## 1. Call Context

The 2014 to 2020 European Structural and Investment Funds (ESIF) bring the European Regional Development Fund (ERDF), European Social Fund (ESF) and part of the European Agricultural Fund for Rural Development (EAFRD) together into a single European Union (EU) Structural Investment Funds (ESIF) Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Enterprises (SME), low carbon, skills, employment, and social inclusion.

European Structural and Investment Funds are managed by the Ministry of Housing, Communities and Local Government (ERDF), Department for Work and Pensions (ESF) and the Department for Environment Food and Rural Affairs (EAFRD). In London, the Greater London Authority acts as an Intermediate Body for the European Regional Development Fund and European Social Fund programmes. Unless stated otherwise, the term "Managing Authority" will apply to all these organisations. These Departments are the Managing Authorities for each Fund. The Managing Authorities work closely with local partners who provide:

- Practical advice and information to the Managing Authorities to assist in the preparation of local plans that contribute towards Operational Programme priorities and targets;
- Local intelligence to the Managing Authorities in the development of project calls (decided by the Managing Authorities) that reflect Operational Programme and local development needs as well as match funding opportunities;
- Advice on local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy to aid the Managing Authority's assessments at outline and full application stage.

This call is issued by the Department for Work and Pensions (DWP) to commission ESF Funded projects that will support the **Priority Axis 1 of the Operational Programme: Inclusive Labour Markets** and **Investment Priority: 1.1 Access to Employment for Jobseekers and Inactive People** as set out in the Operational Programme.

All applications will need to be eligible under the European Social Fund Operational Programme for England 2014 to 2020. The <u>ESF Operational Programme</u> is available for applicants to read.

This call for proposal sets out the requirements for any applicants to consider before applying. Applications against this call will be assessed as part of a two stage appraisal process and successful applicants will enter into a funding agreement with the DWP. Further information is given in sections 4 to 10.

All ESF applicants will need to be aware of the requirement to collect and report data on all participants as per Annex 1 (see Appendix A). This will be as well as the requirement of reporting on output and result indicators referred to in section 3 of the call for proposal.

#### 1.1 National Context

This priority axis aims to increase participation in the labour market and thereby improve social inclusion and mobility. It will support activities through:

**Investment priority: 1.1** - Access to employment for job seekers and inactive people, including the long term unemployed and people far from the labour market, also through local employment initiatives and support for labour mobility

ESF will not fund activity that duplicates or cuts across national policy on grants and loans for tuition for skills activities. Exemptions to this principle will be considered only where a local specific need and/or market failure has been demonstrated and where the activity falls within the scope of the Operational Programme.

Full details of what can and cannot be supported under this Investment Priority are set out in the Operational Programme. Details of the specific objectives have been reproduced below.

Specific Objective	Results that the Member States seek to achieve with Union support
To address the basic skills needs of unemployed and inactive people so that they can compete effectively in the labour market.	This objective is focused on individuals who lack the basic skills required by employers, such as IT, literacy and numeracy. Participants will have the opportunity to gain basic skills relevant to labour market needs or to enable them to progress towards gaining further skills. The main result will be that those without basic skills will be helped to gain them. This will enable them to play a fuller part in the labour market. There is an output target for participants without basic skills and a result target for participants gaining basic skills.
To improve the employability of long-term unemployed people, so that they can compete effectively in the labour market.	This specific objective is focused on those who are long-term unemployed and who are less likely to move back into work than people who have been unemployed for less time. The additional support from this investment priority will help long-term unemployed people to tackle their barriers to work and move into sustainable employment. The main result target focuses on moving participants into employment (including self-employment) on leaving. There will be a quantified result target set for this result indicator in each category of region.
To provide individuals from groups which face particular labour market disadvantage with additional support so that they can compete effectively in the labour market.	This objective is focused on those who are unemployed but have more than one major barrier to progressing into employment (including self-employment) and sustaining employment. This client group will be more challenging to help and will often require intensive ongoing support to address complex barriers, which will be reflected in the targets. Support will be tailored to individual needs. Participants will include individuals who are over 50, lone parents, disabled or have health problems,

