

EXPORT OF MILK BASED PRODUCTS FOR ANIMAL CONSUMPTION TO SOUTH KOREA -
6280EHC

NOTES FOR GUIDANCE FOR THE EXPORTER AND CERTIFYING OFFICIAL VETERINARIAN

Associated Documents: 6280EHC

IMPORTANT

These notes provide guidance to Official Veterinarians (OV) and exporters. The NFG should have been issued to you together with export certificate 6280EHC. The NFG should not be read as a standalone document but in conjunction with certificate 6280EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment.

1. SCOPE OF THE CERTIFICATE

Export health certificate 6280EHC may be used for the export of milk-based products for animal consumption from the United Kingdom to South Korea.

2. CERTIFICATION BY AN OFFICIAL VETERINARIAN (OV)

This certificate may be signed by an OV appointed by the Department for Environment, Food and Rural Affairs, the Scottish Government or the Welsh Government, who is on the appropriate panel for export purposes or who holds the appropriate Official Controls Qualification (Veterinary)(OCQ(V)) authorisation, or an Authorised Veterinary Inspector (AVI) appointed by, or an OV of, the Department of Agriculture, Environment and Rural Affairs in Northern Ireland (DAERA).

OVs/AVIs should sign and stamp the health certificate with the OV/AVI stamp in any colour **OTHER THAN BLACK**.

A certified copy of the completed certificate must be sent to the issuing office (in GB - the Centre for International Trade, Carlisle) within seven days of signing, or in the case of Northern Ireland, to DAERA, Dundonald House, Belfast.

The OV/AVI should keep a copy for his/her own records.

3. PARAGRAPH IV - HEALTH INFORMATION

Paragraph IV may be certified on the basis of any necessary evidence resulting from the OV's familiarity with the sourcing, procurement, segregation, processing, handling and storage arrangements in place at the facility. This should be supported as necessary by physical inspection and examination of relevant documentation and/or records including commercial documentation, veterinary statements and valid declarations.

Where declarations are relied upon to support the completion of this certificate, these must be signed by someone who has knowledge of and responsibility for the relevant parts of the production process. The managing director (or equivalent) of the company should provide a letter giving the name(s) and job title(s) of those authorised to give the declaration and the basis on which the declaration is made.

The declaration should include a clause indicating that the signatory is aware that making a false declaration is an offence and that he/she accepts full responsibility if any problems arise with the export should there be any dispute relating to the matters being declared.

4. **DISCLAIMER**

This certificate is provided on the basis of information available at the time and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the Centre for International Trade - Carlisle, via the link below:
