Date:..... Signed.....
Name in block letters
Official Veterinarian

Stamp

* Where

- n = number of units comprising the sample
- m = threshold value for the number of bacteria; the result is satisfactory if the number of bacteria in all the sample units does not exceed m
- M = maximum value for the number of bacteria; the result is considered unsatisfactory if the number of bacteria in one or more sample units is M or more
- c = number of sample units the bacterial count of which may be between m and M, the sample still being considered acceptable if the bacterial count of the other sample units is m or less/
