

**English Housing Survey  
Questionnaire Documentation**

**Year 9 (2016-17)**

**October 2016**

## Key to using this document

### Structure of the questionnaire

The interview survey component of the English Housing Survey was carried out using Computer Assisted Personal Interviewing (CAPI). The survey 'instrument' is therefore a computer program, the structure of which is not as straight-forward as a conventional pen and paper questionnaire. The purpose of this document is to provide a clear understanding of the content and structure of the interview.

The presentation of the CAPI questionnaire follows a consistent structure which is shown by the following example.

---

**ASK IF: HRP'S ANSWER TO ResTme3 = 1, 2 OR 3 (LIVED THERE FOR LESS THAN 3 YEARS)**

### PrevAc

CARD D1

*Dwelling.sav*

Thinking about the accommodation [you/name] lived in before [you/he/she] moved here, will you please tell me in which of the ways on this card [you/he/she] occupied the accommodation?

- (1) Owned it own name/jointly
- (2) Spouse/partner owned it
- (3) Rented it in own name/jointly
- (4) Spouse/partner rented it
- (5) Had it rent-free in own name (or spouse's/partner's name)
- (6) Did not have accommodation in own name or spouse's/partner's name

---

The first line "**ASK IF: HRP'S ANSWER TO ResTme3 = 1, 2 OR 3 (LIVED THERE FOR LESS THAN 3 YEARS)**" is a description of the routing for the question. The question in this example is only asked of respondents who have selected answer codes 1, 2 or 3 at question ResTme3 indicating that they have lived at the accommodation for less than three years. Questions that are applicable to all respondents are marked as "APPLIES TO ALL". Please note that the term "applies to all" refers in some instances to "all interviewed cases" and therefore excludes vacants and non-contacts. From the administration block onwards, "applies to all" refers to all sampled cases (including vacants and non-contacts).

The name of the question appears in bold (in this case, PrevAc) and in most cases this corresponds to the name of the variable used in the data file that will eventually accompany this document. If the question is a multcoded question (i.e. where the respondent was allowed to give more than one answer) then there will be a separate variable in the data file for each response category. The name of each of these variables will be in bold text next to the corresponding response category.

The name of the data file which contains the variable(s) is printed in italics above the text of the question (for example, *Dwelling.sav*).

Text in the square brackets, for example, on the first and second lines, is text inserted in a question that is based on an answer given in a previous question. This is known as a "textfill".

A forward slash (“/”) inserted between the square brackets indicates that there are more than one way in which the question can be asked.

The text in capitals provides instructions for the interviewers. In this example, the interview is prompted to show Card D1 to the respondent.

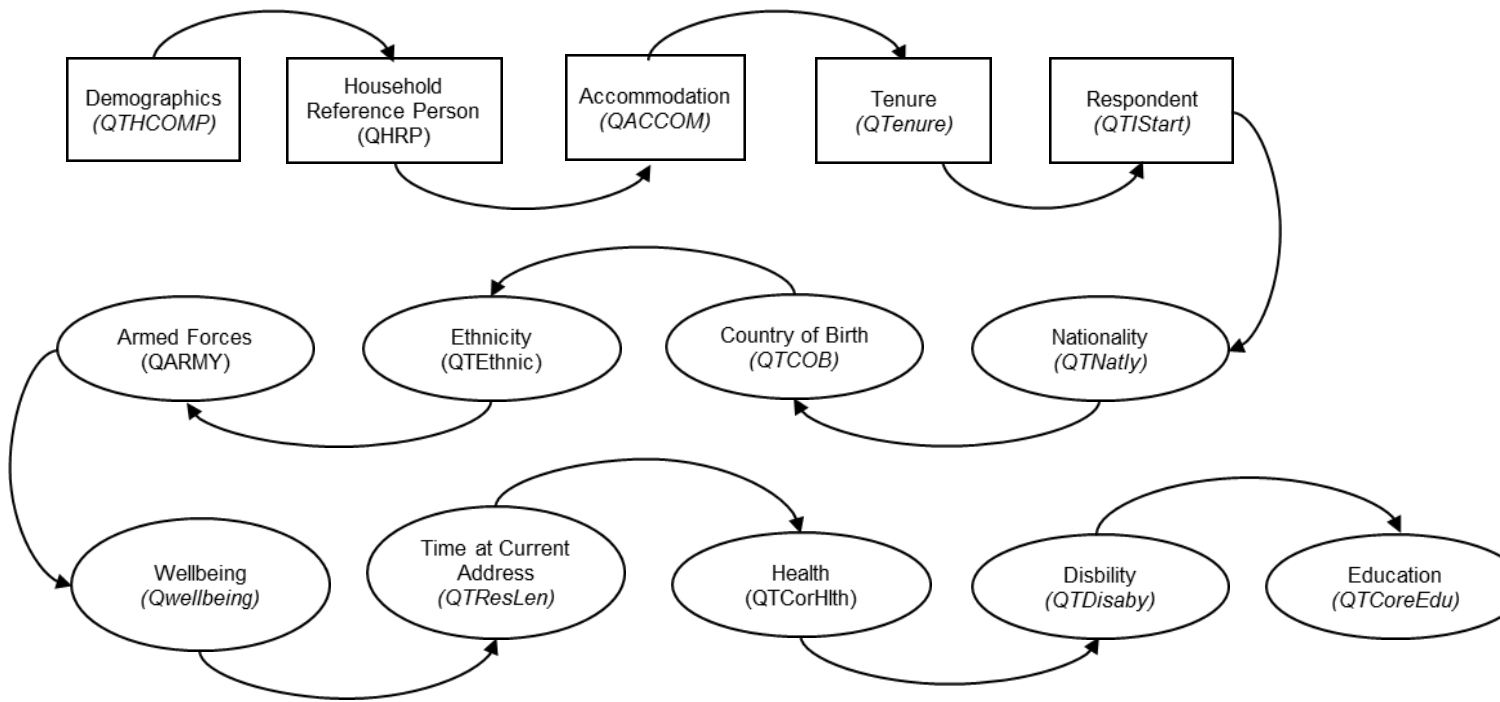

Numbers given on the response list in round brackets correspond to the values used in the data set.

