No: .....

EXPORT OF COLLAGEN AND GELATINE TO THE REPUBLIC OF KOREA

HEALTH CERTIFICATE

EXPORTING COUNTRY: UNITED KINGDOM

FOR COMPLETION BY: OFFICIAL VETERINARIAN

**I. Product information**

(a) Product:

(b) Animal Species Used:

(c) Origin (Check the appropriate box):

- Bones of Cattle;
- Hides and Skins;
- Others

If mixed, check Bones of Cattle and meet the requirements for Collagen and Gelatin derived from Bones of Cattle

(d) Type of package:

(e) Number of package:

(f) Gross weight:

(g) Net weight:

(h) Name and address of the manufacturing plant(s):

(i) Approval number of the approved manufacturing plant(s):

(only for collagen and gelatin derived from bones of cattle from countries with reported case of bovine spongiform encephalopathy (BSE))

(j) Name and address of consignor:

(k) Name and address of consignee:

(l) Date of shipment:

(m) Place of shipment:

(n) Name of means of transport:

(o) Container No:

(p) Commodities certified for: Human consumption  Research  Other

## II. Health information

The undersigned government officer of the exporting country hereby certify that:

- \*1. For collagen and gelatin derived from bones of cattle from countries with reported case of BSE<sup>(1)</sup>:
- (a) Collagen and gelatin has been manufactured in such a manner that prevents contamination by any pathogens of infectious animal diseases;
  - (b) The cattle from which collagen and gelatin had been derived have passed ante-mortem and post-mortem inspections conducted by the government of exporting country;
  - (c) Collagen and gelatin derived from bones of cattle were not manufactured by using the brain, skull, eyes, spinal cord, vertebral column of cattle of 30 months of age and older and the tonsils and distal ileum of cattle of all ages;
  - (d) Bones of cattle have been subjected to a process which includes all of the following steps:
    - (i) degreasing;
    - (ii) acid demineralization;
    - (iii) acid or alkaline treatment;
    - (iv) filtration;
    - (v) sterilization at  $\geq 138^{\circ}\text{C}$  for a minimum of 4 seconds;or to an equivalent or better process in terms of infection reduction (such as high pressure heating)

\*2. For collagen and gelatin derived from hides and skin of cattle from countries with reported case of BSE<sup>(1)</sup>:

(a) Collagen and gelatin has been manufactured in such a manner that prevents contamination of pathogens of infectious animal diseases;

(b) The animal from which collagen and gelatin had been derived, have passed ante-mortem and post-mortem inspections conducted by the government of exporting country;

\*3. Other collagen and gelatin derived from animals not belonging to items above:

(a) Collagen and gelatin has been manufactured in such a manner that prevents contamination by any pathogens of infectious animal diseases.