from ethnic minorities or who lack basic skills. The main result targets focus on moving participants into employment or into education/training or getting them involved in active jobsearch. Output targets will ensure we are reaching appropriate numbers of participants from these groups. This objective is focused on individuals who are To encourage inactive people to participate in the distant from the labour market and who need labour market and to additional support to give them the skills and/or improve their employability. confidence to enable them to move towards employment (including self-employment). Participants will include individuals who are lone parents, disabled or who have health problems, are over 50 or who are from ethnic minorities. The priority will be on those who are receiving inactive benefits. The main result that will be achieved is that inactive participants will engage more in the labour market. A specific output target will ensure we are targeting inactive people, and we have result targets to measure movement into work and increases in activity. To provide support for The additional support from this investment priority will help more unemployed and inactive women to women at a disadvantage in the labour market, and complete effectively in the labour market. It will be particularly those who are focused on engaging and providing additional support to women who have barriers to entering the currently inactive, to contribute to our efforts to labour market, including language, skills, age and caring responsibilities. Participants could include reduce the gender employment gap. older women wishing to return to work after caring for children, lone parents or women from ethnic minorities who have never worked. The main result that will be achieved is that more participants will be in sustainable employment (including selfemployment) or engaged in active job search on leaving. There is a stretching output target for female participation and a result target for participants with childcare needs receiving childcare

#### 1.2 Local Development Need

Projects must deliver activity which directly contributes to the objectives of Priority Axis 1, Investment Priority 1.1 of the Operational Programme, and which meets the **local development need** expressed in the text and table below.

support.

#### Call outline

Since the launch of the European Structural Investment Fund (ESIF) 2014-2020 programme the Enterprise M3 (EM3) area has enjoyed a period of sustained growth. The area has a high percentage of working-age population (81%) in employment, but there is a need to support more people to access work. The

focus of projects should be on providing skills training and on co-ordinating and delivering integrated wrap-around employment support activities.

The EM3 ESIF Strategy (<a href="https://www.enterprisem3.org.uk/document/european-structural-and-investment-fund-strategy-refreshed-april-2016">https://www.enterprisem3.org.uk/document-fund-strategy-refreshed-april-2016</a>) identified a high concentration of employment in the construction industry. The CiTB (<a href="https://www.citb.co.uk/documents/local%20information/lep%20pdfs/lep%20manifest-o%20enterprise%20m3.pdf">https://www.citb.co.uk/documents/local%20information/lep%20pdfs/lep%20manifest-o%20enterprise%20m3.pdf</a>) evidences 62,300 jobs within construction in the EM3 area alone. The CiTB (<a href="https://www.citb.co.uk/research-insight/construction-skills-network/south-east/">https://www.citb.co.uk/research-insight/construction-skills-network/south-east/</a>) has estimated the average annual recruitment requirement for the South East is 2,250 for the 2018- 2022 period.

The EM3 area is forecast to have significant infrastructure investment over the next 20 year period and beyond, which will have an impact on the workforce demand. Along with the investment plans articulated in Enterprise M3's Growth Deal other significant investments in the area will also have a significant impact on skills demands. The investments will have wide ranging impact on the economy. The level of construction skills required to support the issues will be significant. For example the Government has recently approved initiatives that will impact on the construction industry e.g.

Heathrow airport expansion - expected expansion to create 40,000 new jobs and 10,000 new apprenticeships

Crossrail 2- creating 60,000 full-time jobs across the UK while Crossrail 2 is being built and, when operational, support 200,000 new jobs

Other investments in transport infrastructure, enterprise zones, and housing are also having a significant impact on demands in this industry. The EM3 ESIF strategy identifies requirements for higher level skills to develop skills for the future including skills for the construction industry. To service this demand Enterprise M3 requires a pipeline of skilled individuals who are able to access and move up the different skills levels within the industry.

#### **Local priorities**

The construction industry is changing with many more jobs requiring technical qualifications, with new techniques emerging in infrastructure building methods and technologies e.g. modular home construction.

As stated in the EM3 ESIF strategy, the skills activity should be focused on technical skills and retraining opportunities, in particular those groups that are underrepresented in the labour market, i.e. young people, women and older people. The activity should aim to develop skills to help meet future needs in relation to new technology, (e.g. low carbon technology), modular housing construction, or production methods.

Examples of activities that may be supported include:

- encourage inactive people to participate in the construction labour market and to improve their employability;
- support for collaborative projects and other activities within the construction sector to improve the employability of long-term unemployed people, so that they can compete effectively in the labour market. For example additional and

innovative approaches to pre-employment training, to ensure individuals have the core work-related skills that employers require, including preparation for apprenticeships;

- support for those who need pre-traineeship and pre Work Programme assistance, to prepare them for the next step.
- developing skills, including basic skills, to meet the changing face of construction with new technology, construction and productions methods.
- provide individuals from groups which face particular labour market disadvantage with additional support so that they can compete effectively in the construction labour market working with wider employer engagement and involving supply chains;
- promoting apprenticeships as next steps (especially at higher levels to support the construction sector) including working with wider employer engagement and supply chains;
- ensuring participants are able to access construction sites e.g. health and safety, PPE training and equipment, and CSCS cards;
- provide support for women at a disadvantage in the construction labour market, and particularly those who are currently inactive, to contribute to our efforts to reduce the gender employment gap.