Some of the questions collect information about the households while others collect information about the individuals in the household. Questions relating to the household are collected once from the Household Reference Person (HRP) or his/her partner. Some of the questions about the individuals in the household members are asked of all the household members while others are asked of the HRP only. The table below show the question blocks that are asked of the household only and those asked of the individuals.

## New questions in 2016-17

**The full fires module was kept on in 2016-17. The neighbourhood module was rotated off and all other rotating modules remained off.**

**In addition, there was a new block of questions, and some standalone new questions added in 2016-17:**

- A new block on experience of homelessness (Qhomeless)
- A series of questions on custom building homes
- A new tenure question on whether current property is temporary or emergency accommodation (this question was added in wave 4)
- Some questions added or restored with new codes on energy efficiency measures in the home
- New questions on the property management
- New questions on whether private renters choose to rent privately

## Colour coding used in this document

**Black font** indicates existing questions, including rotating modules rotated back onto the questionnaire in 2016-17.

**Red font** indicates questions or wording which have been removed from the questionnaire as a result of the annual review of the questionnaire.

**Plum font** indicates questions which have been rotated off the questionnaire – which will be brought back in a future version.

**Blue font** indicates new questions which have been added to the questionnaire in 2016-17.

## Index to the question blocks

The text in brackets are the name of the question block in the questionnaire program. Question blocks removed as a result of the annual review of the questionnaire are marked below. The year in which each removed block was last asked is detailed at the start of the documentation on the block.

*The section must be asked for all households consisting of more than one person. Please ask in every case. You should not make assumptions about any relationship. Treat relatives of cohabiting members of the household as though the cohabiting couple were married, unless the couple are a same-sex couple. That is, the mother of a partner is coded as mother-in-law. For same-sex cohabiting couples the mother of a partner should be coded as 'No relation'. Other relatives include cousins, nieces, nephews, aunts and uncles.*

*You should probe on this question, but be sensitive. It may be that someone described as a 'son' or 'brother' earlier is actually a stepson or half-brother. Where possible, we want to know the true relationship. If you have doubts about any relationship, record as much information as possible to allow changes to coding later if appropriate. Half brothers/sisters should be coded with step-brother/sisters.*

Must be space used by household

INTERVIEWER: Is the household's accommodation...

If the household occupies a flat in a converted house, code 2 'a self-contained flat, maisonette or apartment'.

For a household to be included in category 3 'a room or rooms', it has to share either kitchen, bath/shower or WC with another household space.

- (1) a house or bungalow
  - (2) a self-contained flat, maisonette or apartment
  - (3) a room or rooms (e.g. bedsit or flatlet)

CARD A1

Do you (or your household) own or rent this accommodation? READ OUT...

**RUNNING PROMPT - READ TO END OF CODE 5**

- (1) Do you own your home **Own it** outright
- (2) Are you buying **Buying** it with the help of a mortgage or loan
- (3) Do you part **Part** own and part rent (shared ownership)
- (4) Do you rent **Rent** it (includes all those who are on Housing Benefit or Local Housing Allowance)
- (5) Do you live **Live** here rent-free (including rent-free in relative's/friend's property but excluding squatters)?
- (6) SPONTANEOUS: Squatting

### **(Helpscreen instructions)**

*This question is asking for the formal legal tenure of the HRP's household. If, for example, the HRP is a widow living in a house bought by her son (in his name) who is living elsewhere, she should be coded as living rent-free even though she may regard herself as an owner-occupier. Similarly, a household which is paying a contribution to upkeep but not a formal rent should be coded as rent-free. This could arise, for example, if a parent lived in a granny-flat as a separate household but paid a contribution to general expenses.*

### **Owners**

*Only code people as mortgagors if they have a mortgage for buying their home. Some people who have paid off their mortgage and are effectively outright owners make an arrangement with the lender to continue to pay a small amount of 'mortgage' as payment for the lender for keeping the deeds. They should be coded as outright owners.*

*People who own their home with a lease are counted as owners. It does not matter that they pay ground rent. Similarly people who own their own home under the new Commonhold tenure (see below) are also counted as owners.*

### **Shared owners**

*Shared ownership means partly owning (or buying with a mortgage) and partly renting the property, so that, if the person moves, he/she will get some of the proceeds from the sale of the property, according to how much of the original cost has been paid off. Include people who have paid off the mortgage portion. People with shared ownership arrangements are treated as owner-occupiers in the interview. They are not local authority/housing association tenants even if their arrangement is with a local authority/housing association. Owners who pay a service charge but not rent should be counted as owners, not shared owners.*

### **Rent free**

*People who live rent free do not always regard themselves as doing so, so particular care is needed in dealing with such cases.*

*The following types of case have caused problems. The correct coding is in brackets:*

- Someone living in a 'granny-flat' owned by her son in his name (private renter living rent-free).
- Someone living in the property of a deceased partner which is held in trust (private renter living rent-free).

- A divorced/separated woman living in the house owned solely by her ex-partner who no longer lives there (rent-free if owned only in partner's name; owner if the house is owned in the name of both partners)

Sometimes respondents think they live rent-free when they do not e.g. people on full housing benefit who do not pay any rent to the landlord themselves because housing benefit is paid directly by the Department for Work and Pensions (DWP) formerly the Department of Social Security.

#### **Tied accommodation**

People in tied accommodation should be coded here as renters (code 4) or rent-free (code 5), depending on whether or not they pay any rent. This group includes people whose accommodation goes with their job e.g. Church of England employees, caretakers, army personnel, council tenants whose accommodation goes with their job, some farmers. People in tied accommodation are classified as private renters, irrespective of who they are renting from.

