- (b) Type and number of packages:
- (c) Identification marks on packaging (e.g. lot/batch numbers):
- (d) Net weight of consignment:
- (e) Container number:
- (f) Seal number:

II Origin of products

- (a) Address of the processing plant:
- (b) Approval number(s) of the processing plant:
- (c) Name and address of exporter:

III Destination of products

- (a) The product was despatched from the United Kingdom to:
- (country and place of destination)
- (b) Name and address of consignee:
- (c) Means of transportation:

IV Health information

I, the undersigned, hereby certify that:

1. **Either:**

* (a) ~~there has been no outbreak of Highly Pathogenic Avian Influenza or velogenic Newcastle disease within a 30 km radius of the manufacturing facility, slaughter facility or farm of origin for the past 6 months;~~

Or:

* (b) the products have been sufficiently heat treated to destroy the Highly Pathogenic Avian Influenza and Newcastle disease viruses and the necessary precautions were taken after processing to avoid contact of the commodity with any source of HPAI or Newcastle disease viruses;

2. the beef, beef products and/or bovine meal ingredients contained in the products certified herein originated from the United Kingdom or were legally imported with respect to bovine spongiform encephalopathy (BSE);

3. the raw animal material used in the manufacture of the petfood is low risk material obtained from healthy slaughtered animals, the meat from which has been passed as fit for human consumption;

4. in the case of petfood in hermetically sealed containers, the petfood has been heat treated to a Fo value of 3.000 or more;
5. in the case of dried or semi-moist petfood:
 - (a) the animal material used in the manufacture of the petfood has been heat treated so as to achieve a temperature throughout its substance of at least 90°C;
 - (b) after processing, every precaution was taken to ensure that the consignment was not contaminated in any way prior to shipment;
 - (c) the petfood was packed in new containers;
 - (d) the production process has been tested, with satisfactory results, for the presence of salmonellae and enterobacteriaceae.

* **Delete as appropriate**