The outcomes of the project will enable participants to move into employment, further training, apprenticeships or traineeships.

The provision is to develop a comprehensive package of support for unemployed and economically inactive residents, to gain technical skills to support the construction sector. Activities supported through the project should build on and help focus existing relevant mechanisms such as Jobcentre Plus services, along with additional support already provided by local authorities and the voluntary sector.

Applications are encouraged from consortia or other similar types of partnership arrangements. In each such case the application must be submitted by a lead organisation on behalf of the partnership/consortia and the lead applicant must have the financial capacity to meet the required Due Diligence criteria

### 1.3 Scope of activity

This call invites Outline Applications which support the delivery of Priority Axis 1, Investment Priority: 1.1 Access to employment for jobseekers and inactive people of the European Social Fund Operational Programme and responds to the local development need set out in the Enterprise M3 Local Enterprise Partnership Area European Structural and Investment Funds Strategy.

This call aims to address the identified shortfalls listed in section 1.2 Local Development Need above.

# 2. Call Requirements

All applications are competitive.

Indicative Fund Allocation:	Indicatively, through this call the Managing Authority expects to allocate approximately £1,000,000 ESF			
Anocation.	expects to anotate approximately £1,000,000 £31			
	The Managing Authority reserves the right to decrease or increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received.			
Minimum application level	European Social Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact. The Managing Authority does not intend to allocate less than £200,000 of European Social Funding to any single project.			
	In order to ensure that a range of activity across the whole of the EM3 LEP area is supported, it is envisaged that multiple projects could be funded.			
Duration of project	Projects should be for a maximum of three years; however the Managing Authority reserves the right to vary the maximum duration in exceptional circumstances.			
Geographical Scope	All interventions should be focused on activity and beneficiaries within the Enterprise M3 Local Enterprise Partnership area.			
Specific call requirements	This is a call for ESF activity.			
Call Deadlines	For this specific call, applications will be assessed following closure of the call. Applications received after the published call close date will not be considered.			
Application selection	All applications will be scored in line with the ESF scoring criteria, but the MA reserve the right to invite projects to full application stage where they complement other activity or provide niche activity to target groups within the OP.			
Applicant proposals	These can only contain activities which are eligible for ESF.			
Eligible match funding	Applicants will need to have eligible match funding for the balance of costs, which must be from a source other than the European Union. At outline application stage the applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.			

Operational completion	Operations must be completed no later than 3 years and		
	6 months after the proposed project start date.		
Procurement	All procurement must be undertaken in line with EU		
	regulations.		
State Aid law	Applicants must demonstrate compliance with State Aid		
	law.		
Audit/ Compliance	All expenditure and activities will be subject to rigorous		
	audit and non-compliance may lead to financial penalty.		

ESF cannot be used to duplicate existing activities or activities that do not address market failure. ESF can only be used to achieve additional activity or bring forward activity more quickly. Applicants must be able to demonstrate that proposals are additional to activity that would have occurred anyway or enables activity to be brought forward and delivered more quickly than otherwise would be the case in response to opportunity or demand.

# 3. Deliverables required under this Call:

Applications will be expected to achieve the minimum indicative level of Programme Deliverables by contributing to the following Investment Priority. The definitions of which can be accessed at the <a href="ESF Operational Programme">ESF Operational Programme</a>.

Investment Priority	1.1 Access to employment for jobseekers and inactive people				
Specific Objectives	To help those who are disadvantaged but still relatively close to the labour market to tackle their barriers to work, and enter and sustain employment.				
Indicative Actions	ESF will not support activities that duplicate or replace existing support within national programmes, but may be used to support additional activities or target groups, including provision co-design with local partners.				
	Examples of actions which may be supported for all unemployed and inactive people include:				
	<ul> <li>additional and innovative approaches to pre-employment training, to ensure individuals have the core work-related skills that employers require, including preparation for apprenticeships;</li> </ul>				
	<ul> <li>support for those who need pre-traineeship and pre Work Programme assistance, to prepare them for the next step.</li> <li>training for those who need to upgrade their skills or learn new skills (including basic skills and English for non-speakers) to compete in the local labour market and adapt to changes in the economy;</li> </ul>				
	<ul> <li>helping people access or benefit from apprenticeships, including support for women to enter non-traditional sectors which addresses barriers to entry (e.g. construction);</li> </ul>				