#### **Unusual schemes/arrangements**

**Co-ownership:** this is the joint ownership of residential properties (e.g. blocks of flats) by a group of people who have formed a registered co-ownership society. These schemes started in the 1970s but new legislation was passed in the 1980s so that there should not be any more.

Housing co-operatives: code as renting from a housing association (code 4 here, and code 2 at "Who is your landlord?" below)

**Commonhold:** a new form of land ownership in England and Wales, created by Part 1 of the Commonhold and Leasehold Reform Act 2002. It combines freehold ownership of a unit in a larger development with membership of a commonhold association that owns and is responsible for the management and upkeep of the common parts of the development. Commonhold is an alternative to long leasehold ownership of flats and other interdependent properties.

**Housing Action Trusts:** these are set up by local authorities and the properties rented are still owned by local authorities; their tenants are renting from a local authority.

**Rents to Mortgages scheme:** these are schemes available to council tenants whereby a tenant has the right to buy a share of their home for roughly the same price as the rent. These should be coded as shared owners here and "local authority" at type of landlord (below).

**Private Sector Leasing:** the Council leases private property for several years and lets it out to tenants. The landlord is the immediate landlord, which is the local authority.

**Home Income Plans and Retirement Home Plans:** these are where outright owners raise a loan on the security of the house for a regular income. They should be coded as outright owners.

**Schemes for Mortgage defaulters:** in these cases the property reverts to the lender and a rent is paid instead of a mortgage. Code as renters.

*This is a check on the responses to the basic tenure question (Ten1). One particular group targeted are those who think they live in accommodation as an owner occupier, but where the owner is then revealed (in answer to this question) as a relative who lives somewhere else. In such cases the occupants should have been coded as living rent-free and not as owner occupiers. (See instructions at Ten1).*

#### **(Helpscreen instructions)**

*Interviewers should provide guidance regarding the coverage of conditions and illnesses if asked for clarification: for example, a respondent may state their mobility is impaired but is unsure whether this classifies as a long-lasting condition or illness. Interviewers should guide the respondent in line with the examples given above.*

*Spontaneous responses can be recorded but should not be presented as options to respondents. If respondents are too ill to respond on their own behalf, if present, proxy responses from a family member or friend can be recorded. For those not able to speak English, translators should be used to assist with the data collection.*

Did you know at the start of the agreement that the tenancy would finish at the end of the fixed period?

- (1) Yes
- (2) No

(Helpscreen instructions)

The standard Assured Shorthold Tenancy agreement used by most landlords is nearly always for a 12 month period and then 'rolls on'.

Commonly tenants will expect a tenancy to roll on unless given clear indications by the landlord or letting agent at the start of the tenancy or if they are given significant warning.

This question intends to pick up where landlords terminate tenancies abruptly and unexpectedly because of a change to their circumstances, and incorrectly refer the tenant to the standard 12 month duration of an Assured Shorthold Tenancy.

IF NECESSARY, ASK THE RESPONDENT SOME OF THE QUESTIONS LISTED.

PLEASE WRITE IF YOU THINK THIS HOUSEHOLD IS AN HMO OR NOT AND GIVE YOUR REASONS BASED ON THE CHECKLIST.”

:STRING

**(HELPSCREEN INSTRUCTIONS)**

THE FOLLOWING SUPPLEMENTARY QUESTIONS WILL HELP DETERMINE WHETHER THE DWELLING IS AN HMO. COUNT THE NUMBER OF “YES” RESPONSES TO THE KEY QUESTIONS AND ADDITIONAL QUESTIONS THEN USE THE TABLE BELOW TO DETERMINE WHETHER THE PATTERN OF RESPONSES INDICATES THAT THE DWELLING IS AN HMO OR INSTEAD IDENTIFIES THE DWELLING AS A SINGLE HOUSEHOLD/SHARED HOUSEHOLD (I.E. NOT AN HMO).

KEY QUESTIONS:

1. DOES THE LANDLORD FIND NEW TENANTS TO FILL ANY ROOMS THAT BECOME VACANT (AS OPPOSED TO THE REMAINING TENANTS FULFILLING THIS FUNCTION)?
2. DOES THE LANDLORD BEAR THE COST OF ANY SHORTFALL IN RENT IF ONE OR MORE TENANTS DEFAULTS OR VACATES (AS OPPOSED TO THE REMAINING TENANTS HAVING TO PAY)?
3. DID THE OCCUPIERS COME TO RENT THE HOUSE SEPARATELY (AS OPPOSED TO A SINGLE GROUP OF RENTERS)?

ADDITIONAL QUESTIONS:

4. DO THE TENANTS IDENTIFY THEMSELVES AS MULTIPLE HOUSEHOLDS?
5. IS THERE A LARGE GROUP OF OCCUPIERS (I.E. MORE THAN 5 PERSONS)?
6. IS THERE A SEPARATE TENANCY AGREEMENT FOR EACH OCCUPANT (AS OPPOSED TO A JOINT TENANCY)?
7. DO INDIVIDUAL TENANTS KEEP THEIR ROOMS LOCKED, EXCLUDING OTHER TENANTS FROM THEIR ACCOMMODATION?

6+ QUESTIONS ANSWERED ‘YES’ = BED-SITS (WHICH COLLECTIVELY WOULD FORM AN HMO)

4-5 QUESTIONS ANSWERED ‘YES’

INCLUDING AT LEAST 1 ‘KEY QUESTION’ = BED-SITS (WHICH COLLECTIVELY WOULD FORM AN HMO)

4-5 QUESTIONS ANSWERED ‘YES’

BUT NOT ANY 'KEY QUESTIONS'= SINGLE HOUSEHOLD/SHARED HOUSE (I.E. NOT AN HMO)

LESS THAN 4 QUESTIONS ANSWERED 'YES'= SINGLE HOUSEHOLD/SHARED HOUSE (I.E. NOT AN HMO)

8. HAS THERE BEEN A LARGE TURNOVER OF OCCUPIERS SINCE THE COMMENCEMENT OF THE TENANCY? (SAY MORE THAN 40% OVER LAST 18 MONTHS.)

