1. Introduction

The 2014 to 2020 European Structural and Investment Funds bring the European Regional Development Fund, European Social Fund and part of the European Agricultural Fund for Rural Development together into a single European Union Structural and Investment Funds Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Sized Enterprises, low carbon, skills, employment, and social inclusion.

The Government has confirmed that it will guarantee funding for ERDF projects that are contracted by the end of 2020.

All contracted ERDF projects must be completed by the end of the programme period, 31 December 2023. Each application for ERDF will be required to demonstrate that it delivers good value for money and domestic strategic priorities.

The Funds are managed by the Ministry of Housing, Communities and Local Government for the European Regional Development Fund, Department for Work and Pensions for the European Social Fund and the Department for Environment, Food and Rural Affairs for the European Agricultural Fund for Rural Development. These Departments are the managing authorities for each Fund. In London, the Greater London Authority acts as an intermediate body for the European Regional Development Fund and European Social Fund programmes. In some other areas, intermediate bodies are being designated by the Ministry of Housing, Communities and Local Government and the Department for Work and Pensions to perform the following tasks:

- Input into project calls in respect of local development needs (with reference to ESI Funds strategies); and
- Assessment of applications against certain selection criteria in relation to fit with local priorities in respect of the European Regional Development Fund and European Social Fund.

The managing authorities and intermediate bodies work closely with local partners on ESI Funds sub-committees in each local enterprise partnership area. Partners on these sub-committees provide:

- Practical advice and information to the managing authorities to assist in the preparation of local plans that contribute towards operational programme priorities and targets;
- Local intelligence to the managing authorities (or intermediate bodies where designated) in the development of project calls that reflect operational programme and local development needs as well as match funding opportunities; and

- Advice on local economic growth conditions and opportunities within the context of the operational programme and the local European Structural and Investment Funds Strategy to aid the managing authorities' (or intermediate bodies where designated) assessments at outline and full application stage.

This call is issued by the Ministry of Housing, Communities and Local Government and invites outline applications in respect of the European Regional Development Fund for England 2014 to 2020.

2. Call Context

On behalf of the national Growth Programme Board, the Ministry of Housing, Communities and Local Government (the managing authority) invites applications seeking European Regional Development Fund support under:

Priority Axis 3 Enhancing the Competitiveness of small and medium sized enterprises

Investment Priorities:

- 3a** Promoting entrepreneurship, in particular by facilitating the economic exploitation of new ideas and fostering the creation of new firms, including through business incubators.
- 3c** Supporting the creation and the extension of advanced capacities for products, services and development.
- 3d** Supporting the capacity of small and medium sized enterprises to grow in regional, national and international markets and to engage in innovation processes

The **European Regional Development Fund operational programme for England 2014 to 2020** sets out how the European Regional Development Fund will focus on investment to support economic growth and job creation. **Priority Axis 3** of the operational programme aims to enhance the competitiveness of small and medium sized enterprises.

Any application for funding will be required to clearly demonstrate that it provides good value for money and supports domestic strategic priorities, including the 2017 [Industrial Strategy](#) (or any later publication that amends or supersedes that). Applications must meet the requirement of, and make a meaningful contribution to, the delivery of the relevant Priority Axis of the [European Regional Development Fund Operational Programme](#) and where appropriate should reflect how such support will aim to improve productivity levels within small and medium sized enterprises.

In addition, applications will be expected to meet identified local development needs, as expressed in the scope of this call and as set out in the [Cornwall and the Isles of Scilly](#) Integrated Territorial Investment Strategy.

Applicants are advised to familiarise themselves with the detail of the operational programme, local European Structural and Investment Funds strategy and the relevant documentation listed in sections 5 through to 8 **prior to** submitting an outline application.

Government is working with local enterprise partnership (LEPs) across England to establish a network of private sector-led growth hubs connecting businesses to the right support including access to local and Government funded support services. Applicants under this call will need to demonstrate how activity and delivery will be co-ordinated and made accessible through the growth hub in the local enterprise partnership area covered by this call. Applicants will also need to demonstrate how they will work locally with their growth hub and all business support provision provided by local public and private sector partners and not duplicate any existing services, including that provided by the growth hub. Where relevant, further detail on growth hubs is set out below and in the Annex at the end.

Export advice is provided by UK Trade & Investment through contracts for International Trade Services and UK Export Finance. The Greater London Authority work with a number of additional organisations providing export advice. Contact the Greater London Authority for further details.