Investment Priority	1.1 Access to employment for jobseekers and inactive people		
	<ul> <li>providing access to transport where this is a barrier to taking up a job;</li> <li>providing advice, guidance and support by plugging gaps in national provision where appropriate, in order to help people make better informed choices, and in particular to take account of the jobs available in the local area;</li> <li>specific careers advice for women, to help them make informed career choices;</li> <li>using self-employment as a route out of worklessness, including providing advice and support for self-employment (an attractive option where an individual is struggling to find work with an employer, either because they lack experience or because they face discrimination).</li> </ul>		

## **Results Table**

ID	Result Indicator	Minimum Target value for this call
R1	Unemployed participants into employment (including self-employment) on leaving	22% More Developed
R2	Inactive participants into employment, or job search on leaving	33% More Developed
R3	Participants gaining basic skills	4% More Developed
R4	Participants with childcare needs receiving childcare support	36% More Developed
ESF-CR06	Participants in employment, including self-employment, 6 months after leaving	34% More Developed

# Outputs table

ID	Output Indicator	Total minimum target value for this call	Men minimum target value	Women minimum target value
01	Participants	1450	1000	450

ID	Output Indicator	Total minimum target value for this call	Men minimum target value	Women minimum target value
ESF -CO01	Unemployed, including long-term unemployed	1050		-
ESF – CO03	Inactive	400	-	-
O4	Participants over 50 years of age	320	-	-
O5	Participants from ethnic minorities	126	-	-
ESF - CO16	Participants with disabilities	238	-	-
O6	Participants without basic skills	369		
ESF - CO14	Participants who live in a single adult household with dependent children	113	-	-

Applicants will be required to demonstrate how they will achieve the deliverables within their proposal along with any methodology that will be used to record achievement. Applicants will also need to ensure robust systems are in place, and be able to describe them, to capture and record the targets and to report quantitative and qualitative performance across the Enterprise M3 LEP area. All operations will be required to collect data and report progress against the deliverables with each claim. Where an operation underperforms against their deliverables they may be subject to a performance penalty.

There must be a fully evidenced audit trail for all contracted deliverables.

# 4. General Information

Essential information to support the drafting of an application and delivery of a successful ESF funded project is available at the <u>European Growth Funding</u> website pages.

## 4.1 Compliance and Eligibility

When developing an application, Applicants should refer to <u>guidance</u> on eligible Applicants, activities and costs. These are for guidance only and Applicants should take their own specialist advice if in doubt. It is the responsibility of the Applicant to ensure that the rules and guidance are adhered to both at application stage and following approval.

European Structural Investment Funds (ESIF) are governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant

documentation listed in the 'key documents' section prior to submitting an Outline application. If successful, Applicants will enter into the standard Funding Agreement and must abide by the standard terms and conditions contained therein. Applicants are therefore strongly advised to read these terms and conditions to ensure that they would be able to enter into such an agreement prior to responding to the call. Once a Funding Agreement has been issued it should be signed and returned within a short timescale.

#### 4.2 Intervention Rate & Match Funding

ESF is funding used where no other funding can be obtained (the funder of last resort) and the maximum ESF intervention rate for the operation is 50%. This means ESF can contribute <u>up to</u> 50% of the total eligible project costs, subject to State Aid regulations. The remaining 50% or more must come from other eligible sources. For all outline applications, the applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.

ESF is not paid in advance and expenditure must be defrayed prior to the submission of any claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

## 4.3 Applicants

Applicants must be legally constituted at the point of signing a Funding Agreement, and be able to enter into a legally binding Funding Agreement. The Applicant will be the organisation that, if the application is successful, enters into a contract for ESF and therefore carries the liability for ensuring that the terms of the ESF Funding Agreement are met by them and to all delivery partners. If there is more than one organisation applying for the funds, a lead organisation must be selected to become the Applicant. It is this organisation that carries the responsibility and liability for carrying out a compliant project.

The Managing Authority will consider the Applicant's track record, both positive and negative. If the Applicant has been involved in the delivery of previous European grants and any irregularities with this (these) grant(s) have been identified, the Managing Authority will look into these and expect to see how and what steps have been taken to ensure that these have been addressed to mitigate the risk of further irregularities in the future. It is acknowledged that some organisations will be new to ESIF funding and will not have a track record.

