

ANNEX 1

PROPOSED AMENDMENTS TO THE DEEMED MARINE LICENCES CONTAINED WITHIN THE DOGGER BANK CREYKE BECK OFFSHORE WIND FARM ORDER 2015

Provision	Previous text	Replacement text
<i>Deemed Marine Licence 1</i>		
Schedule 8 Part A Condition 2(3)(a)	The substances or articles authorised for deposit at sea are iron, steel and aluminium.	The substances or articles authorised for deposit at sea are iron, steel and aluminium and titanium.
Schedule 8 Part B Condition 3(1)(b)	exceed a rotor diameter of 215 metres.	exceed a rotor diameter of 280 metres.
Schedule 8 Part B Condition 3(4)(b)	in the case of single pile structures, have a pile diameter of greater than 10 metres and employ a hammer energy during installation of greater than 3,000 kilojoules.	in the case of single pile structures, have a pile diameter of greater than 12 metres and employ a hammer energy during installation of greater than 4,000 kilojoules.
Schedule 8 Part B Condition 7(6)	At least 10 days before commencement of the licensed activities, the undertaker must submit to the MMO an audit sheet covering all aspects of the construction of the licenced activities or any phase of them. The audit sheet must include details of- <ul style="list-style-type: none"> (a) Loading facilities; (b) Vessels; (c) Equipment; 	All dropped objects must be reported to the MMO using a dropped object form as soon as reasonably practicable and in any event within 24 hours of the undertaker becoming aware of an incident. On receipt of a dropped object form, the MMO may require side-scan sonar surveys to be carried out by the undertaker across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. The MMO may require obstructions to be removed from

	<ul style="list-style-type: none"> (d) Shipment routes; (e) Transport; (f) Working schedules; and (g) All components and materials to be used in the construction of the authorised scheme. 	<p>the seabed at the undertaker's expense if reasonable to do so. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey.</p>
<p>Schedule 8 Part B Condition 7(7)</p>	<p>The audit sheet must be maintained throughout the construction of the authorised scheme (or relevant phase) and must be submitted to the MMO for review at fortnightly intervals.</p>	<p>N/A – To be deleted in full</p>
<p>Schedule 8 Part B Condition 7(8)</p>	<p>In the event that the MMO becomes aware that any of the materials on the audit sheet cannot be accounted for, it must require the undertaker to carry out a side-scan sonar survey to plot all obstructions across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey. Any obstructions that the MMO believes to be associated with the authorised scheme must be removed at the undertaker's expense.</p>	<p>N/A – To be deleted in full</p>

Schedule 8 Part B Condition 14(2)(c)	appropriate surveys of existing ornithological activity inside the areas within the Order limits in which it is proposed to carry out construction works, and any wider areas where appropriate, which are required to validate predictions in the environmental statement concerning key ornithological interests of relevant to the authorised scheme.	appropriate ornithological surveys to validate the predictions in the environmental statement concerning ornithological interests of relevance to the authorised scheme.
Schedule 8 Part B Condition 15(2)(c)	appropriate surveys of ornithological activity inside the areas within the Order limits in which it is proposed to carry out construction works, and any wider areas where appropriate, dependent on the outcomes of the pre-construction surveys, as agreed with the MMO in consultation with the relevant statutory nature conservation body.	appropriate ornithological surveys dependent on the outcomes of the pre-construction surveys, as agreed with the MMO in consultation with the relevant statutory nature conservation body.
Schedule 8 Part B Condition 16(2)(a)	appropriate surveys of existing ornithological activity inside the areas within the Order limits in which construction works were carried out, and any wider areas where appropriate, which are required to validate predictions in the environmental statement concerning key ornithological interests of relevant to the authorised scheme.	appropriate ornithological surveys to validate the predictions in the environmental statement concerning ornithological interests of relevance to the authorised scheme.
<i>Deemed Marine Licence 2</i>		
Schedule 9 Part A Condition 2(3)(a)	The substances or articles authorised for deposit at sea are iron, steel and aluminium.	The substances or articles authorised for deposit at sea are iron, steel and aluminium and titanium.
[Schedule 9	exceed a rotor diameter of 215 metres.	exceed a rotor diameter of 280 metres.

Part B Condition 3(1)(b)		
Schedule 9 Part B Condition 3(4)(b)	in the case of single pile structures, have a pile diameter of greater than 10 metres and employ a hammer energy during installation of greater than 3,000 kilojoules.	in the case of single pile structures, have a pile diameter of greater than 12 metres and employ a hammer energy during installation of greater than 4,000 kilojoules.
Schedule 9 Part B Condition 7(6)	<p>At least 10 days before commencement of the licensed activities, the undertaker must submit to the MMO an audit sheet covering all aspects of the construction of the licenced activities or any phase of them. The audit sheet must include details of-</p> <ul style="list-style-type: none"> (h) Loading facilities; (i) Vessels; (j) Equipment; (k) Shipment routes; (l) Transport; (m) Working schedules; and All components and materials to be used in the construction of the authorised scheme. 	<p>All dropped objects must be reported to the MMO using a dropped object form as soon as reasonably practicable and in any event within 24 hours of the undertaker becoming aware of an incident. On receipt of a dropped object form, the MMO may require side-scan sonar surveys to be carried out by the undertaker across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. The MMO may require obstructions to be removed from the seabed at the undertaker's expense if reasonable to do so. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey.</p>