3. Scope of the Call

3.1. Scope

This call invites outline applications which support the delivery of Priority Axis 3 of the European Regional Development Fund operational programme and respond to the local development need set out in the [Cornwall and the Isles of Scilly](#) Integrated Territorial Investment Strategy.

Indicative fund allocation:	Indicatively, through this call the managing authority expects to allocate up to £20,000,000. The managing authority reserves the right to invite to full application (and subsequently approve) projects that have a cumulative value that is higher or lower than this indicative allocation, subject to the volume and quality of proposals received. The managing authority may also decide to place some projects submitted through this call on a reserve list and invite them to proceed at a later date, subject to the availability of funding.
------------------------------------	---

	<p>There is no indicative allocation of European Regional Development Fund funding between capital and revenue activity, both capital and revenue is eligible dependent on the nature of activities / investment priorities set out in the call.</p>
Minimum application level	<p>European Regional Development Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact. The managing authority does not intend to allocate less than £500,000 European Regional Development Fund to any single project. Consequently projects with a total value of less than £625,000 will not normally be supported under this call</p>
Duration of project activity	<p>Projects should plan to deliver activity for a maximum of three years, however the managing authority reserves the right to vary the maximum duration, upwards or downwards.</p>
Geographical scope	<p>The England European Regional Development Fund operational programme operates on a national basis. All eligible European Regional Development Fund expenditure must benefit organisations located in England.</p> <p>Revenue projects should predominantly support businesses based within the local enterprise partnership area of this call.</p>
Specific call requirements	<p>It is expected that multiple awards will result from this call.</p> <p>As a less developed region, the intervention rate available in the Cornwall and the Isles of Scilly local enterprise partnership area may be up to 80% subject to compliance with State Aid law.</p> <p>Applicants will need to have eligible match funding for the balance of costs which must be from a source other than the European Union. Applicants are responsible for identifying the match funding required to complete the funding package</p> <p>This call has been issued at the same time as a complementary call under the European Social Fund programme (Creative Skills 2 OC05S18P 1245)</p> <p>For any Creative Industry project proposals, it is anticipated that priority will be given to applicants that</p>

	<p>submit applications linked to the separate European Social Fund Creative Industries call. This link could mean: the same applicant applying to both calls, the applicant to this European Regional Development Fund call being a named delivery partner in the European Social Fund call, or the establishment of a joint Steering Group (note: this is not an exclusive list of examples). See 'Local Priorities' section for further information.</p> <p>Please note: Value for Money and alignment with Strategic Domestic Priorities, including the 2017 Industrial Strategy, (or any later publication that amends or supersedes that) will form a key part of the assessment and appraisal of all applications. Therefore proposals should clearly articulate and demonstrate how activities align with domestic strategic priorities and offer good value for money.</p>
<p>Call deadlines</p>	<p>For this specific call, applications will be assessed after the close of the single deadline.</p> <p>Applications received after the published call close date will not be considered. All applications will be assessed following closure of the call.</p>

3.2. Local development need

Projects must deliver activity which directly contributes to the objectives of Priority Axis 3 of the operational programme, one or more of the relevant investment priorities and meet the local development need expressed in the table below.

Local Development Need
<p>Local growth priorities:</p> <p>Small and medium sized enterprises and micro businesses are key drivers for local economic growth in Cornwall and the Isles of Scilly, as they make up approximately 99.8% of the total number of enterprises. At present, Cornwall and the Isles of Scilly have the lowest levels of productivity of any of the Local Enterprise Partnerships in the country (Sub-regional productivity: March 2016, Office of National Statistics). To improve regional productivity it is essential that local companies are supported to collaborate, compete in national and global markets, increase productivity and identify business opportunities. European Regional Development Funds are available to support activities that promote, facilitate and enable these business support activities. It is additionally recognised that small and medium sized enterprises may require support to prepare them for</p>

external investment. It is particularly important that small and medium sized enterprises have the relevant financial and management processes, paperwork, skills and governance structures in place in order to access financial products.

The aim of this call is to build upon the progress to date of the 2014 to 2020 European Structural and Investment Funds Growth Programme and to endeavour to create a long-term business support landscape that will endure beyond the life of the current funding cycle. Cornwall and the Isles of Scilly needs a business support landscape that is responsive to business needs, challenging and innovative when required, but also sustainable in the long-term.

