INTRODUCTION (<i>Not more than 250 words</i>) EASA CS29 has had amendments 5 & 6 issued, these amendments require review and incorporating into DS970 Part 7.

SUMMARY OF PROPOSED AMENDMENT

Incorporate EASA CS29 Amdt 5 & 6 into DStan 00-970 Part 7, this work has been carried out and no additional Military Deltas have been identified.

Impact Assessment:

The impact of not incorporating the recommended changes is the possibility of misinterpretation of the requirement and non compliance with military requirements

Risk Assessment:

The risk of not incorporating the recommended changes is the consequence of non compliance with military requirements and or use of unsuitable or outdated requirements.

Courses of Action.

1. **Do nothing.** DS970 Part 7 would not be in line with EASA CS29
2. **Partial Amendment.** Not Possible
3. **Full Amendment.** Maintain coherence with Civil Specifications

Preferred Course of Action.

Full incorporation

Costs and Benefits:

1. **Do nothing.** MAA could not support such action. Not recommended
2. **Partial Amendment.** Not Possible – Not recommended
3. **Full Amendment.** This solution will maintain coherence with Civil Certification Specifications, RA 5810 and DStan requirements. Recommended.

Location of Draft Change:
