

**EXPLANATORY MEMORANDUM TO**  
**THE EQUINE (RECORDS, IDENTIFICATION AND MOVEMENT)**  
**(AMENDMENT) (EU EXIT) REGULATIONS 2018**

**2018 No. [XXXX]**

**1. Introduction**

1.1 This explanatory memorandum has been prepared by the Department for the Environment, Food and Rural Affairs and is laid before Parliament by Act.

**2. Purpose of the instrument**

- 2.1 The purpose of these Regulations is to ensure that direct EU legislation regarding equine identification and retained by section 3 of the EU (Withdrawal) Act 2018 remains operable once the UK leaves the EU.
- 2.2 The current system of equine identification is set out in EU legislation, primarily by Commission Implementing Regulation (EU) 2015/262 (Equine Passport Regulation).
- 2.3 The aim is to retain a robust system of equine identification to support high standards of equine biosecurity, enforcement, food safety, fraud prevention, welfare and international trade.

**Explanations**

*What did any relevant EU law do before exit day?*

- 2.4 EU law sets out the current system of equine identification. Key features include single lifetime identification documents that identify individual equines, their markings (e.g. microchips and diagrams) and food chain eligibility.
- 2.5 EU law also prescribes the Central Equine Database, and the UK's database holds much of the aforementioned information and is of particular use for enforcement, biosecurity, food safety, fraud prevention and welfare purposes.

*Why is it being changed?*

- 2.6 These Regulations will make those amendments necessary to retain an effective system of equine identification in order to sustain biosecurity, equine movements, food safety and welfare.
- 2.7 The Regulations have been drafted using the assumption of a 'no deal' EU Exit.

*What will it now do?*

- 2.8 These Regulations will ensure that equines continue to be identified both by way of a single lifetime document and Central Equine Database, and will maintain high standards of biosecurity, equine movements, food safety and welfare.

**3. Matters of special interest to Parliament**

*Matters of special interest to the Joint Committee on Statutory Instruments*

- 3.1 None.

- 3.2 This instrument is being laid for sifting to the EU (Withdrawal) Act 2018 by the European Statutory Instruments Committee and the Secondary Legislation Scrutiny Committee.

*Matters relevant to Standing Orders Nos. 83P and 83T of the Standing Orders of the House of Commons relating to Public Business (English Votes for English Laws)*

- 3.3 As the instrument is subject to negative resolution procedure there are no matters relevant to Standing Orders Nos. 83P and 83T of the Standing Orders of the House of Commons relating to Public Business at this stage.

#### **4. Extent and Territorial Application**

- 4.1 The territorial extent of this instrument is the UK.  
4.2 The territorial application of this instrument is the UK.

#### **5. European Convention on Human Rights**

- 5.1 As the instrument is subject to negative resolution procedure and does not amend primary legislation, no statement is required.

#### **6. Legislative Context**

- 6.1 These Regulations are made in exercise of the powers conferred by the European Union (Withdrawal) Act 2018 (c. 16) ('the Withdrawal Act') (in particular under section 8(1) to (3) and (6) of, and paragraph 21 of Schedule 7 to, that Act) in order to address failures of retained EU law to operate effectively and other deficiencies arising from the withdrawal of the United Kingdom from the European Union.
- 6.2 These Regulations make amendments to EU legislation in the field of equine identification, which, prior to withdrawal from the United Kingdom, had direct effect in the United Kingdom and are retained by virtue the Withdrawal Act.
- 6.3 Part 1 of these Regulations makes amendments to Commission Implementing (EU) Regulation 2015/262 laying down rules pursuant to Council Directives 90/427/EEC and 2009/156/EC as regards the methods for the identification of equidae (OJ L 59, 3.3.2015 p 1 – 51). Part 3 makes similar amendments to Commission Decision 92/216/EEC, Commission Decision 92/353 and Commission Decision 92/354/EEC. Part 4 makes corresponding amendments to Annex 1 of the Agreement on the European Economic Area.

#### **7. Policy background**

*What is being done and why?*

- 7.1 These Regulations will ensure that equines continue to be identified by way of a single lifetime document to underpin high standards in biosecurity, food safety and welfare.
- 7.2 This includes ensuring that the human food chain continues to be protected from potentially harmful substances that may be given to equines.
- 7.3 These Regulations help ensure that UK equines continue to be able to travel to and from the EU with the minimum of disruption, whilst maintaining high biosecurity and welfare standards.

- 7.4 Equine welfare is enforced by local authority Trading Standards and robust identification information makes it easier to deal with cases of abandoned, lost or stolen equines.
- 7.5 The UK's Central Equine Database, established in accordance with (EU) 2015/262, provides accurate, up to date, information about equines, their owners and food chain eligibility, all of which are important features of a robust system of equine identification and enforcement. These Regulations prove a clear legal basis for these important features.

## **8. European Union (Withdrawal) Act/Withdrawal of the United Kingdom from the European Union**

- 8.1 This instrument is being made using the power in section 8 of the European Union (Withdrawal) Act 2018 in order to address failures of retained EU law to operate effectively or other deficiencies arising from the withdrawal of the United Kingdom from the European Union. The instrument is also made in accordance with Paragraph 21 of Schedule 7 of the 2018 Act. In accordance with the requirements of that Act the Minister has made the relevant statements as detailed in Part 2 of the Annex to this Explanatory Memorandum.

## **9. Consolidation**

- 9.1 None.

## **10. Consultation outcome**

- 10.1 Devolved Administrations have been consulted and are content.

## **11. Guidance**

- 11.1 Guidance amended as necessary to reflect these Regulations will be offered to UK Passport Issuing Organisations and local authority Trading Standards.

## **12. Impact**

- 12.1 There is no significant impact on business, charities or voluntary bodies.
- 12.2 The impact on the public sector is minimal. Local authorities and the Food Standard Agency may need to update some references in their respective guidance relating to their implementation and enforcement procedures.
- 12.3 An Impact Assessment has not been prepared for this instrument because the total cost of the proposals falls below the £5 million de minimus requirement for Impact Assessments. These Regulations relate to the maintenance of existing regulatory standards and will not introduce new policy.
- 12.4 For the purposes of clarity, guidance on 'taking horses abroad if there's no Brexit deal' was published on 12 October 2018 on GOV.UK. This explains possible costs to owners if additional blood tests are required a part of the export certification process. Whilst these Regulations support the continued movement of equines into and through the EU with the minimum of disruption, any such costs do not result from these Regulations.

### **13. Regulating small business**

13.1 The legislation applies to activities that are undertaken by small businesses.

### **14. Monitoring & review**

14.1 As this instrument is made under the EU Withdrawal Act 2018, no review clause is required.

14.2 However, certain reviews will be carried out, such as the one described in the Explanatory Memorandum to the Equine Identification (England) Regulations 2018 (S.I. 2018 No. 761) that describes a review of the impact and operation of UK Passport Issuing Organisations, local authorities and the Food Standards Agency (in the context of equine identification regulations) to be completed by no later than October 2023.
