EXPORT OF PROCESSED ANIMAL PROTEIN OF AVIAN AND/OR PORCINE ORIGIN TO VIETNAM

HEALTH CERTIFICATE

EXPORTING COUNTRY: UNITED KINGDOM

FOR COMPLETION BY: OFFICIAL VETERINARIAN

I. Identification of the products

(a) Description of the products (including species of origin):

(b) Type and number of packages:

(c) Net weight of consignment:

(d) Identification marks on the packages (e.g.: lot/invoice numbers):

(e) Seal number:

(f) Container number:

(g) Shipping marks:

II. Origin of the products

(a) Name and address of exporter:

V2.7279EHC APPLICATION

(b) Name, address, approval number, telephone, fax and email address of manufacturing/processing establishment:

III. Destination of the products

(a) The products were despatched from: UNITED KINGDOM

to: VIETNAM

(b) Name and address of consignee:

(c) Means of transportation:

IV. Health information

I, the undersigned official veterinarian, certify that the product(s) described above:

(a) has been prepared in a processing plant approved and supervised by the competent authority in accordance with UK legislation.

(b) has been prepared exclusively from the following animal by-products:

Parts of animals of avian/porcine origin:

- that have been slaughtered in an authorised slaughterhouse;
- that underwent ante-mortem inspection and were found suitable, as a result of such inspection, for slaughter for human consumption;
- that were not affected by any signs of diseases communicable to humans or animals;

(c) has been subjected to heating to a core temperature of at least 133°Celsius for at least 20 minutes without interruption at a pressure (absolute) of at least 3 bar produced by saturated steam, with a particle size prior to processing of not more than 50 millimetres – or processed by an officially approved alternative system of heat treatment offering equivalent guarantee with regard to microbiological safety;

(d) were either packed in new or sterilised bags; **or** transported in bulk, in containers or other means of transport that was thoroughly cleaned and disinfected with a disinfectant approved by the competent authority before use;

(e) does not contain any ruminant material, it being understood that consignments found to contain any material derived from slaughtered ruminant animals will be returned to the United Kingdom;

V2.7279EHC APPLICATION

(f) was stored in enclosed storage;

(g) has undergone all precautions to avoid contamination with pathogenic agents after treatment;

(h) is not intended for feeding to ruminant animals;

(i) is exported from an area not under restrictions due to the following diseases to which the species of origin is susceptible:

foot and mouth disease, vesicular stomatitis, swine vesicular disease, African swine fever, classical swine fever, avian influenza and Newcastle disease.

(j) is produced from raw materials that, at the time of acceptance for processing, showed no evidence indicating a risk of disease transmissible to humans or animals, and handled under controls intended to prevent risks to human and animal health.