CARD M1

What type of mortgage/loan is your main mortgage?

- (1) An ENDOWMENT mortgage (where your mortgage payments cover the interest only)
- (2) A REPAYMENT mortgage (where your mortgage payments cover interest and part of the original loan)
- (3) Both an endowment (or any interest only) mortgage and a repayment mortgage
- (4) Any other type of interest only mortgage with one or more linked investments (eg a pension, ISA, Unit Trust or Investment Trust scheme, or a combination of these)
- (5) An interest only mortgage with NO linked investment
- (6) Another type (not listed above)

### (Helpscreen instructions)

#### Endowment Mortgage

An endowment policy is taken out with an insurance company either before or at the same time as the mortgage. The endowment policy is designed to end and at the same time as the mortgage. Endowments are often sold by the lender or adviser, who arranges the mortgage, they can also be arranged independently. Money paid into the endowment policy is invested in stocks and shares and other investments. Like all stock investments, endowment policies do involve risk and their value can fall and rise. At the end of a set number of years (the policy 'term'), the policy 'matures' and they get a lump sum, which is used to repay the mortgage loan.

The original mortgage amount remains outstanding until the policy matures. In the meantime interest is paid on the total amount borrowed and premiums are paid on the endowment policy.

Endowment mortgages were once very popular, but have fallen out of favour in recent years. This is because many of the circumstances that used to make them attractive have disappeared, such as tax relief on premiums and mortgage interest, high inflation and high interest rates.

### **Repayment Mortgage**

In this case the money borrowed for the purchase of the house is repaid over a period of years; interest is also paid on the amount outstanding at the time. Monthly repayments are paid to the lender over an agreed number of years (called the mortgage 'term'). Most people choose a term of 20 to 25 years for their first mortgage, but they can be for shorter or longer periods. The payments cover the interest on the loan and also gradually pay off the amount borrowed (sometimes called the 'capital' or the 'principal').

People with repayment mortgages (and pension, PEP, ISA or Unit Trust mortgages - see below) usually take out a mortgage protection policy with an insurance company so that in the event of death there is available a sum of money to pay off the outstanding mortgage. This arrangement should not be confused with the endowment policy of an endowment mortgage.

With a repayment mortgage, by repaying the original loan we mean the original capital sum borrowed.

### **Pension Mortgage**

Interest only is paid to the lender and monthly contributions are paid to a personal pension plan which is designed to repay the mortgage on retirement. In addition, it is necessary to arrange a separate protection policy designed to repay the mortgage if the borrower should die before the end of the mortgage term. A pension mortgage can include a stakeholder pension.

#### ***PEP, ISA and Unit Trust Mortgages***

*With a PEP Mortgage the borrower pays interest only to the lender and pays monthly contributions into a Personal Equity Plan, which is designed to pay off the loan. The PEP will usually invest in unit trusts and a mortgage protection policy must be arranged. (PEPs have now been reclassified as ISAs)*

*With a unit trust mortgage the borrower pays interest only to the lender and also makes monthly investments in a unit trust savings plan. As stock market prices rise, the lender may allow the borrower to pay off part of the loan. With this arrangement, a protection policy is also necessary.*

*With an ISA Mortgage the borrower pays interest only to the lender and pays monthly contributions into an Individual Savings Account, which is designed to pay off the loan.*

#### ***Both an interest only and repayment mortgage***

*This code applies if the mortgage is a single arrangement which has both an interest-only element and an interest-and-capital element, combined into one regular payment made to the lender. If there are two separate mortgages of different types secured on the property, and separate payments are made to the lender(s), only the main mortgage should be coded at this question. Separate, second mortgages not for the purchase of the property (or any separate mortgage for purchase) should not be entered here.*

#### ***An INTEREST ONLY mortgage with more than one related investment (for example, pension and unit trust, endowment and ISA)***

*Some borrowers have more than one investment scheme set up to repay the amount borrowed on an interest only mortgage, for example, an endowment and an ISA. This code enables the questionnaire to uniquely identify this type of mortgage arrangement and subsequent questions collect information on all of the investment schemes linked with the interest only mortgage.*

#### ***An INTEREST ONLY mortgage with NO linked investment (For example, NO endowment, pension, PEP or ISA)***

*This type of borrower has decided not to take out any type of investment or savings scheme to repay the mortgage at the end of the mortgage term.*

The unique characteristic of an interest only mortgage is that payments to the lender only cover the interest on the loan. The payments do not re-pay any of the amounts borrowed. The mortgage still usually has a fixed term and the borrower is expected to repay the amount borrowed in one go.

With Interest only mortgages the borrower usually arranges an investment such as an endowment, ISA or PEP to save the money needed to repay the mortgage debt. However, some borrowers do not set up an investment or savings scheme. It is this type of borrower that we would like recorded using this code. These borrowers may have a different strategy in place to repay the mortgage or have decided the later sale of the property will release enough capital to repay the borrowed amount. You may come across other schemes people have thought up to repay their mortgage for example, using proceeds from a maturing life insurance policy or paying off the amount borrowed using the occasional lump sum.

**Another type of mortgage**

Please remember to make a note when using this code. The note should include details of the main features of the mortgage.

