I am conscious that we have 'set aside' the errors in calculating the quantum of ancient woodland impacted by the consultation options.

As we move toward JR, this will have to be revealed and legal are suggesting we may have to publish a 'witness statement' explaining how this happened as part of our disclosure evidence.

To date, I have not had any explanation of how the error occurred but I think the time is now right for you to let me know so we can decide how we reveal this?

Thanks
