

Community Performance Quarterly release to December 2018

Main Points

**CRC
Performance is
stable**

National performance met or exceeded targets for eight out the 17 Community Rehabilitation Company (CRC) measures this quarter, and was close to target for five more. Contribution to Assessment for Discharge (SL015) fell below target this quarter, but the actual change was less than 1pp. Two metrics decreased significantly (>2pp), one (Accommodation on Release) due to tighter rules for recording, and the other (Priority of Arrangement of Unpaid Work) substantially due to ongoing quality of service work in London CPA.

**Hampshire &
Isle of Wight
CRC had the
largest
changes in
performance**

Hampshire & Isle of Wight CRC had 11 measures that changed by more than 2pp in either direction, including a 7pp fall in Contribution to Assessment for Discharge (SL015) and a 5pp fall in timely Sentence Plan completion for Licence cases (SL004r), with both of these measures failed for the quarter. Hampshire & Isle of Wight also saw a 5pp increase in Compliance with Licence and Post Sentence Supervision (AM J).

**NPS
Performance is
stable**

National performance met or exceeded targets for 14 out of 16 NPS measures reported this quarter. One target that was met last quarter was missed this quarter, albeit with an overall change of less than 1%. Actual change at a national level only exceeded 2pp for two measures, both of which were already on target.

**NPS London
Division has
the largest
changes in
performance**

NPS London Division had five measures that changed by two or more percentage points. This includes a 10pp increase in timely response to breach referral (SL015) and an 8pp increase in Generic Parole Process (SL022) performance, while Community Sentence Completion (SL018) fell by 5pp.

**EMS
Performance
improved
slightly**

Data for EMS Performance was significantly impacted by ICT failures in December. This publication excludes this data. Performance recovered from the below-trend outcomes in July to September 2018, with all measures meeting their targets for October and November combined.

This publication covers reporting for the period between the 1 October 2017 and the 31 December 2018.

The following products are published as part of this release:

-
- A statistical bulletin, containing commentary on key findings;
 - [A set of supplementary tables for each of NPS, CRCs and EM, providing performance data for each measure by provider covering the last five quarters;](#) and
 - [Appendices which provide technical guidance and further information on how the data are collected, processed and measures.](#)

1. Introduction

Since the introduction of the Offender Rehabilitation Act (ORA) as part of Transforming Rehabilitation, the National Probation Service (NPS) and Community Rehabilitation Companies (CRCs) have been monitored against performance frameworks to make sure their delivery of services is timely, consistent and of high quality. Since March 2016, Electronic Monitoring Services (EMS) have been monitored against a national performance framework for the same purpose. These performance frameworks are published on a regular basis in the "Community Performance Quarterly release". These publications are released on the final Thursday of January, April, July and October every year*, with the first publication released on 29 October 2015 (27 October 2016 for EMS). The publication covers all performance metrics from the three frameworks, at a national level and broken down to lower levels of geography where appropriate. In the future these publications may also include other current or historic management information, such as volumes, to provide context.

* Full release Schedule:

25 July 2019 – performance from January – March 2019 (including annex on accommodation and employment status)

31 October 2019 – performance from April – June 2019

30 January 2020 – performance from July – September 2019

30 April 2020 – performance from October – December 2019

Previous publications can be found here:

www.gov.uk/government/collections/prisons-and-probation-statistics#performance

Related statistics on Reoffending are published by the Ministry of Justice (MOJ) here:

www.gov.uk/government/collections/reoffending-statistics

2. Data Reporting

All performance figures in this publication are supported by sufficient volumes of underlying data (for statistical purposes this will be at least 30 observations). Where the data allow, and the majority of CRCs or NPS Divisions have sufficient observations, figures are provided at the lowest level of granularity. If data are not sufficient at the lowest level of granularity, the figures displayed will be aggregated. The possible aggregation are (ordered from most granular to most aggregated):

- Quarterly performance, CRC level or NPS Divisional level
- Monthly performance, national level (CRC or NPS)
- Quarterly performance, national level (CRC or NPS)

Electronic monitoring is a national contract with one provider and is therefore displayed at a national level in all cases.

3. CRC Performance of service level measures – national performance

CRC Performance remains stable, Hampshire & Isle of Wight CRC saw the largest changes in performance

National performance met or exceeded targets for eight out the 17 Community Rehabilitation Company (CRC) measures this quarter, and was close to target for five more. Contribution to Assessment for Discharge (SL015) fell below target this quarter, but the actual change was less than 1pp.