*On the EHS this question is being asked after the main eight category mortgage question above. This is so the question can act as a check (especially for those with INTEREST ONLY mortgages) to help ensure that the main mortgage question has been correctly coded. For example, the respondent may have described their mortgage as an 'Endowment mortgage' (code 1) at the main mortgage question. At the above question they mention that they are also making payments into an ISA which they intend to use to repay their mortgage when it matures. This means that they have more than one investment or savings scheme related to their mortgage, so at the main mortgage question they should really have been coded as 'an interest only with more than one linked investment' (code 6) rather than an endowment mortgage.*

*We are only interested in recording saving schemes and investments into which the respondent is CURRENTLY making payments. For example if they have completed contributing to an ISA then this should not be recorded at this question, so use code 5 and please make a note.*

*If the above question is coded as 'None of the above' - please open a note and record details about how the respondent expects to repay the loan*

*'Can I just check' will only appear at the beginning of this question when the main mortgage question is coded as 'Interest only with NO linked investments' (code 7) or 'Another type of mortgage' (code 8). The question may not seem relevant for these cases, but we want to ask the question to check that the main mortgage question is coded correctly.*

*If the respondent has an ENDOWMENT mortgage - please use code 5, you will be asked for information specifically about the ENDOWMENT mortgage at the next question. People with ENDOWMENT mortgages are only routed through this question to ensure that the main mortgage question has been coded correctly.*

*- IF THE RESPONDENT SAYS THEY WILL BE REPAYING MORTGAGE USING ANY OF THE INVESTMENT/SAVINGS LISTED IN THE ABOVE QUESTION (CODES 1-4) BUT AT THE MAIN MORTGAGE QUESTION THEY SAID THEY HAD AN 'INTEREST ONLY WITH NO LINKED INVESTMENTS' (CODE 5).*

YOU DESCRIBED YOUR MORTGAGE AS AN INTEREST ONLY WITH NO LINKED INVESTMENTS, CAN I JUST CHECK IS THIS SAVINGS/INVESTMENT SCHEME LINKED TO YOUR MORTGAGE?' PLEASE AMEND THE ANSWER AT THE MAIN MORTGAGE QUESTION AS APPROPRIATE'

– IF THE ABOVE QUESTION IS CODED AS BETWEEN 1 AND 4 (HAS SOME TYPE OF INVESTMENT OR SAVINGS SCHEME) AND AT THE MAIN MORTGAGE QUESTION A CODE 6 (OTHER) HAS BEEN GIVEN 'IF THERE IS AN ENDOWMENT, PENSION, ISA OR OTHER SAVINGS/INVESTMENT SCHEME LINKED TO COVER THE REPAYMENT OF THE ORIGINAL LOAN, PLEASE AMEND THE ANSWER AT THE MAIN MORTGAGE QUESTION AS APPROPRIATE?113

– IF THE ABOVE QUESTION IS CODED AS 6 (NONE OF THE ABOVE) AND THE MAIN MORTGAGE QUESTION DOES NOT EQUAL 1 (ENDOWMENT) 'PLEASE LEAVE A NOTE TO DESCRIBE HOW THE RESPONDENT WILL BE REPAYING THEIR MORTGAGE'.

– IF THE ABOVE QUESTION IS CODED AS BETWEEN 1 AND 4 (HAS SOME TYPE OF INVESTMENT OR SAVINGS SCHEME) AND THE MAIN MORTGAGE QUESTION IS ANSWERED AS 1 (ENDOWMENT) 'EARLIER YOU DESCRIBED YOUR MORTGAGE AS AN ENDOWMENT BUT YOU ALSO HAVE ANOTHER SAVINGS/INVESTMENT SCHEME LINKED TO THE REPAYMENT OF YOUR MORTGAGE, PLEASE AMEND THE ANSWER AT THE MAIN MORTGAGE QUESTION AS APPROPRIATE'.

Help<F9>

An all-in-one account is a type of flexible mortgage which allows a person to link together different accounts - for example, a current account, a savings account and a mortgage (as well as any other loans). There are two types of all-in-one account, current account mortgages and offset mortgages.

Is your mortgage an all-in-one account?

Interviewer: Examples include a Virgin-One account, a Woolwich Open Plan or some other all-in-one account.

- (1) Yes
- (2) No

### (Helpscreen instructions)

#### **Flexible mortgages**

*Flexible mortgages are those which give the borrower the flexibility to make certain changes without asking their lender first, such as varying the amount or timing of payments, or taking breaks in some circumstances. People with such mortgages can make over or underpayments each month or can pay off lump sums without incurring charges. Other common features of flexible mortgages are the ability to withdraw lump sums and to take payment holidays. If people overpay it may allow them to pay off the mortgage early, or to take payment holidays later, for example if they have a baby or take a career break.*

**It is worth noting that** increasingly many “traditional” mortgages have flexible features even though they are not strictly flexible mortgages. For example it may be possible to make lump sum payments without restriction. However for a mortgage to be truly flexible it should really have the facility to make overpayments and to make underpayments.

*Flexible mortgages can be repayment, endowment or other investment mortgages.*

*A subset of flexible mortgages is called all-on-one accounts. There are two types:*

**current account mortgages:** mortgage combined with a current account and forms one account, e.g.: Virgin One Account

**offset mortgages:** the mortgage is run parallel with a current account and savings account between which money can be transferred and the mortgage debt offset against any savings held (offset) (see diagram), there may be several savings “pots” which together form the total savings e.g.: Woolwich Open Plan

Help <F9>

Is your all-in-one account, a current account mortgage or an offset mortgage?

INTERVIEWER: With a current account mortgage, the borrower's mortgage is combined with their current account to form one account for example, the 'Virgin One Account'.

An offset mortgage is run parallel with the current account and savings account between which money can be transferred and the mortgage debt offset against any savings held.

(1) Current Account mortgage

(2) Offset mortgage

#### **(Helpscreen instructions)**

*The main difference between an offset mortgage and current account mortgage is that with a current account mortgage, the borrower's current account and any other accounts are combined with their mortgage account.*

*The current account mortgage (CAM) combines the borrower's mortgage, current account, savings account, personal loans and credit cards into one account. Their salary is paid into this account, if they don't spend all their income at the end of the month, that amount is taken off what is owed on the mortgage.*

*For example, if they were paid £2000 after tax each month, then spend £1500 in the month, £500 is left in the account which comes off the mortgage. Since interest is calculated on a daily basis, the interest paid is immediately reduced.*

*The CAM allows the borrower to make overpayments and underpayments and borrow back money, so can be defined as fully flexible.*

*Offset is a new type of flexible mortgage. It links the mortgage to the borrower's Current and Savings Accounts.*

*The borrower can save money on interest repayments, because the interest is calculated on the difference between the combined balance of the Current and Savings Accounts and their mortgage balances. This means that the mortgage term could be reduced and the borrower saves money.*

*Interest is calculated daily, so every day the borrower's Current and Savings Accounts are in credit, the interest calculated on the mortgage will be reduced and the subsequent repayments.*

Can you tell me what type of tenancy you have?

