- ¹ LoS x' means 'LoS greater than or equal to x but less than x+1'. So 'LoS21', for example, is the chance of personnel serving more than or equal to 21 years but less than 22 years.
- ² Chance of promotion having already achieved the preceding rank considers the trade as a whole and is not specific to LoS.
- 3 Average Return of Service is the average length of service on exit. It considers the trade as a whole, both trained and untrained, and is not specific to rank or LoS.

Notes:

- a. These data are based on the seven year span of actual data 2011/12 2017/18. By considering a cohort of individuals with the similar characteristics **New Entrants** into the **SE Fitt** trade average career projections have been calculated.
- b. Defence Statistics' career forecasts are not based on the actual experience of any one individual, but rather are based on the historical behaviour of individuals with similar characteristics.
