TRADE PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT

Article 1

Objectives

The objectives of this Agreement are:

- (a) Contributing to the reduction and eventual eradication of poverty through the establishment of a trade partnership consistent with the objective of sustainable development, and the Sustainable Development Goals;
- (b) Promoting regional integration, economic cooperation and good governance thus establishing and implementing an effective, predictable and transparent regulatory framework for trade and investment between the Parties and in the CARIFORUM region;
- (c) Promoting the gradual integration of the CARIFORUM States into the world economy, in accordance with their political choices and development priorities;
- (d) Improving the CARIFORUM States' capacity in trade policy and trade related issues;
- (e) Supporting the conditions for increasing investment and private sector initiative and enhancing supply capacity, competitiveness and economic growth in the CARIFORUM region;
- (f) Strengthening the existing relations between the Parties on the basis of solidarity and mutual interest. To this end, taking into account their respective levels of development and consistent with WTO obligations, the Agreement shall enhance commercial and economic relations, support a new trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between them and reinforce, broaden and deepen cooperation in all areas relevant to trade and investment.

Article 2

Principles

1. This Agreement is based on the following fundamental principles:
 - (a) equality of the partners and ownership of the development strategies: for the purposes of implementing the objectives of the partnership, the CARIFORUM States shall determine the development strategies for their economies and societies in all sovereignty and with due regard for respect for human rights, democratic principles and the rule of law; the partnership shall encourage ownership of the development strategies by the countries and populations concerned; UK development partners shall align their programmes with these strategies;
 - (b) participation: apart from central government as the main partner, the partnership shall be open to parliaments and local authorities in CARIFORUM States and different kinds of other actors in order to encourage the integration of all sections of society, including the private sector and civil society organisations, into the mainstream of

political, economic and social life;

- (c) the pivotal role of dialogue and the fulfilment of mutual obligations and accountability: the obligations assumed by the Parties in the framework of their dialogue shall be central to their partnership and cooperation relations; the Parties shall work closely together in determining and implementing the necessary processes of donor alignment and harmonization, with a view to securing a key role for the CARIFORUM States in these processes;
 - (d) differentiation and regionalisation: cooperation arrangements and priorities shall vary according to a partner's level of development, its needs, its performance and its long term development strategy. Special treatment shall be given to Least-Developed Countries party to this Agreement. The vulnerability of island countries shall be taken into account. Particular emphasis shall be put on regional integration.
2. Respect for human rights, democratic principles and the rule of law, which shall underpin the domestic and international policies of the Signatory CARIFORUM States and the United Kingdom, constitute the essential elements of the Agreement. Good governance, which shall also underpin the domestic and international policies of the Signatory CARIFORUM States and the United Kingdom, constitutes the fundamental element of the Agreement. Hereinafter, the elements set out in this paragraph shall be referred to as the Essential Elements and Fundamental Elements of this Agreement respectively.

Article 3

Sustainable development

1. The Parties reaffirm that the objective of sustainable development is to be applied and integrated at every level of their economic partnership, in fulfilment of the overarching commitments set out in Articles 1 and 2 of this Agreement and especially the general commitment to reducing and eventually eradicating poverty in a way that is consistent with the objectives of sustainable development.
2. The Parties understand this objective to apply in the case of this Agreement as a commitment that:
 - (a) the application of this Agreement shall fully take into account the human, cultural, economic, social, health and environmental best interests of their respective population and of future generations;
 - (b) decision-taking methods shall embrace the fundamental principles of ownership, participation and dialogue.
3. As a result the Parties agree to work cooperatively towards the realisation of a sustainable development centred on the human person, who is the main beneficiary of development.

Regional integration

1. The Parties recognise that regional integration is an integral element of their partnership and a powerful instrument to achieve the objectives of this Agreement.
2. The Parties recognise and reaffirm the importance of regional integration among the CARIFORUM States as a mechanism for enabling these States to achieve greater economic opportunities, and enhanced political stability and to foster their effective integration into the world economy.
3. The Parties acknowledge the efforts of the CARIFORUM States to foster regional and sub-regional integration amongst themselves through the Revised Treaty of Chaguaramas establishing the Caribbean Community including the CARICOM Single Market and Economy, the Revised Treaty of Basseterre establishing the Organisation of Eastern Caribbean States Economic Union and the Agreement establishing a Free Trade Area between the Caribbean Community and the Dominican Republic.
4. The Parties further recognise that, without prejudice to the commitments undertaken in this Agreement, the pace and content of regional integration are matters to be determined exclusively by the CARIFORUM States in the exercise of their sovereignty and in the light of their current and future political ambitions.
5. The Parties agree that their partnership builds upon and aims at deepening regional integration and undertake to cooperate to develop it further, taking into account the Parties' levels of development, needs, geographical realities and sustainable development strategies, as well as the priorities that the CARIFORUM States have set for themselves and the obligations enshrined in the existing regional integration agreements identified in paragraph 3.
6. The Parties commit themselves to cooperating in order to facilitate the implementation of this Agreement and to support CARIFORUM regional integration.

Article 5

Monitoring

The Parties undertake to monitor continuously the operation of the Agreement through their respective participative processes and institutions, in order to ensure that the objectives of the Agreement are realised, the Agreement is properly implemented and the benefits for men, women, young people and children deriving from their partnership are maximised. The Parties also undertake to consult each other promptly over any problem that may arise.

Article 6

Cooperation in international fora

The Parties shall endeavour to cooperate in all international fora where issues relevant to this partnership are discussed.

Development cooperation

1. The Parties recognise that development cooperation is a crucial element of their Partnership and an essential factor in the realisation of the objectives of this Agreement as laid down in Article 1. This cooperation can take financial and non-financial forms.
2. Development cooperation for regional economic cooperation and integration shall be carried out so as to maximise the expected benefits of this Agreement. Areas of cooperation and technical assistance are set out, as appropriate, in the individual Chapters of this Agreement. Cooperation shall be implemented according to the modalities provided for in this Article, shall be kept under ongoing review and shall be revised as necessary according to the provisions of Article 245 of this Agreement.
3. The UK financing pertaining to development cooperation between CARIFORUM and the United Kingdom supporting the implementation of this Agreement shall be guided by the internationally agreed aid effectiveness agenda, assessment of the Signatory CARIFORUM State's commitment to the UK Partnership Principles, reducing poverty and achieving the Sustainable Development Goals, the Signatory CARIFORUM States' national development strategies, and the CARIFORUM States' most immediate development cooperation priorities. In this context, supporting the implementation of this Agreement shall be one of the priorities.
4. Commensurate with their respective roles and responsibilities, the United Kingdom and the Signatory CARIFORUM States shall take all measures necessary to ensure the effective mobilisation, provision and utilisation of resources aimed at facilitating the development cooperation activities provided for in this Agreement.
5. The United Kingdom undertakes to support, by means of its development policies and instruments, development cooperation activities for regional economic cooperation and integration and for the implementation of this Agreement in CARIFORUM States and at the regional level, in accordance with the complementarity and aid effectiveness principles. The Parties recognize the importance of predictable financing to the effective implementation of this Agreement.
6. The Parties shall cooperate to facilitate the participation of other donors willing to support the cooperation activities referred to in paragraph 5 and the efforts of the CARIFORUM States in achieving the objectives of this Agreement.

Article 8

Cooperation priorities

1. Development cooperation as provided for in Article 7 shall be primarily focused on the following areas as further articulated in the individual Chapters of this Agreement:

PART II
TRADE AND TRADE-RELATED MATTERS

TITLE I
TRADE IN GOODS

CHAPTER 1

Customs duties

Article 9

Scope

The provisions of this Chapter shall apply to all goods originating in the United Kingdom and in any CARIFORUM State ⁽¹⁾.

Article 10

Rules of origin

For the purposes of this Chapter, 'originating' means qualifying under the rules of origin set out in Protocol I. Within the first five years of the entry into force of this Agreement the Parties shall review the provisions of Protocol I, with a view to further simplifying the concepts and methods used for the purpose of determining origin in the light of the development needs of the CARIFORUM States. In such review, the Parties shall take into account the development of technologies, production processes and all other factors which may require modifications to the provisions of Protocol I. Any such modifications shall be effected by a decision of the Joint CARIFORUM-UK Council.

Article 11

Customs duty

A customs duty shall include any duty or charge of any kind, including any form of surtax or surcharge, imposed in connection with the importation or exportation of goods, but shall not include any:

- (a) internal taxes or other internal charges imposed in accordance with Article 27;
- (b) antidumping, countervailing or safeguard measures applied in accordance with Chapter 2 of this Title;
- (c) fees or other charges imposed in accordance with Article 13.

Article 12

Classification of goods

The classification of goods covered by this Agreement shall be that set out in the Harmonised Commodity Description and Coding System ('HS') in accordance with the rules of classification applicable thereto. The Special Committee on Customs Cooperation and Trade Facilitation as provided for under Article 36 shall address any issue related to the classification of goods which arises in the operation of this Agreement.

Article 13

Fees and other charges

Fees and other charges as referred to in Article 11 shall be limited in amount to the approximate cost of services rendered and shall not represent an indirect protection for domestic products or a taxation of imports or exports for fiscal purposes. They shall not exceed the real value of the service rendered. Fees and charges shall not be imposed for consular services.

Article 14

Elimination of customs duties on originating exports

Customs duties on exports shall not be applicable to goods originating in the CARIFORUM States and imported into the United Kingdom and vice versa.

Article 15

Customs duties on imports of products originating in the CARIFORUM States

Products originating in the CARIFORUM States shall be imported into the United Kingdom free of customs duties except for the products indicated, and under the conditions defined, in Annex II.

¹ Except where expressly provided, the terms 'goods' and 'product' shall have the same meaning.

Article 16

Customs duties on imports of products originating in the United Kingdom

1. Products originating in the United Kingdom shall not, on their importation into the CARIFORUM States, be subject to customs duties higher than those indicated in Annex III.
2. Products originating in the United Kingdom shall, on their importation into the CARIFORUM States, be exempt from all customs duties within the meaning of Article 11 other than those listed in Annex III no later than the date of entry into force of this Agreement or if this Agreement is provisionally applied, the date such provisional application takes effect.
3. In the event of serious difficulties in respect of imports of a given product, the schedule of customs duty reductions and eliminations may be reviewed by the CARIFORUM-UK Trade and Development Committee by common accord with a view to possibly modifying the time schedule for reduction or elimination. Any such modification shall not lead to the time periods in the schedule for which the review has been requested being extended in respect of the product concerned beyond the maximum transitional period for duty reduction or elimination for that product as provided for in Annex III. If the CARIFORUM-UK Trade and Development Committee has not taken a decision within 30 days of an application to review the timetable, the CARIFORUM States may suspend the timetable provisionally for a period that may not exceed one year.

Article 17

Modification of tariff commitments

In the light of the special development needs of Antigua and Barbuda, Belize, the Commonwealth of Dominica, Grenada, the Republic of Guyana, the Republic of Haiti, Saint Christopher and Nevis, Saint Lucia, and Saint Vincent and the Grenadines, the Parties may decide in the CARIFORUM-UK Trade and Development Committee to modify the level of customs duties stipulated in Annex III, which may be applied to a product originating in the United Kingdom upon its importation into the CARIFORUM States. The Parties shall ensure that any such modification does not result in an incompatibility of this Agreement with the requirements of Article XXIV of the General Agreement on Tariffs and Trade ('GATT') 1994. The Parties may also decide simultaneously to adjust the customs duty commitments stipulated in Annex III and relating to other products imported from the United Kingdom, as appropriate.

Article 18

Movement of goods

The Parties recognise the goal of having customs duties levied only once on originating goods imported into the United Kingdom or into the Signatory CARIFORUM States. Pending the establishment of the necessary arrangements for achieving this goal, the Signatory CARIFORUM States shall exercise their best endeavours in this regard. The United Kingdom shall provide the technical assistance necessary for the achievement of this goal.

Article 19

More favourable treatment resulting from free trade agreements

1. With respect to matters covered by this Chapter, the United Kingdom shall accord to the CARIFORUM States any more favourable treatment applicable as a result of the United Kingdom becoming party to a free trade agreement with third parties after the signature of this Agreement.
2. With respect to matters covered by this Chapter, the CARIFORUM States or any Signatory CARIFORUM State shall accord to the United Kingdom any more favourable treatment applicable as a result of the CARIFORUM States or any Signatory CARIFORUM State becoming party to a free trade agreement with any major trading economy after the signature of this Agreement.
3. The provisions of this Chapter shall not be so construed as to oblige the United Kingdom or any Signatory CARIFORUM State to extend reciprocally any preferential treatment applicable as a result of the United Kingdom or any Signatory CARIFORUM State being party to a free trade agreement with third parties on the date of signature of this Agreement.
4. For the purposes of this Article, 'major trading economy' means any developed country, or any country or territory accounting for a share of world merchandise exports above 1 % in the year before the entry into force of the free trade agreement referred to in paragraph 2, or any group of countries acting individually, collectively or through a free trade agreement accounting collectively for a share of world merchandise exports above one and a half 1,5 % in the year before the entry into force of the free trade agreement referred to in paragraph 2(1).
5. Where any Signatory CARIFORUM State becomes party to a free trade agreement with a third party referred to in paragraph 2 and such a free trade agreement provides for more favourable treatment to such third party than that granted by the Signatory CARIFORUM State to the United Kingdom pursuant to this Agreement, the Parties shall enter into consultations. The Parties may decide whether the concerned Signatory CARIFORUM State may deny the more favourable treatment contained in the free trade agreement to the United Kingdom. The Joint CARIFORUM-UK Council may adopt any necessary measures to adjust the provisions of this Agreement.

Article 20

Special provisions on administrative cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.
2. Where a Party or a Signatory CARIFORUM State has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party or Signatory CARIFORUM State concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

¹ For this calculation official data by the WTO on leading exporters in world merchandise trade (excluding intra-European Union trade) shall be used.

3. For the purpose of this Article a failure to provide administrative cooperation shall mean, *inter alia*:
 - (a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;
 - (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;
 - (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question

For the purpose of this Article a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party, that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:
 - (a) The Party or Signatory CARIFORUM State which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the CARIFORUM-UK Trade and Development Committee of its finding together with the objective information and enter into consultations within the CARIFORUM-UK Trade and Development Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.
 - (b) Where the Parties have entered into consultations within the CARIFORUM-UK Trade and Development Committee as above and have failed to agree on an acceptable solution within three months following the notification, the Party or Signatory CARIFORUM State concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the CARIFORUM-UK Trade and Development Committee without undue delay.
 - (c) Temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party or Signatory CARIFORUM State concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the CARIFORUM-UK Trade and Development Committee. They shall be subject to periodic consultations within the CARIFORUM-UK Trade and Development Committee in particular with a view to their termination as soon as the conditions for their application no longer exist.

5. At the same time as the notification to the CARIFORUM-UK Trade and Development Committee under paragraph 4(a), the Party or Signatory CARIFORUM State concerned should publish a notice to importers in its official journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 20 bis

In furtherance of the efforts of the Parties to find an acceptable solution to the matters referred to in Article 20(2), the Party or Signatory CARIFORUM State against which a finding has been notified to the CARIFORUM-UK Trade and Development Committee may also seek recourse to a Mediator, in accordance with the provisions of Article 205(2)-205(5). The Mediator's opinion shall be notified within the period of three months referred to in Article 20(4)(b).

Article 21

Treatment of administrative errors

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the provisions of Protocol I, where this error leads to consequences in terms of import duties, the Party facing such consequences may request the CARIFORUM-UK Trade and Development Committee to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Article 22

Cooperation

1. The Parties recognise the importance of cooperation in order to strengthen tax administration and improve the collection of tax revenues.
2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support, in the following areas:
 - (a) technical assistance in the area of fiscal reform with a view to shifting dependence from tariff and other duties and charges to other forms of indirect taxation; and
 - (b) capacity and institution building in regard to the measures outlined in subparagraph (a).

Trade defence instruments

Article 23

Anti-dumping and countervailing measures

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the United Kingdom or Signatory CARIFORUM States, whether individually or collectively, from adopting anti-dumping or countervailing measures in accordance with the relevant WTO agreements. For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties or Signatory CARIFORUM States.
2. Before imposing definitive anti-dumping or countervailing duties in respect of products imported from CARIFORUM States, the United Kingdom shall consider the possibility of constructive remedies as provided for in the relevant WTO agreements.
3. Where an anti-dumping or countervailing measure has been imposed on behalf of two or more Signatory CARIFORUM States by a regional or sub-regional authority, there shall be one single forum of judicial review, including the stage of appeals.
4. A Signatory CARIFORUM State shall not apply an anti-dumping or countervailing measure on a product where it falls within the scope of a regional or sub-regional measure imposed on the same product. Similarly, the CARIFORUM States shall ensure that a regional or sub-regional measure imposed on a product does not apply to any Signatory CARIFORUM State which is applying such a measure on the same product.
5. The United Kingdom shall notify the exporting Signatory CARIFORUM States of the receipt of a properly documented complaint before initiating any investigation.
6. The provisions of this Article shall be applicable in all investigations initiated after this Agreement enters into force.
7. The provisions of this Article shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 24

Multilateral safeguards

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the Signatory CARIFORUM States and the United Kingdom from adopting measures in accordance with Article XIX of the GATT 1994, the Agreement on Safeguards, and Article 5 of the Agreement on Agriculture annexed to the Marrakech Agreement Establishing the World Trade Organization. For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties or Signatory CARIFORUM States.

2. Notwithstanding paragraph 1, in the light of the overall development objectives of this Agreement and the small size of the economies of the CARIFORUM States, the United Kingdom shall exclude imports from any CARIFORUM State from any measures taken pursuant to Article XIX of the GATT 1994, the WTO Agreement on Safeguards and Article 5 of the Agreement on Agriculture.
3. The provisions of paragraph 2 shall apply for a period of five years, beginning with the date of entry into force of the Agreement. Not later than 120 days before the end of this period, the Joint CARIFORUM-UK Council shall review the operation of those provisions in the light of the development needs of the CARIFORUM States, with a view to determining whether to extend their application for a further period.
4. The provisions of paragraph 1 shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 25

Safeguard clause

1. Notwithstanding Article 24, after having examined alternative solutions, a Party may apply safeguard measures of limited duration which derogate from the provisions of Article 15 or 16 as the case may be, under the conditions and in accordance with the procedures laid down in this Article.
2. Safeguard measures referred to in paragraph 1 may be taken where a product originating in one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:
 - (a) serious injury to the domestic industry producing like or directly competitive products in the territory of the importing Party; or

1. With respect to any measures affecting commercial presence covered by this Chapter:

To the extent that such requirement is applied in a non-discriminatory manner, it does not need to be specified in a Party's list of commitments in order to be maintained or adopted by that Party.

³ At the time of signature of this Agreement, the European Economic Area, pre-accession agreements to the European Union, the CARICOM Single Market and Economy, the Organisation of Eastern Caribbean States Economic Union and the CARICOM-Dominican Republic Free Trade Agreement are deemed to fall in their entirety under this exception.

4. 5. Where any Signatory CARIFORUM State becomes party to an economic integration agreement with a third party referred to in paragraph 1(b) and that agreement provides for more favourable treatment to such third party than that granted by the Signatory CARIFORUM State to the United Kingdom pursuant to this Agreement, the Parties shall enter into consultations. The Parties may decide whether the concerned Signatory CARIFORUM State may deny the more favourable treatment contained in the economic integration agreement to the United Kingdom. The Joint CARIFORUM- UK Council may adopt any necessary measures to adjust the provisions of this Agreement.

- (d) Investors establish and maintain, where appropriate, local community liaison processes, especially in projects involving extensive natural resource-based activities, in so far that they do not nullify or impair the benefits accruing to the other Party under the terms of a specific commitment.

Article 73

Maintenance of standards

The United Kingdom and the Signatory CARIFORUM States shall ensure that foreign direct investment is not encouraged by lowering domestic environmental, labour or occupational health and safety legislation and standards or by relaxing core labour standards or laws aimed at protecting and promoting cultural diversity.

Article 74

Review

With a view to the progressive liberalisation of investments, the Parties shall review the investment legal framework, the investment environment, and the flow of investment between them consistent with their commitments in international agreements no later than three years after the entry into force of this Agreement and at regular intervals thereafter.

¹ For this calculation official data by the WTO on leading exporters in world merchandise trade (excluding intra-European Union trade) shall be used.

2. This entry and temporary stay into their territories, when allowed, shall be for a period of up to 90 days in any 12-month period.

CHAPTER 5
Regulatory framework

Section 1

Provisions of general application

Article 85

Mutual recognition

1. Nothing in this Title shall prevent the United Kingdom and the Signatory CARIFORUM States from requiring that natural persons must possess the necessary qualifications and/or professional experience specified in the territory where the service is supplied, for the sector of activity concerned.

2. The Parties shall encourage the relevant professional bodies in their respective territories to jointly develop and provide recommendations on mutual recognition to the CARIFORUM- UK Trade and Development Committee, for the purpose of the fulfilment, in whole or in part, by investors and service suppliers of the criteria applied by the United Kingdom and by the Signatory CARIFORUM States for the authorisation, licensing, operation and certification of investors and service suppliers and, in particular, in the professional services sector.

3. In particular, the Parties shall encourage the relevant professional bodies in their respective territories to start negotiations no later than three years after entry into force of this Agreement in order to jointly develop and provide such recommendations on mutual recognition, among others, in the following disciplines: accounting, architecture, engineering and tourism.

4. On receipt of a recommendation referred to in the preceding paragraph, the CARIFORUM-UK Trade and Development Committee shall, within a reasonable time, review the recommendation with a view to determining whether it is consistent with this Agreement.

5. When, in conformity with the procedure set out in paragraph 2, a recommendation referred to in the same paragraph has been found to be consistent with this Agreement and there is a sufficient level of correspondence between the relevant regulations of the Parties and the Signatory CARIFORUM States, the Parties shall, with a view to implementing that recommendation, negotiate, through their competent authorities, an agreement on mutual recognition of requirements, qualifications, licences and other regulations.

6. Any such agreement shall be in conformity with the relevant provisions of the WTO Agreement and, in particular, Article VII of the GATS.

7. The CARIFORUM-UK Trade and Development Committee shall review progress made in mutual recognition every two years.

Article 86

Transparency

Subject to Article 235(3) the Parties and the Signatory CARIFORUM States shall respond promptly to all requests

made by the other Party for specific information on any of their measures of general application or international agreements which pertain to or affect this Agreement. The Parties shall also establish one or more enquiry points to provide, upon request, specific information to investors and services suppliers of the other Party on all such matters. Such enquiry points are listed in Annex V. Enquiry points need not be depositories of laws and regulations.

Article 87

Procedures

1. Where authorisation is required for the supply of a service or commercial presence on which a specific commitment has been made, the competent authorities of the Parties and of the Signatory CARIFORUM States shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Parties or of the Signatory CARIFORUM States as the case may be shall provide, without undue delay, information concerning the status of the application.

2. The Parties and the Signatory CARIFORUM States shall maintain or institute judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected investor or service supplier, for a prompt review of, and where justified, appropriate remedies for, administrative decisions affecting commercial presence, cross border supply of services or temporary presence of natural persons for business purpose. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Parties and the Signatory CARIFORUM States shall ensure that the procedures in fact provide for an objective and impartial review.

