and/or

- * (d) are commercially packaged, eligible for unrestricted intra-Community trade and comply specifically with the relevant animal health and public health standards and requirements recognised equivalent by the Agreement between the European Community and the Swiss Confederation on trade in agricultural products 2002/309/EC and which meet the equivalent animal health/public health standards and requirements of New Zealand.

V. **ADDITIONAL DECLARATION(S)/GUARANTEE(S)**

(a) I, the undersigned, hereby certify that:

- (i) The animal product is eligible for intra-community trade without restriction, **and**
- * (ii) The milk from which the dairy product was made was subject to UHT treatment of 135°C for a minimum of 1 second or pasteurised at 72°C for a minimum of 15 seconds; **or**
- * (iii) The milk from which the dairy product was made was pasteurised at °C for a minimum of seconds; **or**
- * (iv) the thermised cheese has a moisture content of less than 39% and pH less than 5.6. The milk used to produce this cheese was rapidly heated to at least 64.5° Celsius for 16 seconds. The cheese was stored at not less than (greater than) 7° Celsius for 90 days; **or**
- * (v) the hard raw milk cheese has undergone a curd heat treatment of no less than 48° Celsius and has a moisture content of less than 36%, and has been stored at no less than 10° Celsius for at least 6 months (including transit time); **or**
- * (vi) the milk products listed below are raw milk (unpasteurised) products:

* (b) **In the case of heat treated milk and milk products (pasteurised and thermised) that have been imported into the European Community or Swiss Confederation from a third country and are subsequently destined for export to New Zealand:**

I, the undersigned, hereby certify that the heat treated milk product described herein was derived/partly derived from product which:

- (2)(i) was imported into the European Community or Swiss Confederation from:

(Country/Countries of origin)

- (ii) was further stored, handled, processed, wrapped, and/or packaged in an establishment which is eligible to process product for intra-Community trade;
- (iii) is the subject of an existing import health standard between New Zealand and the third country/countries where the product originated;

(iv) originated in a third country/countries and establishment(s) listed by the European Community and is eligible for export to the European Community;

***(c) In the case of raw milk products that have been imported into the European Community or Swiss Confederation from a third country and are subsequently destined for export to New Zealand:**

I, the undersigned, hereby certify that the raw milk product described herein was derived/partly derived from product which:

(2)(i) was imported into the European Community or Swiss Confederation from:

(Country/Countries of origin)

(ii) was further stored, handled, processed, wrapped, and/or packaged in an establishment which is eligible to process product for intra-Community trade;

(iii) is the subject of an existing import health standard between New Zealand and the third country/countries where the product originated;

(iv) originated in a third country/countries and establishment(s) listed by the European Community and is eligible for export to the European Community;

VI. This certificate is valid for 4 months from the date of issue (unless revoked).
