Subject: Highways England Response - Information Request 766975

Dear [REDACTED]

I am writing to confirm that we have now completed our search for the information about the red light and red light camera on the slip road between junction 21a on the M6 southbound and junction 10 on the M62 eastbound, which you requested on 26 October 2018. I am dealing with it under the terms of the Environmental Information Regulations 2004.

This is because the information requested concerns measures and activities affecting or likely to affect elements of the environment or affect factors such as noise, pollution discharges and other releases into the environment.

A copy of the information is below:

1. **How much did the camera cost to be installed? ('part of the overall project' is not a suitable response)**

The cost of provision and installation of this particular camera is approximately £104,000.

2. **How many occasions were the lights and camera operational?**

The red light signals and associated camera have been operational at this location during weekday morning peak periods from mid-January to early-October 2018.

3. **How many drivers were issued with tickets for failing to stop at the red light?**

This information is not held by Highways England. Enforcement of red light offences at this location is the responsibility of Cheshire Police <https://www.cheshire.police.uk/>

4. **What was the cost of removal?**

This cost is not yet known.

If you are unhappy with the way we have handled your request you may ask for an internal review within 2 months of the date of this response for Freedom of Information requests and within 40 days for Environmental Information Regulations requests.
