### Introductory note

#### This introductory note does not form a part of the notice.

The following notice gives notice of the surrender in part of an environmental permit.

The part surrender application is to reduce the permitted boundary of the site. This area of land was to be used a proposed railway extension for waste handling. The railway line was subsequently constructed further north and so operations did not commence in this area of land.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
