- (b) Name and address of exporter:

**III. Destination of products**

(a) The product was despatched from United Kingdom to:

(country and place of destination)

(b) Name and address of consignee:

(c) Means of transportation:

**IV. Health Information**

I, the undersigned Official Veterinarian certify that I have examined the production records relating to the batches of fire foam described above and other company records and, on the basis of these records and familiarity with the production plant, can confirm that:

- (a) the product has been derived from bovine hoof and horn originating entirely from India and/or Brazil;
- (b) the material has been subjected to the following process:  
At the manufacturing facility detailed in II(a) the protein material is subjected to a hydrolysis process under severe caustic hydrolysis conditions (95°C for 7 hours at pH>10) and sealed in containers;
- (c) no other material of animal origin is handled at the manufacturing facility detailed in II(a), therefore cross-contamination with animal protein from countries other than Brazil and India is not possible