Section 2

Computer services

Article 88

Understanding on computer services

1. To the extent that trade in computer services is liberalised in accordance with Chapters 2, 3 and 4 of this Title, the United Kingdom and the Signatory CARIFORUM States subscribe to the understanding defined in paragraphs 2, 3 and 4.
2. CPC 84, the United Nations code used for describing computer and related services, covers the basic functions used to provide all computer and related services: computer programs defined as the sets of instructions required to make computers work and communicate (including their development and implementation), data processing and storage, and related services, such as consultancy and training services for staff of clients. Technological developments have led to the increased offering of these services as a bundle or package of related services that can include some or all of these basic functions. For example, services such as web or domain hosting, data mining services and grid computing each consist of a combination of basic computer services functions.
3. Computer and related services, regardless of whether they are delivered via a network, including the Internet, include all

services that provide:

- (a) consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, support, technical assistance, or management of or for computers or computer systems; or
- (b) computer programs defined as the sets of instructions required to make computers work and communicate (in and of themselves), plus consulting, strategy, analysis, planning, specification, design, development, installation, implementation, integration, testing, debugging, updating, adaptation, maintenance, support, technical assistance, management or use of or for computer programs; or
- (c) data processing, data storage, data hosting or database services; or
- (d) maintenance and repair services for office machinery and equipment, including computers; or
- (e) training services for staff of clients, related to computer programs, computers or computer systems, and not elsewhere classified.

4. Computer and related services enable the provision of other services (e.g. banking) by both electronic and other means. However, there is an important distinction between the enabling service (e.g. web-hosting or application hosting) and the content or core service that is being delivered electronically (e.g. banking). In such cases, the content or core service is not covered by CPC84.

Section 3

Courier services

Article 89

Scope and definitions

1. This Section sets out the principles of the regulatory framework for all courier services liberalised in accordance with Chapters 2, 3 and 4 of this Title.
2. For the purpose of this Section and of Chapters 2, 3 and 4 of this Title:
 - (a) ‘universal service’ means the permanent provision of a postal service of specified quality at all points in the territory of the United Kingdom and of the Signatory CARIFORUM States at affordable prices for all users;
 - (b) an ‘individual licence’ means an authorisation, granted to an individual supplier by a regulatory authority, which is required before supplying a given service.

Article 90

Prevention of anti-competitive practices in the courier sector

In accordance with the provisions of Chapter 1 of Title IV, appropriate measures shall be maintained or introduced by the United Kingdom or the Signatory CARIFORUM States for the purpose of preventing suppliers who, alone or together,

have the ability to affect materially the terms of participation (having regard to price and supply) in the relevant market for courier services as a result of use of their position in the market, from engaging in or continuing anti-competitive practices.

Article 91

Universal service

The United Kingdom or any Signatory CARIFORUM State has the right to define the kind of universal service obligation they wish to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service as defined by the United Kingdom and the Signatory CARIFORUM States.

Article 92

Individual licences

1. An individual licence may only be required for services which are within the scope of the universal service.
2. Where an individual licence is required, the following shall be made publicly available:
 - (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence, and
 - (b) the terms and conditions of individual licences.

The reasons for the denial of an individual licence shall be made known to the applicant upon request and an appeal procedure through an independent body will be established at the level of the United Kingdom and of the Signatory CARIFORUM States. Such a procedure will be transparent, non-discriminatory, and based on objective criteria.

Article 93

Independence of the regulatory bodies

The regulatory bodies shall be legally separate from, and not accountable to, any supplier of courier services. The decisions of and the procedures used by the regulatory bodies shall be impartial with respect to all market participants.

Section 4

Telecommunications services

Article 94

Definitions and scope

1. For the purpose of this Title:
 - (a) 'telecommunications services' means all services consisting

of the transmission and reception of electro-magnetic signals and do not cover the economic activity consisting of the provision of content which requires telecommunications for its transport;

- (b) a 'regulatory authority' in the telecommunications sector means the body or bodies charged with the regulation of telecommunications mentioned in this Chapter;
- (c) 'essential telecommunications facilities' mean facilities of a public telecommunications transport network and service that:
 - (i) are exclusively or predominantly provided by a single or limited number of suppliers; and
 - (ii) cannot feasibly be economically or technically substituted in order to provide a service;
- (d) a 'major supplier' in the telecommunications sector is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for telecommunications services as a result of control over essential facilities or the use of its position in the market;
- (e) 'interconnection' means linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier;
- (f) 'universal service' means the set of services of specified quality that must be made available to all users in the territory of the United Kingdom and of the Signatory CARIFORUM States regardless of their geographical location and at an affordable price; its scope and implementation are decided by the United Kingdom and by the Signatory CARIFORUM States.

2. This Section sets out the principles of the regulatory framework for the following telecommunications services, other than broadcasting, liberalised pursuant to Chapters 2, 3 and 4 of this Title: voice telephone services, packet-switched data transmission services, circuit-switched data transmission services, telex services, telegraph services, facsimile services, private leased circuit services and mobile and personal communications services and systems.

Article 95

Regulatory authority

1. Regulatory authorities for telecommunications services shall be legally distinct and functionally independent from any supplier of telecommunications services.
2. The regulatory authority shall be sufficiently empowered to regulate the sector. The tasks to be undertaken by a regulatory authority shall be made public in an easily accessible and clear form, in particular where those tasks are assigned to more than one body.
3. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.
4. A supplier affected by the decision of a regulatory authority shall have a right to appeal against that decision to an appeal body that is independent of the parties involved.

Where the appeal body is not judicial in character, written reasons for its decision shall always be given and its decisions shall also be subject to review by an impartial and independent judicial authority. Decisions taken by appeal bodies shall be effectively enforced.

Article 96

Authorisation to provide telecommunications services

1. Provision of services shall, as much as possible, be authorised following mere notification.
2. A licence can be required to address issues of attributions of numbers and frequencies. The terms and conditions for such licences shall be made publicly available.
3. Where a licence is required:
 - (a) all the licensing criteria and a reasonable period of time normally required to reach a decision concerning an application for a licence shall be made publicly available;
 - (b) the reasons for the denial of a licence shall be made known in writing to the applicant upon request;
 - (c) the applicant of a licence shall be able to seek recourse before an appeal body in case a licence is unduly denied;
 - (d) licence fees required by the United Kingdom or by the Signatory CARIFORUM States for granting a licence shall not exceed the administrative costs normally incurred in the management, control and enforcement of the applicable licences.

Article 97

Competitive safeguards on major suppliers

In accordance with the provisions of Chapter 1 of Title IV, appropriate measures shall be maintained or introduced by the United Kingdom or the Signatory CARIFORUM States for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices. These anti-competitive practices shall include in particular:

- (a) engaging in anti-competitive cross-subsidisation;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

Article 98

Interconnection

1. Any supplier authorised to provide telecommunications services shall have the right to negotiate interconnection with other providers of publicly available telecommunications networks and services. Interconnection should in principle be

agreed on the basis of commercial negotiation between the companies concerned.

2. Regulatory authorities shall ensure that suppliers that acquire information from another undertaking during the process of negotiating interconnection arrangements use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored.

3. Interconnection with a major supplier shall be ensured at any technically feasible point in the network. Such interconnection shall be provided:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

4. The procedures applicable for interconnection to a major supplier shall be made publicly available.

5. Major suppliers shall make publicly available either their interconnection agreements or their reference interconnection offers.

6. A service supplier requesting interconnection with a major supplier shall have recourse, either at any time or after a reasonable period of time which has been made publicly known, to an independent domestic body, which may be a regulatory body as referred to in Article 95, to resolve disputes regarding appropriate terms, conditions and rates for interconnection.

Article 99

Scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands shall be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

Article 100

Universal service

1. The United Kingdom or any Signatory CARIFORUM State has the right to define the kind of universal service obligations they wish to maintain.

2. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent,

objective and non-discriminatory way. The administration of such obligations shall also be neutral with respect to competition and not more burdensome than necessary for the kind of universal service defined by the United Kingdom and by the Signatory CARIFORUM States.

3. All suppliers should be eligible to ensure universal service. The designation shall be made through an efficient, transparent and non-discriminatory mechanism. Where necessary, the United Kingdom and the Signatory CARIFORUM States shall assess whether the provision of universal service represents an unfair burden on organisation(s) designated to provide universal service. Where justified on the basis of such calculation, and taking into account the market benefit, if any, which accrues to an organisation that offers universal service, national regulatory authorities shall determine whether a mechanism is required to compensate the supplier(s) concerned or to share the net cost of universal service obligations.

4. The United Kingdom and the Signatory CARIFORUM States shall ensure that:

- (a) directories of all subscribers are available to users in a form approved by the national regulatory authority, whether printed or electronic, or both, and are updated on a regular basis, and at least once a year;
- (b) organisations that provide the services referred to in subparagraph (a) apply the principle of non-discrimination to the treatment of information that has been provided to them by other organisations.

Article 101

Confidentiality of information

The United Kingdom and the Signatory CARIFORUM States shall ensure the confidentiality of telecommunications and related traffic data by means of a public telecommunication network and publicly available telecommunications services, without restricting trade in services.

Article 102

Disputes between suppliers

1. In the event of a dispute arising between suppliers of telecommunications networks or services in connection with rights and obligations that arise from this Chapter, the national regulatory authority concerned shall, at the request of either party to the dispute, issue a binding decision to resolve the dispute in the shortest possible timeframe.

2. When such a dispute concerns the cross-border provision of services, the national regulatory authorities concerned shall coordinate their efforts in order to bring about a resolution of the dispute.

 - (b) ensuring the integrity and stability of their financial system.

2. Nothing in this Agreement shall be construed to require the United Kingdom or the Signatory CARIFORUM States to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

Article 105

Effective and transparent regulation

1. Such measure shall be provided:

- (a) by means of an official publication; or
- (b) in other written or electronic form.

2. The United Kingdom and the Signatory CARIFORUM States shall make available to interested persons their requirements for completing applications relating to the supply of financial services.

The United Kingdom and the Signatory CARIFORUM States may determine the juridical form through which the service may be provided and may require authorisation for the provision of the service. Where such authorisation is required, a decision shall be made within a reasonable time and the authorisation may only be refused for prudential reasons.

Article 107

Data processing

1. The United Kingdom and the Signatory CARIFORUM States shall permit a financial service supplier of the other Party to transfer information in electronic or other form, into and out of their territory, for data processing where such

Section 6

- (a) 'international maritime transport' includes door to door and multi-modal transport operations, which is the carriage of goods using more than one mode of transport, involving a sea-leg, under a single transport document, and to this effect includes the right to directly contract with providers of other modes of transport;
- (b) 'maritime cargo handling services' means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. 3. In respect of the protection of geographical indications, the United Kingdom and the Signatory CARIFORUM States shall prohibit and prevent, *ex officio* or at the request of an interested party:

- (a) regardless of the class of product on which it is used, the use in their territory of any means in the designation or presentation of a good that indicates or suggests that the good in question originates in a geographical area other than the true place of origin in a manner which misleads the public as to the true geographical origin of the good; or any other use which constitutes an act of unfair competition within the meaning of Article 10*bis* of the Paris Convention;

- (b) any use of the protected names for goods in the same class of product as the geographical indication which do not originate in the geographical area indicated, even where:

- (i) the true origin of the good is indicated;
the geographical indication in question is used in translation;
- (ii) the name is accompanied by terms such as 'kind', 'type', 'style', 'imitation', 'method' or other expressions of the sort.

4. It shall be possible to cancel the registration of a geographical indication. The procedure to this effect shall allow for the participation of any natural or legal person having a legitimate interest.

C. *Generic terms, plant varieties, animal breeds*

1. The United Kingdom and the Signatory CARIFORUM States shall not be required to apply the protection of geographical indications referred to in section B with respect to goods for which the relevant indication is identical with the term customary in common language as the common name for such goods in their respective territories.

2. Nothing in this Section shall require the United Kingdom

and the Signatory CARIFORUM States to apply the protection of geographical indications referred to in section B with respect to products of the vine, plants or animals for which the relevant indication is identical with the name of a grape variety, plant variety or animal breed existing in the territory of the United Kingdom or the Signatory CARIFORUM State concerned as of the date of entry into force of this Agreement.

3. Homonymous geographical indications shall be protected by the United Kingdom and Signatory CARIFORUM States provided that there is a sufficient distinction in practice between the geographical indication first protected and the homonym subsequently protected, having regard to the need to treat the producers concerned in an equitable manner and not to mislead consumers. A homonymous name that misleads the consumer in to believing that products come from another territory shall not be protected by the United Kingdom or the Signatory CARIFORUM State concerned.

4. If a geographical indication of the United Kingdom or Signatory CARIFORUM State is homonymous with a geographical indication for a third country, Article 23(3) of the TRIPS Agreement applies *mutatis mutandis*.

D. *Relationship between geographical indications and trade marks*

1. A geographical indication shall not be registered in the United Kingdom or the Signatory CARIFORUM States where, in the light of a trade mark's reputation and renown and the length of time it has been used, registration is liable to mislead the consumer as to the true identity of the product.

2. From the date of entry into force of this Agreement, the registration of a trade mark which is identical with, similar to or containing a geographical indication protected respectively in the United Kingdom or in the Signatory CARIFORUM States pursuant to section B and relating to the same class of product shall be refused respectively in the United Kingdom or in the Signatory CARIFORUM States. Furthermore, the registration of a trade mark in such circumstances shall be refused respectively in the United Kingdom or in the Signatory CARIFORUM States if the application for registration of the trade mark was submitted after the date of application for protection of the geographical indication in the territory concerned and the geographical indication is subsequently protected.

3. Trade marks registered in breach of the preceding paragraph shall be invalidated.

4. The United Kingdom and the Signatory CARIFORUM States shall ensure that, subject to the provisions of section D(1), (2) and (3), a trade mark, the use of which corresponds to one of the situations referred to in section B(3), and which has been applied for, registered or established by use, if that possibility is provided for by the applicable legislation, in good faith within the territories of the United Kingdom or of a Signatory CARIFORUM State, before the date of application of the WTO obligations in the United Kingdom or a Signatory CARIFORUM State, or before the date of application for protection of the geographical indication in the respective territories, may continue to be used notwithstanding the registration of the geographical indication, provided that no

¹ For the purposes of this Article the use of an unlimited number of renewable periods of not less than 10 years shall be considered indefinite.

grounds for the invalidity or revocation of the trade mark exist as specified by the legislation of the United Kingdom or of the concerned Signatory CARIFORUM State. In such case, the use of the geographical indication shall be permitted alongside the relevant trade mark.

E. Future protection agreement

The United Kingdom and the Signatory CARIFORUM States shall no later than the date of entry into force of this Agreement or if this Agreement is provisionally applied, the date such provisional application takes effect, commence negotiations aimed at an agreement on the protection of geographical indications in their respective territories, without prejudice to any individual requests for protection that may have been filed directly.

F. Internet use

The United Kingdom and the Signatory CARIFORUM States accept the need for a clear legal framework for geographical indications owners who wish to use their geographical indications on the Internet and to participate in the development of electronic commerce which includes provisions addressing whether the use of a sign on the Internet has contributed to the usurpation, evocation, acquisition in bad faith or infringement of a geographical indication or whether such use constitutes an act of unfair competition, and a determination of the remedies, including the eventual transfer or cancellation of the domain name. In this respect, the United Kingdom and the Signatory CARIFORUM States shall endeavour to apply the Joint Recommendation concerning the protection of marks, and other industrial property rights in signs, on the Internet, as adopted by WIPO at the Thirty-Sixth Series of Meetings of the Assemblies of the Member States of WIPO, 24 September to 3 October 2001.

Unregistered designs and textile designs may be protected by a design right or copyright.

C. Exceptions

1. The United Kingdom and the Signatory CARIFORUM States may provide limited exceptions to the protection of industrial designs, provided that such exceptions do not unreasonably conflict with the normal exploitation of protected industrial designs and do not unreasonably prejudice the legitimate interests of the owner of the protected design, taking account of the legitimate interests of third parties.

2. Design protection shall not extend to designs dictated essentially by technical or functional considerations.

2. For unregistered designs, the contested use shall not be deemed to result from copying the protected design if it results from an independent work of creation from a designer who may be reasonably thought not to be familiar with the design made available to the public by the holder.

E. Term of protection

1. The initial duration of protection available in the United Kingdom and the Signatory CARIFORUM States following registration shall amount to at least five years. At the request of the right holder, registration shall be renewed for one or more periods of five years each, but not exceeding 25 years from the date of filing, provided that the renewal fee has been paid.

4. The information in each notice of intended procurement shall include at least the following:

Procuring entities operating in the utilities may use such a notice regarding their future procurement plans as a notice of intended procurement provided that it includes as much of the information set out in paragraph 4 as available and a statement that suppliers should express their interest in the procurement to the entity.

Article 168

Transparency of government procurement

1. Subject to Article 180(4), each Party or Signatory CARIFORUM State shall promptly publish any law, regulation, judicial decision and administrative ruling of general application, and procedures, regarding procurement covered by this Chapter, as well as individual procurement opportunities, in the appropriate publications referred to in Annex VII including officially designated electronic media. Each Party or Signatory CARIFORUM State shall promptly publish in the same manner all modifications to such measures, and shall within a reasonable time inform the others of any such modifications.

2. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities provide for effective dissemination of the tendering opportunities generated by the relevant government processes, providing eligible suppliers with all the information required to take part in such procurement. Each Party shall set up and maintain an appropriate on-line facility to further the effective dissemination of tendering opportunities.

- (a) Tender documentation provided to suppliers shall contain all information necessary to permit them to submit responsive tenders. Where entities do not offer free direct access to the entire tender documents and any supporting documents by electronic means, entities shall make

Article 169

Methods of procurement

1. Without prejudice to the method of government procurement used in respect of any specific procurement, procuring entities shall ensure that such methods are specified in the notice of intended procurement or tender documents.

2. The Parties or the Signatory CARIFORUM States shall ensure that their laws and regulations clearly prescribe the conditions under which procuring entities may utilise limited tendering procedures. Procuring entities shall not utilise such methods for the purpose of restricting participation in the procurement process in a non-transparent manner.

3. When conducting procurement by electronic means, a procuring entity shall:

- (a) ensure that the procurement is conducted using generally available and interoperable information technology products and software, including those related to authentication and encryption of information; and

- (b) maintain mechanisms that ensure the integrity of, and prevent inappropriate access to, requests for participation and tenders.

Article 170

Selective tendering

1. Whenever selective tendering procedures are employed, procuring entities shall:

- (a) Publish a notice of intended procurement;
- (b) In the notice of intended procurement invite eligible suppliers to submit a request for participation;
- (c) Select the suppliers to participate in the selective tendering procedure in a fair manner; and
- (d) Indicate the time limit for submitting requests for participation.

2. Procuring Entities shall recognise as qualified suppliers all suppliers which meet the conditions for participation in a particular procurement, unless the procuring entity states in the notice or, where publicly available, in the tender documentation, any limitation on the number of suppliers that will be permitted to tender and the objective criteria for such limitation.

3. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 1, procuring entities shall ensure that those documents are made available at the same time to all the qualified suppliers selected.

Article 171

Limited tendering

1. When using the limited tendering procedure, a procuring entity may choose not to apply Articles 168, 169(1) and (3), 170, 173 (1), 174, 175, 176 and 178.

2. Procuring entities may award their public contracts by limited tendering procedure, in the following cases:

- (a) when no suitable tenders have been submitted in response to an open or selective tendering procedure, on condition that the requirements of the initial tender are not substantially modified;
- (b) when, for technical or artistic reasons, or for reasons connected with protection of exclusive rights, the contract may be performed only by a particular supplier and no reasonable alternative or substitute exists;
- (c) for reasons of extreme urgency brought about by events unforeseen by the procuring entity, the products or services could not be obtained in time by means of open or selective tendering procedures;
- (d) for additional deliveries of goods or services by the original supplier where a change of supplier would compel the procuring entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment or services procured under the initial

procurement and such separation would cause significant inconvenience or substantial duplication of costs to the procuring entity;

- (e) when a procuring entity procures prototypes or a first product or service which are developed at its request in the course of, and for, a particular contract for research, experiment, study or original development;
- (f) when additional services which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseen circumstances, become necessary to complete the services described therein. However, the total value of contracts awarded for the additional services shall not exceed 50 % of the amount of the original contract;
- (g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded following an open or selective procurement method, and for which the procuring entity has indicated in the notice of intended procurement that a limited procurement method might be used in awarding contracts for such new services;
- (h) for products purchased on a commodity market;
- (i) in the case of contracts awarded to the winner of a design contest; in the case of several successful candidates, successful candidates shall be invited to participate in the negotiations as specified in the notice of the intended procurement or the tender documents; and
- (j) for purchases made under exceptionally advantageous conditions which only arise in the very short term in the case of unusual disposals such as arising from liquidation, receivership or bankruptcy and not for routine purchases from regular suppliers.

Article 172

Rules of origin

The United Kingdom and the Signatory CARIFORUM States for the purposes of this Chapter shall not apply rules of origin to goods or services imported from or supplied by the United Kingdom and the Signatory CARIFORUM States as the case may be that are different from the rules of origin applicable at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Signatory CARIFORUM State or the United Kingdom.

Article 173

Technical specifications

1. Consistent with the objectives of this Chapter, procuring entities shall ensure that technical specifications applied or intended for application to procurement covered by the Chapter are set out in the notices of intended procurement and/or tender documents.
2. A procuring entity shall not seek or accept, in a manner that

would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

3. In prescribing technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

- (a) specify the technical specifications, in terms of performance and functional requirements, rather than design or descriptive standards; and
- (b) base the technical specifications on international standards, where such exist; otherwise, on national technical regulations, recognised national standards or building codes.

4. Where design or descriptive characteristics are used in the technical specifications, a procuring entity shall, where appropriate, include words such as 'or equivalent' in the technical specifications and consider tenders that demonstrably meet the required design or descriptive characteristics and are fit for the purposes intended.

5. A procuring entity shall not prescribe technical specifications that require or refer to a particular trade mark or trade name, patent, copyright, design or type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, words such as 'as equivalent' are included in the tender documentation.

Article 174

Qualification of suppliers

1. For procurement covered by this Chapter, procuring entities shall ensure that any conditions and criteria for participating in a public contract award procedure are made known in advance in the notice of intended procurement or the tender documents. Any such conditions and criteria shall be limited to those which are essential to ensure that the potential supplier has the ability to execute the contract in question.

2. The Signatory CARIFORUM States and the United Kingdom shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by an entity of that Party or State or that the supplier has prior work experience in the relevant territory. This paragraph does not apply for procurements in respect of social impact surveys and studies.

3. The procuring entity shall base its assessment of the financial, commercial and technical abilities of a supplier on the conditions that it has specified in advance in notices or tender documentation.

4. Nothing in this Article shall preclude the exclusion of any supplier on grounds such as bankruptcy or false declarations or conviction for serious crime.

5. Procuring entities may maintain a multi-use list provided that a notice inviting interested suppliers to apply for inclusion on the list is:

- (a) published annually; and
- (b) where published by electronic means, made available continuously in one of the appropriate media listed in

Annex VII.