A significant portfolio of business support projects is now operational in Cornwall and the Isles of Scilly. However, three specific strategic gaps have been identified in the current business support provision. They are:

1. Raising productivity: Increasing productivity is a key factor in improving the local and national economy. Of particular interest are innovative models which address key barriers in raising productivity across Cornwall and the Isles of Scilly, including rural areas.
2. Supporting small and medium sized enterprises which are neither 'start ups' or 'high growth': With the current business support provision in place, there is a potential gap in business support provision for those businesses which are past the start-up stage but not yet demonstrating high-growth. Supporting a large number of these businesses to make even an incremental growth gain could collectively have a big impact on the local economy.
3. Supporting businesses in Cornwall and the Isles of Scilly to extend their UK trade: To strengthen the economy it is critical that businesses are supported to increase their national trade and expand their existing customer bases. There is a great deal of planned and current support for businesses investigating the potential to trade internationally; however, less support is available for businesses to investigate the potential to increase their national reach and existing customer bases

In addition to this, the Cornwall and Isles of Scilly Integrated Territorial Investment Strategy seeks to support high growth, high value sectors, and identifies the creative industries as one of these. The vision includes an ambition to grow the creative industries sector to provide high value jobs, promote learning and strengthen a strong sense of place.

The Cornwall and Isles of Scilly Integrated Territorial Investment Strategy also specifies:

- Cornwall and the Isles of Scilly is unique amongst rural areas in the UK, and potentially in the wider European context, in that it supports a density of creative businesses normally found only in urban environments. The

10,000 full time employees working in the sector benefit from, and contribute greatly to, the quality of amenity, quality of life and distinctiveness of Cornwall and the Isles of Scilly. Recent improvements in the digital infrastructure and Higher Education provision mean that the sector is well placed to improve the value and reach of its intellectual property, products and services

- Cornwall and the Isles of Scilly's cultural and creative industries will be flourishing in a way that produces a distinctive connection between industry development, quality of life, creativity and the development of new types of tradable intellectual property especially in the context of rapidly developing digital and new media capacity. The sector will provide high value jobs, promote learning and will strengthen a strong sense of place. The vibrant cultural offer supported by outstanding natural environment will give Cornwall and Isles of Scilly a distinctive edge and an international profile.

Building on previous investments in infrastructure such as superfast broadband, which presents a huge advantage to creative businesses, Cornwall and the Isles of Scilly is well placed to further capitalise on this growing market. As with any potential growth sector, continued growth will only be sustained if the necessary skills (including digital skills) and capacity are in place at the right time.

This call aims to:

- Fund business support provision to close these identified strategic gaps;
- Fund business support provision that will enhance competitiveness and increase opportunities for enterprise creation, growth, export and investment in the region;

Specifically this call aims to address the following business support areas:

1. New projects which address identified strategic gaps, or any other clearly defined strategic gap in provision identified by the applicant and which is not met by the current business support provision. Where possible projects should be self-sustaining and aim to continue providing business support beyond the timeframe for investment from European Structural and Investment Funds
2. Projects that enhance the productivity and competitiveness of existing small and medium sized enterprises, encourage new enterprise, support small and medium sized enterprises to grow through innovation, and provide improved opportunities to export and secure additional investment. If existing grant recipients are applying to continue activity, evidence of success and demand for extension of the project should be demonstrated. Projects which can combine project extensions with closing the strategic

gaps in provision outlined, or align with other currently contracted projects, would be welcome.

Proposals should specifically demonstrate alignment with the [Cornwall and the Isles of Scilly Integrated Territorial Investment Strategy](#) and in particular Strategic Priority 2 'Growth for Business', which aims to increase productivity and competitiveness in existing businesses and encouraging and supporting new enterprise in Cornwall and the Isles of Scilly.

