(d) Net weight of consignment:

(e) Shipping marks:

(f) Identification marks on the packages (eg: lot/batch numbers):

II Origin of products

(a) Name, address and approval number of the production establishment:

III Destination of products

(a) Name and address of consignee:

(b) Means of transportation:

IV Health Information

I, the undersigned official veterinarian, certify that:

1. The raw materials used in the manufacture of the gelatine described above:

(a) did not contain the following specified risk materials (SRM):

- (i) the skull or vertebral column or spinal cord from bovine animals aged over 30 months;
- (ii) the tonsils or the distal part of the ileum from bovine animals of any age;

(b) were subjected to one of the following processing methods:

Either

*(i) a manufacturing process that includes all of the following steps:

- degreasing;
- acid demineralisation;
- acid or alkaline treatment;
- filtration; and
- sterilisation at 138°C or higher for a minimum of 4 seconds

Or

*(ii) an alternative manufacturing process providing at least an equivalent level of BSE infectivity reduction.
