Non-Pathogen Preliminary Intended Results Notification

These results are provided for guidance and are determined from the examinations undertaken during quality control testing of the samples. The enumeration results may show minor variations from the final results, which are calculated from the participants' consensus results, and included in the distribution report.

Distribution: **NP062** Samples: **NP0179 and NP0180**

Intended results:

	NP0179 (*cfu g ⁻¹)	NP0180 (*cfu g ⁻¹)
Presumptive <i>Pseudomonas</i> spp.	2.1x10 ²	<10
Yeasts	<10	8.9x10 ³
Moulds	3.7x10 ²	3.7x10 ³
Coliforms	4.1x10 ³	2.6x10 ⁴
<i>Enterobacteriaceae</i>	2.7x10 ³	2.4x10 ⁴
<i>Escherichia coli</i>	5.2x10 ²	1.4x10 ⁴
Enterococci	4.7x10 ³	<10
Lactic acid bacteria	7.9x10 ³	<10
Aerobic colony count (30°C)	1.2x10 ⁴	5.9x10 ⁴

* Colony forming units

Sample contents:

NP0179	<i>Pseudomonas fluorescens</i> , <i>Penicillium chrysogenum</i> , <i>Enterobacter cloacae</i> , <i>E. coli</i> and <i>Enterococcus faecalis</i>
NP0180	<i>Candida</i> spp, <i>Aspergillus terreus</i> , <i>Klebsiella oxytoca</i> , <i>E. coli</i> and <i>Aerococcus viridans</i>

Laboratory identification numbers of participants who did not return results this distribution:

1954

The distribution report providing details of your individual performance and an analysis of all participants' results will be dispatched within three weeks. The report may also include sample specific comments.

Repeat samples are available for up to one year from date of this letter for participants who experienced problems with any of the examination. There is no need to wait until you have received the report to order repeat samples.

The next distribution of Non-Pathogen Scheme samples will be dispatched during the week beginning 8 April 2019.

If you require any technical advice or wish to make comments or suggestions relating to the scheme please contact us