6. Procuring entities shall ensure that suppliers may apply for qualification at any time through the publication of a notice inviting suppliers to apply for inclusion on the list containing the following information:

- (a) a description of the goods and services, or categories thereof, for which the list may be used;
- (b) the conditions for participation to be satisfied by suppliers and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;
- (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list; and
- (d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list.

Procuring entities shall include in the list all qualified suppliers within a reasonably short time.

7. Where a non-qualified supplier submits a request for participation, and all required documents relating thereto, within the time-limit, a procuring entity, whether or not it uses a multi-use list, shall examine and accept the supplier's request for participation, unless, due to the complexity of the procurement, the entity is not able to complete the examination of the request. Procuring entities shall also ensure that a supplier having requested to be included in the list shall be informed of the decision in this regard in a timely fashion.

8. Procuring entities operating in the utilities may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement and may exclude requests for participation from suppliers not yet qualified in respect of the procurement on the grounds that the procuring entity has insufficient time to examine the application.

Article 175

Negotiations

1. The Signatory CARIFORUM States and the United Kingdom may provide for their procuring entities to conduct negotiations:

- (a) in the context of procurements in which they have indicated such intent in the notice of intended procurement; or
- (b) where it appears from the evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notice of intended procurement or tender documentation.

2. A procuring entity shall:

- (a) ensure that any elimination of suppliers in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
- (b) when negotiations are concluded, provide a common deadline for the remaining suppliers to submit any new or revised tenders.

Opening of tenders and awarding of contracts

1. All tenders solicited under open or selective procedures by procuring entities shall be received and opened under procedures

and conditions guaranteeing the fairness and transparency of the process.

2. Unless a procuring entity decides that it is not in the public interest to award the contract, it shall award the contract to the supplier who has been determined, on the basis of the information presented, to be fully capable of undertaking the contract and whose tender is either the lowest tender or the tender which in terms of the specific evaluation criteria set forth in the notice or tender documentation is determined to be the most advantageous. Awards shall be made in accordance with the criteria and essential requirements specified in the notice of intended procurement or in the tender documentation.

Article 177

Information on contract award

1. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities provide for effective dissemination of the results of government procurement processes.
2. Procuring entities shall promptly inform suppliers of decisions regarding the award of the contract and, on request in writing. Upon request, procuring entities shall inform any eliminated supplier of the reasons for the rejection of its tender and of the relative advantages of the successful supplier's tender.
3. Procuring entities may decide to withhold certain information on the contract award where release of such information would interfere with law enforcement or be otherwise contrary to the public interest, would prejudice the legitimate commercial interests of suppliers, or might prejudice fair competition between them.
4. Subject to Article 180(4), no later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic media listed in Annex VII. Where only an electronic medium is used, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:
 - (a) a description of the goods or services procured;
 - (b) the name and address of the procuring entity;
 - (c) the name and address of the successful supplier;
 - (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
 - (e) the date of the award; and
 - (f) the type of procurement method used, and in cases where a limited tendering procedure was used, a description of the circumstances justifying the use of such procedure.

Time limits

1. In determining any time limits to be applied to procurement covered by this Chapter, procuring entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement and the normal time for transmitting tenders.

2. The Parties and the Signatory CARIFORUM States shall ensure that their procuring entities shall take due account of publication delays when setting the final date for receipt of tenders or of request for participation or for qualifying for the supplier's list. Such time limits, including any extension, shall be common for all interested or participating suppliers.

3. Procuring entities shall clearly set out the time limits applicable to any specific procurement in the notice of intended procurement and/or the tender documents.

Article 179

Bid challenges

1. The Parties and the Signatory CARIFORUM States shall provide transparent, timely, impartial and effective procedures enabling suppliers to challenge domestic measures implementing this Chapter in the context of procurements in which they have, or have had, a legitimate commercial interest. To this effect, each Party or Signatory CARIFORUM State shall establish, identify or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of covered procurement.
2. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge as from the time when the basis of the challenge becomes known or reasonably should have become known to the supplier. This paragraph does not preclude Parties or Signatory CARIFORUM States from requiring complainants to lodge their complaints within a reasonable period of time provided that duration of that period is made known in advance.
3. Procuring entities shall ensure their ability to respond to requests for a review by maintaining a reasonable record of each procurement covered under this Chapter.
4. Challenge procedures shall provide for effective rapid interim measures to correct breaches of the domestic measures implementing this Chapter.

Article 180

Implementation period

1. In order for the Signatory CARIFORUM States to bring their measures into conformity with any specific procedural obligation of this Chapter, they shall have an implementation period of two years from the entry into force of this Agreement.
2. Should a review by the CARIFORUM-UK Trade and Development Committee at the end of the implementation period reveal that one or several Signatory CARIFORUM States need one more year to bring their measures into conformity with the obligations of this Chapter, the CARIFORUM-UK Trade and Development Committee may extend the implementation period referred to in paragraph 1 by one more year for the individual Signatory CARIFORUM States concerned.
3. By way of derogation from paragraphs 1 and 2, Antigua and Barbuda, Belize, the Commonwealth of Dominica, Grenada, the Republic of Haiti, Saint Christopher and Nevis, Saint Lucia and Saint Vincent and the Grenadines shall benefit from an implementation period of five years.
4. The requirements stipulated in paragraph 1 and the last sentence of paragraph 2 of Article 168, in Article 170(1)(a) and in Article 177(4) will only come into effect for the Signatory CARIFORUM States once the requisite capacity to implement them has been developed, but not later than five years after the entry into force of this Agreement.

Article 181

Review clause

The CARIFORUM-UK Trade and Development Committee will review the operation of this Chapter every three years, including

with regard to any modifications of coverage, and may make appropriate recommendations to the Joint CARIFORUM-UK Council to that effect, as appropriate. In carrying out this task, the CARIFORUM-UK Trade and Development Committee may, without prejudice to Article 182, also make appropriate recommendations regarding the Parties' further cooperation in the procurement field and the implementation of this Chapter.

Article 182

Cooperation

1. The Parties recognise the importance of cooperating in order to facilitate implementation of commitments and to achieve the objectives of this Chapter.
2. Subject to the provisions of Article 7, the Parties agree to cooperate, including by facilitating support and establishing appropriate contact points, in the following areas:

 - (b) Establishment and maintenance of appropriate systems and mechanisms to facilitate compliance with the obligations of this Chapter; and
 - (c) Creation of an on-line facility at the regional level for the effective dissemination of information on tendering opportunities, so as to facilitate the awareness of all companies about procurement processes.

CHAPTER 4

Environment

Article 183

Objectives and sustainable development context

1. The Parties reaffirm that the principles of sustainable management of natural resources and the environment are to be applied and integrated at every level of their partnership, as part of their overriding commitment to sustainable development as set out in Articles 1, 2 and 3 of this Agreement.
2. The Parties recall the importance of environment and natural resources as thematic and cross-cutting issues, and that the fundamental principles of ownership, participation, dialogue and differentiation are therefore particularly relevant.
3. The Parties and the Signatory CARIFORUM States are resolved to conserve, protect and improve the environment, including through multilateral and regional environmental agreements to which they are parties.

4. The Parties reaffirm their commitment to promoting the development of international trade in such a way as to ensure sustainable and sound management of the environment, in accordance with their undertakings in this area including the international conventions to which they are party and with due regard to their respective level of development.
5. The Parties and the Signatory CARIFORUM States are resolved to make efforts to facilitate trade in goods and services which the Parties consider to be beneficial to the environment. Such products may include environmental technologies, renewable- and energy-efficient goods and services and eco-labelled goods.

