility for the relevant parts of the production process. The managing director (or equivalent) of the company should provide a letter giving the name(s) and job title(s) of those authorised to give the declaration and the basis on which the declaration is made.

The declaration should include a clause indicating that the signatory is aware that making a false declaration is an offence and that he/she accepts full responsibility if any problems arise with the export should there be any dispute relating to the matters being declared.

The RCVS Guide to Professional Conduct 2012 states that [Veterinary Surgeons] "must not recklessly confirm what other people have stated". Where possible, supporting evidence should be called for and put on file.

5. **DISCLAIMER**

This certificate is provided on the basis of information available at the time, and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the APHA Centre for International Trade, Carlisle or DAERA, via the link or e-mail address below:
