About Public Health England

Public Health England exists to protect and improve the nation's health and wellbeing, and reduce health inequalities. We do this through world-leading science, knowledge and intelligence, advocacy, partnerships and the delivery of specialist public health services. We are an executive agency of the Department of Health and Social Care, and a distinct delivery organisation with operational autonomy. We provide government, local government, the NHS, Parliament, industry and the public with evidence-based professional, scientific and delivery expertise and support.

Policy refresh: indicators for 2016 to 2019

The Public Health Outcomes Framework was refreshed in May 2016, following a consultation in 2015. Details of the new framework can be found in the [government response to the consultation](#).

Note: More details on the indicators and their sources can be found in the definitions tab of each indicator in the Public Health Outcomes Framework data tool (www.phoutcomes.info).