More information on contracted projects is available [here](#) or from the 'access to the programme' team (accesstotheprogramme@cornwalldevelopmentcompany.co.uk)

Local priorities:

Proposals should demonstrate alignment with local development need and priorities including:

Business support:

- Complementing the existing portfolio of business support projects in the Cornwall and Isles of Scilly Local Enterprise Partnership area;
- Working closely alongside the Cornwall and Isles of Scilly Growth and Skills Hubs to offer a joined-up, transparent and integrated business support service for businesses. It is expected that all funded projects will work with the hubs to avoid duplication of communications, events and engagement activities while ensuring the maximum return on European Regional Development Fund investments;
- A demonstration as to how delivery will be extended to the Isles of Scilly and remote and rural areas of Cornwall;
- Business and innovation support to drive economic growth/productivity (Investment Priority 3d, Supporting small and medium-sized enterprises to grow in regional, national and international markets and to engage in innovation processes)

Creative Industries:

- Small and medium-sized enterprise and start-up business support: a bespoke approach to business start-up support for creative industry practitioners/businesses in order to further develop this sector in terms of its size and significance (Investment Priority 3a, Promoting entrepreneurship);

- Enabling creative businesses to exploit their innovation potential, leading to high value job creation through the generation and exploitation of intellectual property. This may include developing long-term partnerships with other sectors including Higher Education Institutions;
- Product, service and process development in the Creative Sector: support for the further development of creative industry products, services and processes to drive business growth and create high value jobs (Investment Priority 3c, Supporting advanced capacities for products, services and development);
- Enabling Cornwall and Isles of Scilly creative businesses to understand where their product or service fits within global markets in order to benefit from the increasing export potential of the sector and then to exploit the identified opportunities.
- The European Regional Development Fund and European Social Fund joined up Calls seeks to enable local employers to be more involved in designing, delivering and enhancing the skills for the Creative Industries sector workforce. Investment will be provided to proposals seeking to align the provision of education, skills and training to the needs of employers, sectors and the economy

Application support:

- Applicants are strongly encouraged to exceed the cross cutting theme requirements detailed in the operational programme. The Integrated Territorial Investment Board will seek to provide its support to projects that demonstrate how the application will embed the cross cutting themes good and best practices into the proposed project's activities through the [Inclusion Strategy](#) and the [Environmental Growth Strategy](#) and as outlined in the [Cornwall and Isles of Scilly Integrated Territorial Investment Strategy](#).
- Any potential applicants wishing to apply for funding under this call can make use of the Access to the Programme Team. This free resource will:
 - provide advice and support to potential applicants;

- offer specialist support in the early stage design and development of complex projects; and
- promote and integrate the cross cutting themes within projects to ensure that applicants can develop projects that make the most effective use of all European Structural and Investment Funds.

Proposals should not:

- Duplicate existing provision or activity. Applicants will be required to describe in detail how the planned activities complement or align with existing provision. If the application proposes follow on activity from existing projects, the application should use an appropriate start date that does not lead to periods of activity duplication and do not breach the rules set out in section 6.5 of this call.

3.3. Operational programme investment priorities

Applications must specify the activities to be delivered and must directly contribute to **one or more** of the following investment priorities:

Investment priority	3a - Promoting entrepreneurship, in particular by facilitating the economic exploitation of new ideas and fostering the creation of new firms, including through business incubators.
Specific objectives	Increase entrepreneurship, particularly in areas with low levels of enterprise activity and amongst under-represented groups.

<p>Indicative actions</p>	<p>Under this investment priority indicative actions to be supported by the European Regional Development Fund may include:</p> <ul style="list-style-type: none"> • Targeted engagement, outreach and mentoring to strengthen entrepreneurial and enterprise culture; • Provision of advice and support for entrepreneurship and self-employment in particular amongst under-represented groups by developing entrepreneurial skills and attitudes with a focus on increasing the number of business start-ups; • Provision of advice and support for new business start-ups to survive and grow; • Support to address market failures in the provision of start-up finance, e.g. seed finance, start-up loans; • Outreach, coaching, mentoring, networking and consultancy support to promote business start-up, survival and growth; • Grants to support productive investment; <p>Operations will support individuals with ambitions to start up a business, and small and medium sized enterprises in the early stage of operation. These include social enterprises and those wishing to set up social enterprises.</p>
----------------------------------	---

<p>Investment priority</p>	<p>3c – Supporting the creation and extension of advanced capacities for products, services and development.</p>
<p>Specific objectives</p>	<p>Increase the growth capacity of small and medium sized enterprises.</p>
<p>Indicative actions</p>	<p>Under this investment priority indicative actions to be supported by European Regional Development Fund may include:</p> <ul style="list-style-type: none"> • Provision of advice to develop new business models or higher quality products, processes or services;

