(b) Name and address of slaughterhouse/processing plant:

(c) Name and address of exporter:

III Destination of the products

(a) The products were despatched from United Kingdom to:

(country and place of destination)

(b) Name and address of consignee:

(c) Means of transportation:

IV Health Information

I, the undersigned, certify that:-

- (a) the birds from which the poultry meat/poultry meat products derive were examined and found to be fit for human consumption and free from clinical signs of Newcastle disease, avian influenza virus H5N1, and salmonellosis;
- (b) the poultry meat/poultry meat products is/are fit for human consumption;
- (c) the slaughterhouse from which the poultry meat originates participates in a national monitoring programme for residues of chemotherapeutic substances. Based on results of random sampling from this slaughterhouse, it can be considered that the poultry meat does not contain residues of substances which do not occur naturally in the poultry meat, and which have a hormonal effect;
- (d) to the best of my knowledge, based on due enquiry and a declaration from the manufacturer, hydrolysed animal protein has not been added to the poultry meat/poultry meat products.