Schedule 9 Part B Condition 7(7)	The audit sheet must be maintained throughout the construction of the authorised scheme (or relevant phase) and must be submitted to the MMO for review at fortnightly intervals.	N/A – To be deleted in full
Schedule 9 Part B Condition 7(8)	In the event that the MMO becomes aware that any of the materials on the audit sheet cannot be accounted for, it must require the undertaker to carry out a side-scan sonar survey to plot all obstructions across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey. Any obstructions that the MMO believes to be associated with the authorised scheme must be removed at the undertaker's expense.	N/A – To be deleted in full
Schedule 9 Part B Condition 14(2)(c)	appropriate surveys of existing ornithological activity inside the areas within the Order limits in which it is proposed to carry out construction works, and any wider areas where appropriate, which are required to validate predictions in the environmental statement concerning key ornithological interests of relevant to the authorised scheme.	appropriate ornithological surveys to validate the predictions in the environmental statement concerning ornithological interests of relevance to the authorised scheme.
Schedule 9 Part B	appropriate surveys of ornithological activity inside the areas within the Order limits in which it is	appropriate ornithological surveys dependent on the outcomes of the pre-construction surveys, as agreed

Condition 15(2)(c)	proposed to carry out construction works, and any wider areas where appropriate, dependent on the outcomes of the pre-construction surveys, as agreed with the MMO in consultation with the relevant statutory nature conservation body.	with the MMO in consultation with the relevant statutory nature conservation body.
Schedule 9 Part B Condition 16(2)(a)	appropriate surveys of existing ornithological activity inside the areas within the Order limits in which construction works were carried out, and any wider areas where appropriate, which are required to validate predictions in the environmental statement concerning key ornithological interests of relevant to the authorised scheme.	appropriate ornithological surveys to validate the predictions in the environmental statement concerning ornithological interests of relevance to the authorised scheme.
<i>Deemed Marine Licence 3</i>		
Schedule 10 Part A Condition 2(3)(a)	The substances or articles authorised for deposit at sea are iron, steel and aluminium.	The substances or articles authorised for deposit at sea are iron, steel and aluminium and titanium.
Schedule 10 Part B Condition 6(5)	<p>At least 10 days before commencement of the licensed activities, the undertaker must submit to the MMO an audit sheet covering all aspects of the construction of the licenced activities or any phase of them. The audit sheet must include details of-</p> <ul style="list-style-type: none"> (a) Loading facilities; (b) Vessels; (c) Equipment; (d) Shipment routes; 	All dropped objects must be reported to the MMO using the dropped object form as soon as reasonably practicable and in any event within 24 hours of the undertaker becoming aware of an incident. On receipt of a dropped object form, the MMO may require side-scan sonar surveys to be carried out by the undertaker across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. The MMO may require obstructions to be removed from the seabed at the undertaker's expense if reasonable

	<p>(e) Transport;</p> <p>(f) Working schedules; and</p> <p>(g) All components and materials to be used in the construction of the authorised scheme.</p>	to do so. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey.
Schedule 10 Part B Condition 6(6)	The audit sheet must be maintained throughout the construction of the authorised scheme (or relevant phase) and must be submitted to the MMO for review at fortnightly intervals.	N/A – To be deleted in full
Schedule 10 Part B Condition 6(7)	In the event that the MMO becomes aware that any of the materials on the audit sheet cannot be accounted for, it must require the undertaker to carry out a side-scan sonar survey to plot all obstructions across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey. Any obstructions that the MMO believes to be associated with the authorised scheme must be removed at the undertaker's expense.	N/A – To be deleted in full
<i>Deemed Marine Licence 4</i>		

Schedule 11 Part A Condition 2(3)(a)	The substances or articles authorised for deposit at sea are iron, steel and aluminium.	The substances or articles authorised for deposit at sea are iron, steel and aluminium and titanium.
Schedule 11 Part B Condition 6(5)	<p>At least 10 days before commencement of the licensed activities, the undertaker must submit to the MMO an audit sheet covering all aspects of the construction of the licenced activities or any phase of them. The audit sheet must include details of-</p> <ul style="list-style-type: none"> (h) Loading facilities; (i) Vessels; (j) Equipment; (k) Shipment routes; (l) Transport; (m) Working schedules; and (n) All components and materials to be used in the construction of the authorised scheme. 	All dropped objects must be reported to the MMO using a dropped object form as soon as reasonably practicable and in any event within 24 hours of the undertaker becoming aware of an incident. On receipt of a dropped object form, the MMO may require side-scan sonar surveys to be carried out by the undertaker across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. The MMO may require obstructions to be removed from the seabed at the undertaker's expense if reasonable to do so. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey.
Schedule 11 Part B Condition 6(6)	The audit sheet must be maintained throughout the construction of the authorised scheme (or relevant phase) and must be submitted to the MMO for review at fortnightly intervals.	N/A – To be deleted in full

<p>Schedule 11 Part B Condition 6(7)</p>	<p>In the event that the MMO becomes aware that any of the materials on the audit sheet cannot be accounted for, it must require the undertaker to carry out a side-scan sonar survey to plot all obstructions across a reasonable area of search agreed with the MMO where construction works and related activities have been carried out. Representatives of the Holderness Fishing Industry Group must be invited to send a representative to be present during the survey. Any obstructions that the MMO believes to be associated with the authorised scheme must be removed at the undertaker's expense.</p>	<p>N/A – To be deleted in full</p>