	<ul style="list-style-type: none"> • Advice and support for businesses to implement productivity improvements including through the provision of resource efficiency advice; • Advice to improve business processes and workforce development; • Advice and support for supply chain interventions to strengthen and grow the domestic supplier base; • Attracting new foreign direct investment into England through, for example, promotion of business collaborations (small and medium sized enterprises to prime / original equipment manufacturers, small and medium sized enterprise to small and medium sized enterprise), supply chain initiatives, sectoral and research and innovation propositions linked to smart specialisation and “soft landings¹”; • Ensuring small and medium sized enterprises have access to sufficient levels of finance to implement their growth plans, including appropriate capital investment for premises and equipment to help build capacity; • Provision of advice, consultancy support, mentoring, peer to peer support, and support for collaborative projects; • Grant finance for business to invest for product, process and service improvements; • Activities will target domestic and foreign-owned small and medium sized enterprises, including social enterprises.
--	--

Investment priority	3d – Supporting the capacity of small and medium sized enterprises to grow in regional, national and international markets and to engage in innovation processes

¹ The terminology is widely used in foreign direct investment contexts. “Soft landings” are outlined here - <http://www.know-hub.eu/knowledge-base/videos/soft-landing-scheme.html>

Specific objectives	Increase the growth capability of small and medium sized enterprises.
Indicative actions	<p>The support provided through this specific objective will help businesses to develop their internal capability in order to improve their productivity, grow and create jobs:</p> <p>Under this investment priority indicative actions to be supported by European Regional Development Fund may include:</p> <ul style="list-style-type: none"> • Provision of efficient local referral routes to ensure that small and medium sized enterprises are able to identify and access the most appropriate and tailored support for their specific growth needs; • Support small and medium sized enterprises to develop focused growth strategies and update or introduce new business models which will drive business performance; • Attracting new business investments to England, including through, for example, cluster and sector initiatives, collaborations with trade associations and inward missions; • Advice and support for small and medium sized enterprises to enter, establish and expand in new domestic and international markets; • Advice and support for businesses to become investment ready; • Provision of advice, consultancy, mentoring and peer-to-peer support to indigenous businesses and inward investors (small and medium sized enterprises from outside the EU who will move to England); • Leadership and management coaching where connected to the development and implementation of a business growth plan;

	<ul style="list-style-type: none"> • Support events, trade fairs and missions to enable small and medium sized enterprises to enter, establish and expand in new domestic and international markets; • Targeted grant schemes to support productive investment; and • Provision of advice and consultancy on access to finance. <p>Activities will target domestic and foreign-owned small and medium sized enterprises, including social enterprises.</p> <p>Activity under this investment priority will focus primarily on addressing the barriers that business face in identifying, accessing and understanding the different types of finance that is available.</p>
--	---

4. Required Outputs under this Call

Applicants will need to demonstrate how the eligible activity, funded by the European Regional Development Fund will achieve the programme-level outputs for Priority Axis 3.

For projects proposing to deliver activity against more than one investment priority, the appropriate outputs should be selected. Project will be required to report on, and evidence, the achievement of the outputs separately under each investment priority.

For projects coming forward under this call the expected outputs and results are:

Investment Priority 3a	
Output reference	Name
C1	Number of enterprises receiving support
C2	Number of enterprises receiving grants
C4	Number of enterprises receiving non-financial support
C5	Number of new enterprises supported
C6	Private investment matching public support to enterprises (grants)
C8	Employment increase in supported enterprises

C28	Number of enterprises supported to introduce new to the market products
P11	Number of potential entrepreneurs assisted to be enterprise ready

Investment Priority 3c	
Output reference	Name
C1	Number of enterprises receiving support
C2	Number of enterprises receiving grants
C4	Number of enterprises receiving non-financial support
C5	Number of new enterprises supported
C6	Private investment matching public support to enterprises (grants)
C8	Employment increase in supported enterprises
C29	Number of enterprises supported to introduce new to the firm products
P13	Number of enterprises receiving Information, Diagnostic and Brokerage support

Investment Priority 3d	
Output reference	Name
C1	Number of enterprises receiving support
C2	Number of enterprises receiving grants
C4	Number of enterprises receiving non-financial support
C5	Number of new enterprises supported
C6	Private investment matching public support to enterprises (grants)
C8	Employment increase in supported enterprises
C29	Number of enterprises supported to introduce new to the firm products

P13	Number of enterprises receiving information, diagnostic and brokerage support
-----	---

The managing authority expects the level of outputs proposed within outline applications to be realistic and achievable and to deliver good value for money. The application should clearly state the methodology used to determine the levels of outputs proposed.

