JUDGEMENT

1. The claim of detriment for making a public interest disclosure is dismissed on withdrawal by the claimant.
2. The application for costs in connection with the claimant's failure to attend the preliminary hearing on 26 October 2018 is dismissed on withdrawal by the respondent. This will not affect the right of the respondent to claim the costs incurred as a result of that hearing as part of the costs of the claim in the event of a subsequent application for costs in the event that the claimant is unsuccessful with her claim and there are grounds for making such an application.
