### **EXPLANATORY NOTE**

*(This note is not part of the Order)*

These Regulations relate to Regulation (EU) No. 1233/2011 on the application of certain guidelines in the field of officially supported export credits (and any delegated regulations made under it), Directive 98/29/EC on harmonisation of the main provisions concerning export credit insurance for transactions with medium and long term cover, Council Decision 82/854/EEC on the rules applicable, in the fields of export guarantees and finance for export, to certain subcontracts with parties in other Member States of the European Communities or in non-member countries and Council Decision 2006/789/EC on consultation and information procedures in matters of credit insurance, credit guarantees and financial credits.

These Regulations come into force on exit day and revoke the above items of EU direct legislation as soon as they become part of domestic law when the United Kingdom leaves the European Union because, at that time, that legislation will have no practical application in relation to the United Kingdom or any part of it or be redundant or substantially redundant or the arrangements contained in that legislation will no longer be appropriate.

No regulatory impact assessment has been prepared in relation to these Regulations as neither the legislation mentioned above nor these Regulations regulate or deregulate business.