Projects will only be supported if they demonstrate good value for money. An important consideration when assessing value for money is the level of European Regional Development Fund outputs that the project would deliver.

The managing authority has not set specific output targets for this call and does not publish average or expected unit costs.

The local European Structural and Investment Fund strategy for each local enterprise partnership Area includes details of the local, notional European Regional Development Fund allocation to each priority axis and the type and number of European Regional Development Fund outputs that are expected in return for this investment.

All operations will be required to report regularly on progress toward achievement of targets. This will need to include both quantitative and qualitative data relevant to the appropriate geographical areas. Applicants will need to explain how they will collect and record this information to maintain a fully evidenced audit trail. It should be noted that if an operation fails to deliver contracted outputs, a performance penalty may apply.

5. Application Process & Prioritisation Methodology

There are two stages to the European Regional Development Fund application process:

- (i) Outline application and, if successful
- (ii) Full application.

Acceptance of an outline application to progress to full application stage does not in any way indicate or constitute an offer of European Regional Development Fund grant.

Applicants must fully complete the [outline application](#) which will be assessed by the managing authority against all of the national [selection criteria](#) except where an intermediate body has been designated to assess against some of the selection criteria. Where an intermediate body has been designated to undertake delegated tasks, the intermediate body will undertake the assessment against the selection criteria in relation to fit with local priorities.

Outline applications will be assessed in two stages, Gateway assessment and Core assessment.

The Gateway assessment is undertaken by the managing authorities and considers:

- Applicant eligibility;
- Activity and expenditure eligibility; and
- Fit with the National operational programme and the local development need set out in section 2.

Applications that fail the Gateway assessment undertaken by the managing authority will be rejected. Applications which pass the Gateway assessment will then be assessed by the managing authority in relation to all Core assessment criteria.

In areas where an intermediate body² has been designated, the following will apply:

The intermediate body will assess the application against the following Core assessment criteria:

- Local strategic fit

The managing authority will assess the application against the following Core assessment criteria:³

- National strategic fit;
- Value for money;
- Management and control;
- Deliverability;
- Compliance;
 - Procurement
 - State Aid
 - Publicity requirements
- Cross cutting themes; and
 - Environmental sustainability
 - Equal opportunities

The intermediate body will also provide advice to the managing authority to assist the managing authority to make its assessment against the following Core selection criteria:

- Value for money; and
- Deliverability.

² This process works differently for the Greater London Authority. Please contact the Greater London Authority for further details.

Having assessed projects against these criteria the relevant local enterprise partnership area European Structural and Investment Funds sub-committee will advise the managing authority or intermediate body as relevant on the contribution to local economic growth conditions and opportunities within the context of the operational programme and local European Structural and Investment Funds strategy to aid the managing authority's assessments (at outline and full application stage).

Having concluded their assessments the managing authority and the intermediate body will prioritise the applications they wish to proceed based on their assessment against their respective selection criteria. Only projects that the managing authority and the intermediate body each agree should proceed, based on their respective core selection criteria, will be invited to submit a full application. Subsequently only those full applications that the managing authority and the intermediate body each agree should proceed, based on their respective selection criteria, will be approved.

Please note that the managing authority's decision is final and there are no appeals. If you wish to complain about the calls and application process, please follow the procedure set out at <https://www.gov.uk/government/organisations/department-for-communities-and-local-government/about/complaints-procedure>.

Potential applicants / applicants may wish to take advantage of information and support services funded through European Regional Development Fund Technical Assistance and available to assist the design and development of compliant projects / applications for the European Regional Development Fund. Your local Technical Assistance funded project can be contacted via the 'access to the programme' team (accesstotheprogramme@cornwalldevelopmentcompany.co.uk)

6. General Information

6.1. National Eligibility Rules

When developing an application, applicants must refer to the [National Eligibility Rules](#) setting out the requirements of the 2014 to 2020 European Regional Development Fund programme. It is the responsibility of the applicant to ensure that the National Eligibility Rules are adhered to both at application stage and following approval. Failure to do so can lead to financial penalties leading to recovery of up to 100% of the grant value. If in doubt on any of the requirements, applicants are strongly advised to seek specialist advice.

European Regional Development Fund eligibility rules apply to **all** project spend within the eligible costs, including match funding.