## 4.4 Cross Cutting Themes

All applications received under this Call should demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross cutting themes for ESF are 'gender equality and equal opportunities' and 'sustainable development'.

For ESF, the project applicants will be required to deliver their services in-line with the Public Sector Equality Duty (as defined in the Equality Act 2010). All projects must have a gender and equal opportunities policy and implementation plan which will be submitted at full application stage and in-line with Managing Authority

guidance. Project applicants will also be required to answer a number of ESF-specific equality questions which will be set out in both the full application form and the related guidance.

For ESF, all projects will also be required to submit a sustainable development policy and implementation plan (in-line with guidance produced by the Managing Authority).

The ESF programme particularly welcomes projects that have an environmental focus that can meet the strategic fit at local and programme level whilst also adding value by:

- supporting environmental sustainability; and/ or
- complementing the environmental thematic objectives of other programmes such as ERDF; and/or
- using the environment as a resource to help motivate disadvantaged people

Further information is available in the ESF Operational Programme.

#### 4.5 State Aid & Revenue Generation

Applicants are required, in the Outline Application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid. Grant funding to any economic undertaking which is state aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme or is covered by the De Minimis Regulation. Guidance for grant recipients, explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the Programme.

The Managing Authority is not able to give legal advice on State Aid. It is the responsibility of the Applicant to ensure that the operation is State Aid compliant.

Where the Applicant does not perceive that there is any State Aid, it should state whether or not it considers Articles 61 and 65(8) of regulation 1303/2013 to apply. This revenue should be taken into account in calculating eligible expenditure. Article 61 refers to monitoring revenues generated after completion of the project, and Article 65(8) how to deal with differences in the forecast and actual revenues at the end of the operation. The details of this will be tested at the full application stage.

#### 4.6 Funding Agreement

The Funding Agreement is a standard, non-negotiable and legally binding document. Any successful Applicant will be subject to the terms and conditions contained within this agreement. Applicants are strongly advised to seek their own advice to ensure

<sup>&</sup>lt;sup>1</sup> Article 107(1) of the Treaty on the Functioning of the European Union provides that: "Save as otherwise provided in the Treaties, any aid granted by a Member State or through state resources in any form whatsoever which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market."

that they would be able to enter into and abide by the terms of the Funding Agreement.

Failure to meet any of the conditions of the agreement or the commitments within the application will result in claw back of funding.

Applicants should be aware that additional provisions and securities may be included within the Funding Agreement to protect the investment. These will be further discussed if relevant following the Full Application stage.

#### 4.7 Procurement

All costs delivered by the Grant Recipient (the applicant) and/or delivery partners must be delivered on an actual cost basis. Other costs must be procured in line with EU regulations. The most common error identified during audit has been failure to comply with relevant procurement regulations and crucially to maintain a full audit trail to prove that they have complied with the relevant regulation. Robust and transparent procurement is required to ensure that Grant Recipients:

- consider value for money;
- maximise efficient use of public money; and
- maintain competitiveness and fairness across the European Union.

It is recommended that applicants seek their own legal advice pertaining to their procurement and requirements to publicise any tendering opportunities.

The Managing Authority is not able to give legal advice on procurement. It is the responsibility of the applicant to ensure the project is compliant in this respect.

#### 4.8 Retrospection

There will be no retrospection for applications made against this call, other than in line with the general policy on retrospection which allows costs to be potentially eligible between outline and full application stage, but only where the full application is approved.

# 5. Application Process & Prioritisation Methodology

There are two stages to the ESF application process; Outline Application and if successful, Full Application. Applicants must fully complete the Outline Application Form (section 9 refers). Guidance is available on the <a href="European Growth Funding">European Growth Funding</a> website pages. Acceptance of an Outline Application to progress to full application stage does not in any way indicate or constitute an offer of European Social Fund grant. Applications will be subject to a Gateway Assessment undertaken by the Managing Authority under the following criteria:

- Applicant eligibility;
- Activity and expenditure eligibility; and
- The fit with the ESF OP and the call.

Proposals that pass the Gateway Assessment will move into the Core Assessment which consists of the following:

- Strategic fit;
- Value for money;
- Management & control;
- Deliverability;
- Procurement / tendering; and
- State Aid compliance.

The Managing Authority will seek advice from partners when considering applications to ensure its assessment is informed by local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy. This will include the relevant LEP Area ESIF Committee and other partners deemed relevant to the application.