Two metrics decreased significantly (>2pp), one (Accommodation on Release) due to tighter rules for recording, and the other (Priority of Arrangement of Unpaid Work) substantially due to ongoing quality of service work in London CPA.

Hampshire & Isle of Wight CRC had 11 measures that changed by more than 2pp in either direction, including a 7pp fall in Contribution to Assessment for Discharge (SL015) and a 5pp fall in timely Sentence Plan completion for Licence cases (SL004r), with both of these measures failed for the quarter.

Hampshire & Isle of Wight also saw a 5pp increase in Compliance with Licence and Post Sentence Supervision (AM J).

Table C1A: National CRC Performance of all available Service Levels for 18/19 Q3 (Oct-Dec 18). England and Wales.

Measure	18/19 Q3 (Oct-Dec 18)	Percentage point change (vs last available quarter)	Target
Assurance Metric C - Allocated Person Resettlement Services - Accommodation	58.8%	-7pp	90%
Assurance Metric E - Breach Referral Timeliness	86.9%	-1pp	95%
Assurance Metric H - Recall Part B Timeliness	56.8%	-1pp	90%
Assurance Metric I - Completion of the Sentence of the Court	92.5%	0pp	99%
Assurance Metric J - Compliance of Licenses and Post Sentence Supervision	69.4%	-1pp	65%
SL001R - Initial Offender Contact (CO & SSO)	96.9%	-1pp	93%
SL002R - Initial Offender Contact (License)	96.9%	-1pp	93%
SL003R - Plan Completion (CO & SSO)	95.7%	-1pp	97%
SL004R - Plan Completion (Licence)	95.1%	-1pp	97%
SL006R - Priority of Arrangement of Unpaid Work	83.3%	-5pp	75%
SL008 - Completion of Community Orders and Suspended Sentence Orders	78.3%	0pp	75%
SL010 - Contractor Delivery of Unpaid Work Requirement	89.0%	0pp	90%
SL011R - Contractor Delivery of Programme Requirement	86.5%	1pp	90%
SL013 - Completion of Resettlement Plans	96.4%	1pp	95%
SL015 - Contribution to Assessments for Discharge	96.8%	-1pp	95%
SL016 - Quality of Breach Referral	94.9%	1pp	90%
SL018 - Recall Referral Timeliness	95.7%	0pp	95%

4. NPS Performance of service level measures – national performance

NPS Performance has remained similar to the last quarter; London Division showed the largest change in performance

National performance met or exceeded targets for 14 out of 16 NPS measures reported this quarter. One target that was met last quarter was missed this quarter, albeit with an overall change of less than 1%. Actual change at a national level only exceeded 2pp for two measures, both of which were already on target.

NPS London Division had five measures that changed by two or more percentage points. .

This includes a 10pp increase in timely response to breach referral (SL015) and an 8pp increase in Generic Parole Process (SL022) performance, while Community Sentence Completion (SL018) fell by 5pp.

Table N1A: National NPS Performance of all available Service Levels for 18/19 Q3 (Oct – Dec 18). England and Wales.

Measure	18/19 Q3 (Oct-Dec 18)	Percentage point change (vs last available quarter)	End-state target
NPS SL001 - Pre-Sentence Report Timeliness	100%	0pp	95%
NPS SL002 - Allocation Timeliness (All Disposals)	97%	0pp	95%
NPS SL003R - Initial Contact (CO & SSO)	97%	0pp	97%
NPS SL004R - Initial Contact (Release from custody on licence)	99%	0pp	97%
NPS SL005R - Completing the Plan (CO & SSO)	97%	-1pp	97%
NPS SL006R - Completing the Plan (Release from custody)	98%	-1pp	97%
NPS SL007 - Allocation of Unpaid Work (UPW) Requirements	98%	1pp	97%
NPS SL012 - Recall Timeliness	99%	0pp	95%
NPS SL014 - Breach Timeliness	95%	0pp	95%
NPS SL015 - Response to Breach Referral	97%	2pp	95%
NPS SL016 - MAPPA Attendance	97%	-1pp	90%
NPS SL018 - Completion of Community Orders and Suspended Sentence Orders	76%	-1pp	75%
NPS SL019 - Completion of Licences and Post Sentence Supervision Periods	53%	-1pp	65%
NPS SL022 - Generic Parole Process (GPP)	98%	3pp	90%
NPS SL024a - Recall Review Timeliness - Retained Persons	97%	0pp	90%
NPS SL025 - Victim Feedback	99%	1pp	90%

5. Electronic Monitoring Service Performance of service level measures – national performance

EMS Performance improved slight against the previous quarter

Data for EMS Performance was significantly impacted by ICT failures in December. This publication excludes this data.