The European Regional Development Fund is governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant

documentation, (section 8 Key Document refers) prior to submitting an outline application. If successful at the full application stage, applicants will enter into [a Funding agreement](#) and must abide by the standard terms and conditions contained therein. Once a Funding agreement has been issued it should be signed and returned within 30 days, unless otherwise agreed with the Managing Authority. Applicants are therefore strongly advised to read these terms and conditions to ensure that they are able to enter into such an agreement prior to responding to the call.

6.2. Eligible applicants

Section 4 of the [National Eligibility Rules](#) sets out who is eligible to apply. Financial Due Diligence checks will be undertaken on non-public sector applicants that are successful at the outline application stage. Checks will be carried out following notification of a successful outline application and may exclude applicants from further consideration. These checks will include assessment of the applicant's financial standing including ability to deal with cost overruns, the ability to cash flow a project in arrears and absorb a financial irregularity. Applicants must be legally constituted at the point of signing a funding agreement. If the application is approved the applicant organisation will enter into a legally binding Funding agreement and therefore will carry the liability for ensuring that the terms and conditions of the funding agreement are met.

If there is more than one organisation applying for the funds, a lead organisation must be selected to become the applicant (and grant recipient) with the remaining organisation(s) acting as delivery partner(s). In this situation the applicant would be responsible and liable for the delivery partner(s) and ensuring the project is operating compliantly.

During the application process the managing authority will consider the applicant's track record, both positive and negative. If the applicant has been involved in the delivery of previous European grants and any irregularities have been identified, the managing authority will expect to see what steps have been taken to ensure that the risk of further irregularities in the future is mitigated. It is acknowledged that some organisations will be new to European Structural and Investment Funds funding and will not have a track record.

6.3. Contribution rate and match funding

European Regional Development Fund investment must not be used to replace existing funding sources. European Regional Development Fund investment must enable activity to take place that would not otherwise happen or to increase the

scope, scale or intensity of activity. The level of European Regional Development Fund awarded will be the minimum in order for the project to proceed

The maximum contribution rate is 80% of the total eligible project costs subject to State Aid regulations.

The remaining 20% or more must come from other eligible sources as specified under section 6 of the National Eligibility Rules. During the application process applicants will need to satisfy the managing authority that they have, or are able to put in place eligible match funding for the balance of costs. Other EU funds cannot be used as a source of match funding.

European Regional Development Fund investment is limited by State Aid regulations and where the award of European Regional Development Fund would constitute State Aid the European Regional Development Fund grant rate may fall below the 80% maximum.

European Regional Development Fund is paid quarterly in arrears and expenditure must be defrayed prior to the submission of any grant claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

6.4. Project timescales

European Regional Development Fund funding will normally be approved for three years, however the managing authority reserves the right to extend the contract term in exceptional circumstances.

Projects approved through this call will normally be expected to:

- Submit a detailed and complete full application within three months of formal selection at outline stage. Projects which fail to meet this deadline may be deselected;
- Commence delivery (defraying European Regional Development Fund eligible costs) within three months of formal approval. Projects which fail to meet this deadline may be deselected; and
- Be closed by June 2023.

6.5. Project extensions

Existing grant recipients whose projects:

1. Do not involve the direct development of premises or infrastructure;
2. Have a funding agreement that ends/has a financial completion date during the period of this call or within **18 months of the closing date of this call**; and
3. Addresses the priorities set out in section 2

May apply for a second phase of delivery – this will be expected to be in the same form as the current project (i.e. a genuine continuation of activity) but may reflect improvement/some change to reflect experience of the first phase of the project. The application must be made using the standard outline application form. Where changes to the first phase of the project are significant, these should be presented as a new application. The relevant Growth Delivery Team will apply judgment in considering the significance of any change. Projects may apply to be extended for up to 3 years.

Applications in respect of the development of premises or other infrastructure should be presented as new projects, this includes applications that have a link to an existing European Regional Development Fund project e.g. further phases of the development of sites or premises.

Please note - extensions to existing projects will be assessed against the criteria set out in this call in the same way as ‘new’ projects. There is no guarantee that extensions will be selected. Extension requests relating to projects that end more than 18 months after the closing date of the call or do not meet the requirements set out in this call will be rejected. The applicant’s track record and the performance of existing contracts will be taken into account during the assessment process.

