

# Role State

Aircraft Serial No \_\_\_\_\_

Sheet No \_\_\_\_\_

### Role State - MOD Form 706H(C17A)

1. The MOD form 706H(C17A) is used to record the Role state of the aircraft. When raising new form enter the Aircraft Serial Number and the next page number in sequence. After ensuring that the first block of the new form shows the current aircraft state, the old form can be removed and disposed of in accordance with local instructions.

2. The fitting and removal of role equipment is to be recorded on a Maintenance Work Order. The task supervisor is to complete the next block of the MOD Form 706H(C17A) to show the current role state of the aircraft.