IF TENANCY TYPE WRITTEN ON CONTRACT/NOTICE ASK RESPONDENT TO READ OUT

- (1) Assured shorthold
- (2) Assured (for tenancies starting between 1989-1997)
- (3) Regulated (tenancy must have started in 1988 or earlier)
- (4) Resident landlord
- (5) Let by educational institution
- (6) Other type of let

### **(Helpscreen instructions)**

#### ***Assured Shorthold***

*The majority (67%) of private renting sector (PRS) tenants will have an Assured Shorthold tenancy. This tenancy grants right of occupancy for a fixed term (usually 6 months or a year). During this period the tenancy cannot be terminated on 'no fault' grounds. After that period the landlord has the right to terminate the tenancy at just two months notice. The Housing Act 1996 made assured shorthold tenancies the default tenancy for private renting.*

#### ***Assured Tenancy***

*A small number (12%) of PRS tenants have an Assured tenancy, which gives them lifetime security. The rent is not regulated however and can rise with market rent. Between 1988-1997, the default type of tenancy was this type.*

#### ***Regulated Tenancy (1988 and before)***

*Before 1988 the standard tenancy type offered in the Private Rental Sector was the Regulated tenancy. This comprised a regulated rent and lifetime security of tenure and succession rights. Rent rises were linked to RPI. 4.3% of the current market are regulated tenancies.*

#### ***Resident Landlords***

*Residential landlords refers to landlords who let rooms in the house that they themselves live in. In other words they have lodgers.*

#### ***Educational Institutions***

*An educational institution would include, for example, halls of residence owned by a university. The tenancies offered by Educational institutions (and residential landlords) give the landlord the right to end the tenancy with immediate effect (i.e. immediate eviction).*

How long is your notice period? That is the length of time the landlord must give you before you need to move out?

- (1) No notice period
- (2) Less than 2 months
- (3) 2 months
- (4) More than 2 months

#### **(Helpscreen instructions)**

The question is about the time that the landlord must give the tenant to move out when the landlord seeks to terminate the tenancy.

Standard Notice Periods will be 2 months long, under an Assured Shorthold Tenancy Agreement.

In fact it is normally the case that the length of notice the tenant must give to the landlord is also 2 months.

It is possible for the amount of notice the landlord gives the tenant to be different from the amount of notice the tenant must give the landlord. However in such cases the landlord is usually required to give more notice than the tenant.

Lodgers (tenants sharing accommodation with the landlord) will usually have no notice period at all.

Is your landlord a member of a local authority accreditation scheme?

Interviewer: Some local authorities have set up an accreditation scheme for private landlords in their area to help raise standards and help tenants locate a reliable landlord.

Accreditation schemes are voluntary and can include training, landlord forums, inspections of each property owned by a landlord and checks into the landlord's fitness to let a property.

Landlords who join a scheme and abide by the standards set down by the local authority are 'accredited'. Tenants know that if they choose to rent from an accredited landlord, the property will be in good condition and the tenancy will be managed to a high standard.

Note the question relates to LA run schemes only - answer No if landlord belongs to a professional organisation such as the National Landlords Association but not to a LA run scheme.

Can you tell me what type of tenancy you have?

INTERVIEWER: IF TENANCY TYPE WRITTEN ON CONTRACT/NOTICE ASK RESPONDENT TO READ OUT

Local Authority

- (1) Secure tenancy
- (2) Flexible tenancy (offered from April 2012)
- (3) Introductory tenancy

Housing Association

- (4) Assured tenancy
- (5) Secure tenancy (applies to tenancies taken up between 1985 and 1988)
- (6) Assured Shorthold tenancy
- (7) Fixed term tenancy (from April 2011)
- (8) Starter tenancy

- (9) Other

**(Helpscreen instructions amended year 7)**

### ***Notes on local authority tenancies***

#### *1. Secure Tenancy*

*The secure tenancy guarantees the tenant 'lifetime' occupancy, subject to payment of rent and reasonable behaviour. This was the standard type until April 2012. Tenants who have been in a secure tenancy for 5 years or more have a right to buy their home at a discounted rate, under current rules.*

#### *2. 'Flexible' tenancy*

*This is a new type of tenancy introduced in April 2012, which local authority landlords may choose to offer instead of a secure tenancy. It has a fixed term, usually 5 years or more.*

#### *3. 'Introductory' tenancy*

*This tenancy has a term of 12-18 months and is used to assess tenants before a longer term Secure or Flexible tenancy is offered. I.e. this response option will apply to people who have started their tenancy within the last 18 months. Introductory tenancies have been offered since the mid 1990s.*

## ***Notes on Housing Association tenancies***

### ***4. Assured tenancy***

*The assured tenancy grants the tenant a 'lifetime' occupancy like the secure tenancy for local authority tenants. Tenants who moved from LA to HA landlords as part of the Large Scale Voluntary transfers in the 1990s will have moved from a secure to an assured tenancy, but possibly with some reserved rights such as the reserved right to buy.*

### ***5. Secure Tenancy (tenancies taken up 1985-1988 and not moved since)***

*Housing association tenants who were granted their tenancies between 1985 and the commencement of the assured tenancy regime under the Housing Act 1988 are likely to have secure rather than assured tenancies.*