The assessment and any prioritisation will be undertaken using only the information supplied as part of the application process. The Managing Authority cannot accept further detail outside this process.

Non-public sector Applicants who are successful at the Outline Application stage may be subject to due financial diligence checks by the Managing Authority, prior to submission of a Full Application. Applicants will be required to submit accounts, and to clarify financial or other organisational information. New Applicant organisations may be required to provide details of a guarantor.

There is no appeal process for applicants whose Applications are rejected at Outline Application stage, Full Application stage or for failing to satisfy the MA's Financial Due Diligence checks.

# 6. Support

Please note that this is a competitive call and to preserve impartiality we are unable to enter into correspondence with applicants over their Outline application. Details of where guidance can be found are contained throughout this calls document. In exceptional circumstances, if there are issues with accessing this guidance, please contact:

⊠: esf.2014-2020@dwp.gsi.gov.uk

No applications are to be sent to this email address. Completed Outline applications must be sent to the email address provided in Section 9 – Document submission.

# 7. Key Documents

- Outline Application Form
- Outline Application Form Guidance
- Financial Annex

- Indicator Annex
- Local Enterprise Partnership area's ESIF strategy; and
- National ESF Eligibility Rules.

## Document Checklist

The assessment will be undertaken on the basis of documentation received at the point of closure of the call. Applicants should provide the following documentation.

Delete as appropriate.

### Outline Stage:

- financial tables (if the application is against more than one Category of Region, a financial table for each Category of Region);
- Outputs, Results and Indicators tables (if the application is against more than one Category of Region, a Outputs, Results and Indicators table for each Category of Region);
- Visual representation of the customer journey is required (this could be a flow chart); and

To enable the Managing Authority to complete the required Financial Due Diligence checks (if private or voluntary and community sector), applicant to provide:

- three years financial accounts
- Proof of existence Certificate of Incorporation, Charities Registration, VAT Registration Certificate or alternate form of incorporation documentation;
- Proof of trading Financial Accounts/Statements for the most recent two years of trading including, as a minimum, Profit and Loss Account and Balance Sheets;
- Completed Financial Viability and Risk Assessment Applicant Template (for applications requesting annualised funding of greater than £1m).

Failure to provide the above documentation could result in the application being rejected.

# 9. Document Submission

Completed Outline Applications must be submitted to

## 10. Timescales

Launch of Call advertised on GOV.UK.	24 <sup>th</sup> October 2018
Deadline for submission of Outline Application	14 <sup>th</sup> January 2019

Outline Application forms not received by the deadline will not be assessed. Outline Applications which are not fully completed will be excluded.

For this call applications will normally be required to **commence delivery/activity** within three months of the award of contract.

Any changes related to the deadline for the submission of the Outline Application form will be notified on the <u>European Growth Funding</u> website pages.

# 11. Appendix A – Common output indicators

#### Appendix A – extract from Annex 1 of the ESF regulation

Common output and result indicators for ESF investments

(1) Common output indicators for participants

"Participants" refers to persons benefiting directly from an ESF intervention who can be identified and asked for their characteristics, and for whom specific expenditure is earmarked. Other persons shall not be classified as participants. **All data shall be broken down by gender.** 

The common output indicators for participants are:

unemployed, including long-term unemployed
long-term unemployed
inactive
Inactive, not in education or training
employed, including self-employed
below 25 years of age
above 54 years of age
above 54 years of age who are unemployed, including long-term unemployed,
or inactive not in education or training
with primary (ISCED 1) or lower secondary education (ISCED 2)
with upper secondary (ISCED 3) or post-secondary education (ISCED 4)
with tertiary education (ISCED 5 to 8)
participants who live in jobless households
participants who live in jobless households with dependent children
participants who live in a single adult household with dependent children
ethnic minorities

Participants with disabilities	
other disadvantaged	
homeless or affected by housing exclusion	
from rural areas	

Common immediate result indicators for participants are:

inactive participants engaged in job searching upon leaving
participants in education/training upon leaving
participants gaining a qualification upon leaving
participants in employment, including self-employment, upon leaving
disadvantaged participants engaged in job searching, education/ training,
gaining a qualification, in employment, including self-employment, upon leaving

Common longer-term result indicators for participants are:

participants in employment, including self-employment, six months after leaving participants with an improved labour market situation six months after leaving participants above 54 years of age in employment, including self-employment, six months after leaving

disadvantaged participants in employment, including self-employment, six months after leaving