Performance recovered from the below-trend outcomes in July to September 2018, with all measures meeting their targets for October and November combined.

Table E1A: National EMS Performance of all available Service Levels for October and November 2018*. England and Wales.

Measure	(Oct-Nov 18)*	Percentage point change (vs last available quarter)	Target
SL 4A - Equipment installation and subject induction - first attempt within specified timescales	97%	0pp	95%
SL 4B - Equipment installation and subject induction - further attempt(s) within specified timescales	85%	1pp	85%
SL 4C - Equipment re-installation - attempt within specified timescales	96%	5pp	95%
SL 5A - Equipment removal - attempt within specified timescales	97%	-1pp	95%
SL 5B - Equipment removal (bail cases) - attempt within specified timescales	96%	0pp	95%
SL 5C - Equipment check following tamper violation - attempt within specified timescales	86%	1pp	85%
SL 7B - Request for information required to commence orders - within specified timescales	89%	3pp	85%
SL 8 - Call to curfew location following possible violation - within specified timescales	97%	1pp	95%

*Table does not contain data for a full quarter, as data for December has been excluded.

Note performance relates to the service delivery of radio frequency tags only. It does not include the delivery of the GPS service.

6. Further Information

6.1 Explanatory notes

Data in this report are drawn from administrative IT systems; largely National Delius (nDelius), the current probation case management system.

Although care is taken when processing and analysing the returns, the information collected is subject to the inaccuracies inherent in any large-scale recording system. While the figures shown have been checked as far as practicable, they should be regarded as approximate and not necessarily accurate to the last whole number shown in the tables. Where figures in the tables have been rounded to the nearest whole number, the rounded components do not always add to the totals, which are calculated and rounded independently.

Reported percentage point changes and performance figures are calculated on unrounded figures, but rounded to the nearest whole percentage for presentation in this document. Performance figures accurate to one decimal place can be found in the accompanying tables, published alongside this document.

6.2 Symbols and conventions

The following symbols have been used throughout the tables in this bulletin:

...	not available
0	nil or less than half the final digit shown
-	not applicable
(p)	Provisional data
(r)	Revised data
#	Suppressed to avoid disclosure

7. Statistical Code of Practice

This publication has followed the principles and practices from the Code of Practice:

7.1 Trustworthiness

The data in this publication have been produced with the most recent data available. Probation Providers and MOJ Contract Managers have had the opportunity to scrutinise the data, and a rolling programme of auditing the data source ensures that inaccurate data is identified and removed from publication. All data are assured as accurate by the appropriate Probation Provider and/or Contract Manager as appropriate. In some cases, where the information cannot be assured as accurate, data are presented as no better source of information is available. Such information is always clearly labelled.

7.2 Quality

Appropriate data sources were used for each measure, identified through engagement with probation staff and colleagues in Her Majesty's Prison and Probation Service (HMPPS) HQ. Technical notes or

contractual definitions accompany each performance measure are provided in the Appendices. The performance frameworks are subject to regular review to ensure that they are fit for purpose, metrics are identified with a revision note where changes have been made. This release is published for transparency, and represents the Ministry of Justice's view concerning performance in the probation system.

The publication presents a comprehensive view of performance in a system where EMS, NPS, and CRCs may be required to undertake activity to support the management of an offender, or deliver specific services. These figures are representative of performance, and quality assured in line with the corporate requirements of HMPPS. Figures have been drawn from administrative IT systems and, as with any large scale recording system, are subject to possible errors with data entry and processing. Probation providers are responsible for ensuring the accuracy of their own data.

7.3 Value

This data in the publication provides an overview of probation performance against the targets HMPPS uses to determine whether probation is delivering the intended service. Making this information accessible provides ministers and users with an overview of probation performance, and allows MOJ/ HMPPS to monitor and performance manage probation providers.

Data is published in Open Document format to ensure compatibility across different systems. Information is also available on the Justice Data website that enables users to access all data used to assess probation performance.

8. Contact points for further information