### ***6. Assured Shorthold tenancy***

*This is the standard tenancy in the private rental sector but is also offered by housing associations, particularly to market rent tenants and to tenants requiring more care and support. It usually has a 2 months notice period after a short initial fixed term. Fixed terms commonly last one year. The AST is the standard tenancy in the private rental sector but is also occasionally offered by housing associations and local authorities.*

*The AST may be offered to tenants requiring more care and support.*

*Also in some cases the AST is offered when a property is not suitable for social tenants (e.g. has no lift). An LA/HA may then let the home on the open market at a non-subsidised rent (known as a market rent). The LA/HA will often refer to this small group of tenants as 'market rent tenants'. They are essentially private renters, but who have a landlord that happens to be a Housing Association or Local Authority. They occupy the property under the same conditions generally offered to private renters. The standard AST has a 2 months' notice period after a short initial fixed term (usually one year).*

### ***7. Fixed term Tenancy (Assured Shorthold)***

*This is a fairly new type of tenancy offered since April 2011, usually with a term of 5 years or more. It is equivalent to the LA 'flexible' tenancy. This will be the form of tenancy most often used with 'Affordable Rents', as the Landlord will have the option to rebase the affordable rent at regular intervals (ie. Reset the rent relative to current market rents).*

### ***8. Starter tenancy (Assured Shorthold)***

*Starter tenancies are similar to introductory tenancies offered to LA tenants. They normally have a term of 12-18 months and are used to assess tenants before a longer term Secure or Flexible tenancy is offered. Starter tenancies have been offered since the mid 1990s.*

### ***9. Other tenancies***

*The above tenancy types will capture the vast majority of tenancies held by local authority and housing association tenants. A few may hold demoted tenancies however. The demoted tenancy, introduced by the Anti-*

*Social Behaviour Act 2003, enables Local authorities and housing trusts to deal more effectively with anti-social behaviour. It instigates a two-stage regime entitling such landlords to apply to demote an otherwise secure tenancy; and then, during this demoted period, the landlord may seek possession of the property as of right (provided it follows the statutory procedure.)*

## **Adaptations for disability (QTDisadapt)**

Questions in this section are asked of respondents reporting they have a disability, and assess adaptations that have either been made to the home or are needed in the home. Data are output into the adaptation.sav/adapt.sav SPSS file.

In year 4 questionnaire, this block was revised to record information on all respondents reporting they had a disability in the household rather than, if more than one, only the respondent with the most severe mobility problems

This block was rotated off in year 8 2015-16.

## **Fire Hazards and Outbreaks of Fire (QFires)**

This section asks about any fires that have occurred in the home in the last 12 months and what the cause of these fires was. Questions also ask about use of items that might contribute to the risk of a fire, and use of smoke alarms in the home. Data are output in the rotating.sav SPSS file.

Please note this block was revised for the Year 4 questionnaire – where several questions were removed. These are indicated by comments throughout this section.

The full version of this block was rotated back on in year 8 2015-16.

Help <F9>

There are currently several government schemes which aim to help people buy their own home. These include Help to Buy equity loan, Help to Buy Mortgage Guarantee and NewBuy Guarantee. Thinking about your intentions to buy a home, do these new schemes...READ OUT...

- (1) ...Make you less likely to buy,
- (2) Make you more likely to buy,
- (3) Or make no difference to your intentions to buy?

Show card to include Name of schemes and answer options

### **(Helpscreen instructions)**

**Help to Buy equity loans** are open to both first-time buyers and home movers for newly-built homes worth up to £600,000. You are not able to sub-let your home if you use this scheme.

How it works: With a Help to Buy equity loan you will need to contribute at least 5% of the property price as a deposit, the government will give you a loan for up to 20% of the price and you'll need a mortgage of up to 75% to cover the rest.

The **Help to Buy mortgage guarantee** helps you buy a home with a deposit of 5% of the purchase price. The guarantee is provided to your lender - not to you. Eligibility: To qualify for a Help to Buy mortgage guarantee, the home you want to buy must: sell for £600,000 or less, not be a shared ownership or shared equity purchase, not be a second home, not be rented out after purchase, The property can be newly built or already existing. You don't have to be a first-time buyer and there's no limit on your level of income. But you can't use Help to Buy with any other publicly funded mortgage scheme, or an interest-only mortgage.

**NewBuy Guarantee** lets you buy a newly built home with a deposit of only 5% of the purchase price. To be eligible for NewBuy, your new home must be:

a new build – being sold for the first time or for the first time in its current form (e.g. a new flat that used to be part of a house), priced £500,000 or less and your main home (you can't use NewBuy to buy a second home or a buy-to-let property)

It must be owned fully by you (you can't use NewBuy for shared ownership or shared equity purchases) and built by a builder taking part in the scheme. To be eligible you must be either a UK citizen or someone with the right to remain indefinitely in the UK. You don't have to be a first-time buyer and there's no limit on your level of income. But you can't use NewBuy with any other publicly funded mortgage scheme.

Help<F9>

Did you do any paid work in the 7 days ending Sunday the [date], either as an employee or as self-employed?

- (1) Yes
- (2) No

#### **(Helpscreen instructions)**

*You should take the respondent's definition of whether they are in paid work or not, but it must be paid work.*

*'Paid work' at this question means ANY work for pay or profit done in the reference week. It is to include any paid work, however little time is spent on it, so long as it is paid. For example, it includes Saturday jobs and casual work (e.g. baby-sitting, running a mail order club, etc.). Some respondents may not regard baby-sitting, etc. to be 'serious' work. Probe those to whom you feel this may apply (e.g. housewives with dependent children). Even the youngest respondents who have not yet left school may have a Saturday job, e.g. a paper round. It is correct for them to be recorded as doing paid work.*

*Self-employed people are considered to be working if they work in their own business, professional practice, or farm for the purpose of earning a profit even if the enterprise is failing to make a profit or is just being set up.*

*Training for nurses is now carried out under the Project 2000 scheme and as such, nurses on this scheme should be classed as students, like any student nurses you may encounter with more traditional arrangements.*

*Someone who regards themselves as retired, but sits as a director on board meetings (however few) and is paid for this work, should be classified as in paid work. We do NOT expect the interviewers to probe routinely for this.*

Help<F9>

Even though you were not doing paid work, did you have a job or business that you were away from in the week ending Sunday the[date] (and that you expect to return to)?

- (1) Yes
- (2) No
- (3) Waiting to take up a new job/business already obtained

#### **(Helpscreen instructions)**

*This is asked in order to deal with any uncertainty that may exist in the minds of people who were away from PAID work during the reference week (e.g. on holiday, sick leave, career break, laid off, etc.)*

*If the respondent has been absent from their job for a long period (e.g. career break, long term sick etc), only code 'Yes' if there is definitely a job for them to return to.*

*In cases where the respondent is unsure whether they actually had a job the following points may be helpful:*

**For employees:** a job exists if there is a definite arrangement between an employer and an employee for work on a regular basis (i.e. every week or every month) whether the work is full time or part time. The number of hours worked each week may vary considerably but as long as some work is done on a regular basis a job can be said to exist.

**Long term absence from work:** If the total absence from work (from the last day of work to the reference week) has exceeded six months then a person has a job only if full or partial pay has been received by the worker during the absence and that they expect to return to work for the same employer (i.e. a job is available for them).

**Career Break:** In some organisations employees are able to take a career break for a specified period and are guaranteed employment at the end of that period. If a respondent is currently on a career break they should be coded 'Yes' here only if there is an arrangement, between the employer and employee, that there will be employment for them at the end of the break. This is not dependent upon them receiving payment from their employer during this time. The respondent's opinion of whether they have a job to go back to should be taken.

**Seasonal workers:** In some industries (e.g. agriculture, forestry, fishing, types of construction, etc.) there is a substantial difference in the level of employment from one season to the next. Between 'seasons' respondents in such industries should be coded No at this question. (However, note that the odd week of sick leave during the working season would be treated like any other worker's occasional absence and coded 'Yes' here).

**Casual workers:** If a respondent works casually for an employer but has not worked for them during the reference week, they should be coded No, even if they expect to do further work for the employer in the future.

Help<F9>

How many people worked for your employer at the place where you worked?

WERE THERE...

- 1) 1-24
- 2) 25-499,
- 3) or 500 or more employees?

(Helpscreen instructions)

We are interested in the size of the "local unit of the establishment" at which the respondent works but we only want the number of employees working for the same employer as the respondent. Thus at sites shared by several organisations we would not include all employees just those working for the respondent's employer. The "local unit" is considered to be the geographical location where their job is mainly carried out. Normally this will consist of a single building, part of a building, or at the largest a self-contained group of buildings.

It is the total number of employees at the respondent's workplace that we are interested in, not just the number employed within the particular section or department in which he/she works.

If a respondent works from a central depot or office (e.g. a service engineer) base, the answer is the number of people who work at or from the central location. Note that many people who work "from home" have a base office or depot that they communicate with. It may even be true of some people who work "at home" (e.g. telecommuter who retains a desk or some minimal presence in an office). If in doubt, accept the respondent's view of whether or not there is a wider establishment outside the home that they belong to for work purposes.

For self-employed people who are subcontracted for any significant (respondent's definition) length of time to work in a particular place (e.g. building site), that is their place of work

Introduce the surveyor visit and record whether or not the respondent is willing to agree to a visit...

Thank you for completing the first stage of the survey. You have been randomly selected to go on to the final stage of the survey. This involves arranging for a professional surveyor to carry out a visual assessment of the property.

It is very important to collect both the householder's views and the surveyor's assessment of all properties that have been selected. This leaflet provides more information about why we are conducting this important study.

The surveyor's information is essential in enabling the government to assess the energy efficiency and state of repair of properties across the country.

The surveyors are employed by a company of Chartered Surveyors called Miller Mitchell Burley Lane Ltd (MMBL), who have been contracted by the Government to carry out these inspections. They will have a security pass showing the MMBL and EHS logos. They are bound by the same pledge of confidentiality as we are at ONS.

The surveyor will look at the structure and state of repair of the building.

It will normally take around 30 minutes inside and 30 minutes outside but the surveyor will not need to take up any of your time. The inspection is non-intrusive, visual only (the surveyor would like to look in the loft but will not lift furniture or carpets).

The surveyors are instructed to tell you if they discover anything that poses a danger to life or limb, but are not allowed to give any other feedback for professional indemnity reasons (they cannot give you a valuation).

It doesn't matter what type of home you have - it is important that we have a cross section of all types of homes whatever their age, size or state of repair.

You do not need to consult your freeholder or landlord, unless you want to.

Dwelling identification and selection: part of a dwelling.

(B5) The sample address forms part of a dwelling. How many PAF listed addresses are there in total at the dwelling of which the sample address forms a part?

(E.g. the sample address is '1A The Avenue', which is a non-self-contained bedsit, which, together with other bedsits 1B and 1C, form one dwelling. In this scenario, you would enter '3'.)

Help <F9>

(C1) How many households are resident at the selected dwelling?

(If the sample address refers to part of a dwelling, e.g. a bedsit, how many households are resident at this accommodation, i.e. at the bedsit?)

Answer only for the dwelling/ part-dwelling selected for interview

- (1) One household
- (2) More than one household
- (3) Refused to say

**(Helpscreen instructions)**

### **Guidance of different scenarios**

1. If the sample address is an **HMO** containing a number of bedsits, or if the sample address is the **actual address of a bedsit** in an HMO, then “selected dwelling” refers to the whole HMO. Record the total number of households in the HMO (this may be less than the number of bedsits if some are vacant).

2. If the sample address identifies a **house or flat that has merged with another**, give the number of households in the new merged dwelling.

3. If the sample address is a property that has been **split into self-contained flats**, then give the number of households at the flat you have selected for interview.