6.6. Capital projects

In developing the budget for the outline application, applicants seeking European Regional Development Fund to support a capital project should note that:

- New build projects will normally be expected to achieve the Building Research Establishment Environmental Assessment Method (BREEAM) rating of ‘excellent’; however BREEAM ‘very good’ will be accepted where this is the maximum feasible standard;
- Refurbishment projects will normally be expected to achieve the BREEAM rating of ‘Very Good’; and
- Infrastructure projects will normally be expected to achieve the Civil Engineering Environmental Quality Assessment rating of ‘Very Good’.

6.7. Cross Cutting Themes / Horizontal Principles

All applications selected as a result of this call will be required to demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross Cutting Themes for European Regional Development Fund are ‘equality and anti-discrimination’ and ‘sustainable development’. Further information is available in section 11 of the [European Regional Development Fund Operational Programme](#).

Some groups lack entrepreneurial understanding and appropriate skills and face entrenched attitudinal barriers. People in difficult social or economic circumstances face barriers to enterprise, but some groups have additional ones – for example women and black and minority ethnic groups are often under-represented in enterprise compared to the wider population, so investments under priority axis 3 should actively address barriers to business start-up and other types of business opportunities for such groups.

In providing support for small and medium sized enterprises, applicants under priority axis 3 are required to demonstrate, where appropriate, how resource efficiency is embedded into the business support offer. Where it is not thought appropriate a detailed explanation why it's not appropriate should be provided in the Cross Cutting Theme Section of the application.

6.8. Additionality, duplication and displacement

Additionality is a core principle of European Regional Development Funding. Applicants must be able to demonstrate that the activity paid for out of European Regional Development Funding adds value to new or existing activity.

European Regional Development Funding cannot support activities that duplicate existing provision/services within the region.

Applications need to identify and evidence how the beneficiaries will use the service and demonstrate that the project does not displace other activity available in the market place.

6.9. State Aid and revenue generation

Applicants are required, in the outline application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid. Grant funding to any economic undertaking which is State Aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme under the General Block Exemption Regulation (EU) 651/2014.

Only if this is not possible should Applicants use the De Minimis Regulation or 'no aid'. [Guidance for grant recipients](#), explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the programme.

The managing authority is not able to give legal advice on State Aid. It is the responsibility of the applicant to ensure that the operation is State Aid compliant.

6.10. Procurement

All costs claimed by the applicant (grant recipient and / or delivery partner(s)) must be recovered on an actual cost basis. Other costs must be procured in line with

National (including [Public Procurement Regulation 2015](#)) and EU regulations. Procurement will be subject to audit and verification and any irregularity will result in a financial penalty of up to 100% of the grant paid. Robust and transparent procurement is required to ensure that grant recipients:

- Consider value for money;
- Maximise efficient use of public money; and
- Maintain competitiveness and fairness across the EU.

It is **strongly recommended** that applicants seek and follow legal advice in respect of procurement requirements. Procurement irregularities remain the most substantive cause of error and clawback of grants.

7. Support

Please note that this is a competitive call and to preserve impartiality the managing authority and, where appropriate, the intermediate body are unable to enter into correspondence with applicants over their outline application. Details of where guidance can be found are contained throughout this call document. In exceptional circumstances, if there are issues with accessing this guidance, please contact: SW.ERDFenquiries@communities.gov.uk.

Whilst the decision of the managing authority is final, if you think consideration of your application has not followed the published ERDF process, please refer to the MHCLG complaints procedure available on [GOV.UK](#).

8. Key Documents

- European Regional Development Fund operational programme;
- Outline application form;
- Outline application form guidance;
- Local enterprise partnership area's European Structural and Investment Funds strategy;
- Eligibility guidance;
- Target definitions;
- Funding agreement (revenue and / or capital);
- Summative assessments guidance; and

- 2017 [Industrial Strategy](#) (or any later publication that amends or supersedes that).

9. Document Checklist

Incomplete applications will be rejected. Please ensure the following information (documents) are submitted.

Outline Stage:

- Fully completed outline application;
- Financial tables; and
- Outputs, results and indicators tables.

10. Document Submission

Completed outline applications must be submitted via email to the address in Section 7. Applicants are asked to quote the call reference and project name in the subject line of your email as this will greatly assist the managing authority.

Outline application forms not received by the deadline will not be assessed. Outline applications which are not fully completed will be excluded.

The managing authority will normally acknowledge receipt of your application by email. For this call applications will normally be required to **commence delivery / activity within three months** of the award of a Funding agreement.

Any changes related to the deadline for the submission of the outline application form will be notified on the [European Growth Funding](#) website pages.