Levels of protection and right to regulate

1. Recognising the right of the Parties and the Signatory CARIFORUM States to regulate in order to achieve their own level of domestic environmental and public health protection and their own sustainable development priorities, and to adopt or modify accordingly their environmental laws and policies, each Party and Signatory CARIFORUM State shall seek to ensure that its own environmental and public health laws and policies provide for and encourage high levels of environmental and public health protection and shall strive to continue to improve those laws and policies.
2. The Parties agree that the special needs and requirements of CARIFORUM States shall be taken into account in the design and implementation of measures aimed at protecting environment and public health that affect trade between the Parties.
3. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties or a disguised restriction on trade between them, nothing in this Agreement shall be construed to prevent any Party and the Signatory CARIFORUM States from adopting or maintaining measures necessary to protect human, animal or plant life or health, related to the conservation of natural resources or protection of the environment.

Article 185

Regional integration and use of international environmental standards

In the light of the environmental challenges facing their respective regions, and in order to promote the development of international trade in such a way as to ensure sustainable and sound management of the environment, the Parties recognise the importance of establishing effective strategies and measures at the regional level. The Parties agree that in the absence of relevant environmental standards in national or regional legislation, they shall seek to adopt and implement the relevant international standards, guidelines or recommendations, where practical and appropriate.

Article 186

Scientific information

The Parties recognise the importance, when preparing and implementing measures aimed at protecting the environment and public health that affect trade between the Parties, of taking account of scientific and technical information, the precautionary principle, and relevant international standards, guidelines or recommendations.

Transparency

The Parties and the Signatory CARIFORUM States commit to developing, introducing and implementing any measures aimed at protecting the environment and public health that affect trade between the Parties in a transparent manner, with due notice and public and mutual consultation and with appropriate and timely communication to and consultation of non-state actors including the private sector. The Parties agree that satisfying the provisions on transparency included in Chapters 6 and 7 of Title I shall be deemed to satisfy the provisions of this Article as well.

Article 188

Upholding levels of protection

1. Subject to Article 184(1), the Parties agree not to encourage trade or foreign direct investment to enhance or maintain a competitive advantage by:
 - (a) lowering the level of protection provided by domestic environmental and public health legislation;
 - (b) derogating from, or failing to apply such legislation.
2. The Parties and the Signatory CARIFORUM States commit to not adopting or applying regional or national trade or investment-related legislation or other related administrative measures as the case may be in a way which has the effect of frustrating measures intended to benefit, protect or conserve the environment or natural resources or to protect public health.

Article 189

Consultation and monitoring process

1. The Parties recognise the importance of monitoring and assessing the impact of implementation of the Agreement on sustainable development through their respective participative processes and institutions, as well as those set up under this Agreement.
2. The Parties may consult each other and the CARIFORUM-UK Consultative Committee on environmental issues covered by Articles 183 to 188. 3. On any issue covered by Articles 183 to 188 the Parties may agree to seek advice from the relevant international bodies on best practice, the use of effective policy tools for addressing trade-related environmental challenges, and the identification of

any obstacles that may prevent the effective implementation of environmental standards under relevant Multilateral Environment Agreements.

4. A Party may request consultations with the other Party on matters concerning the interpretation and application of Articles 183 to 188. The consultations shall not exceed three months. In the context of this procedure any Party may independently seek advice from the relevant international bodies. In this case the limit for the period of consultations is extended by a further period of three months.

5. If the matter has not been satisfactorily resolved through consultations between the Parties pursuant to paragraph 3 any Party may request that a Committee of Experts be convened to examine such matter.

6. The Committee of Experts shall comprise three members with specific expertise in the issues covered by this Chapter. The Chairperson shall not be a national of either Party. The Committee of Experts shall present to the Parties a report within three months of its composition. The report shall be made available to the CARIFORUM-UK Consultative Committee.

4. The Parties agree that labour standards should not be used for protectionist trade purposes.

5. The Parties recognise the benefits of commerce in fair and ethical trade products and the importance of facilitating such commerce between them.

Article 192

Article 193

Upholding levels of protection

Subject to Article 192, the Parties agree not to encourage trade or foreign direct investment to enhance or maintain a competitive advantage by:

- (a) lowering the level of protection provided by domestic social and labour legislation;
- (b) derogating from, or failing to apply such legislation and standards.

2. The Parties may consult each other and the CARIFORUM-UK Consultative Committee on social issues covered by Articles 191 to 194. Members of the CARIFORUM-UK Consultative Committee may submit oral or written recommendations to the Parties for disseminating and sharing best practice relating to issues covered by this Chapter.
3. On any issue covered by Articles 191 to 194 the Parties may agree to seek advice from the ILO on best practice, the use of effective policy tools for addressing trade-related social challenges, such as labour market adjustment, and the identification of any obstacles that may prevent the effective implementation of core labour standards.

4. A Party may request consultations with the other Party on matters concerning the interpretation and application of Articles 191 to 194. The consultations shall not exceed three months. In the context of this procedure any Party may independently seek advice from the ILO. In this case the limit for the period of consultations is extended by a further period of three months.

5. If the matter has not been satisfactorily resolved through consultations between the Parties pursuant to paragraph 3 any Party may request that a Committee of Experts be convened to examine such matter.

6. The Committee of Experts shall comprise three members with specific expertise in the issues covered by this Chapter. The Chairperson shall not be a national of either Party. The Committee of Experts shall present to the Parties a report within three months of its composition. The report shall be made available to the CARIFORUM-UK Consultative Committee.

(a) Content principles

- (i) the purpose limitation principle — data should be processed for a specific purpose and subsequently used or further communicated only in so far as this is not incompatible with the purpose of the transfer. The only exemptions to this rule would be those provided by legislation and necessary in a democratic society for important public interests;
- (ii) the data quality and proportionality principle — data should be accurate and, where necessary, kept up to date. The data should be adequate, relevant and not excessive in relation to the purposes for which they are transferred or further processed;
- (iii) the transparency principle — individuals should be provided with information as to the purpose of the processing and the identity of the data controller in the third country, and other information in so far as this is necessary to ensure fairness. The only exemptions permitted should be those provided by legislation and necessary in a democratic society for important public interests;
- (iv) the security principle — technical and organisational security measures should be taken by the data controller that are appropriate to the risks presented by the processing. Any person acting under the authority of the data controller, including a processor, must not process data except on instructions from the controller;
- (v) the rights of access, rectification and opposition — the data subject should have a right to obtain a copy of all data relating to him/her that are processed, and a right to rectification of those data where they are shown to be inaccurate. In certain situations he/she should also be able to object to the processing of the data relating to him/her. The only exemptions to these rights should be those provided by legislation and necessary in a democratic society for important public interests;
- (vi) restrictions on onward transfers — as a matter of principle, further transfers of the personal data by the recipient of the original data transfer should be permitted only where the second recipient (i.e. the recipient of the onward transfer) is also subject to rules affording an adequate level of protection;
- (vii) sensitive data — where special categories of data are involved, revealing racial or ethnic origin, political opinions, religious or philosophical beliefs or trade-union membership, data concerning health or sex life, and data relating to offences, criminal convictions or security measures, data may not be processed unless

¹ Such standards are those included in the following international instruments:

- (i) Guidelines for the regulation of computerised personal data files, modified by the General Assembly of the United Nations on 20 November 1990;
- (ii) Recommendation of the Organisation for Economic Cooperation and Development Council concerning guidelines governing the protection of privacy and trans-border flows of personal data of 23 September 1980.

domestic law provides additional safeguards.

(b) Enforcement mechanisms

Appropriate mechanisms shall be in place to ensure that the following objectives are achieved:

- (i) to ensure a good level of compliance with the rules, including a high degree of awareness among data controllers of their obligations, and among data subjects of their rights and the means of exercising them; the existence of effective and dissuasive sanctions; and systems of direct verification by authorities, auditors, or independent data protection officials;
- (ii) to provide support and help to individual data subjects in the exercise of their rights, who must be able to enforce their rights rapidly and effectively, and without prohibitive cost, including through appropriate institutional mechanisms allowing independent investigation of complaints;
- (iii) to provide appropriate redress to the injured party where rules are not complied with allowing compensation to be paid and sanctions imposed where appropriate in accordance with applicable domestic rules.

- (d) assistance with the establishment and functioning of relevant institutional frameworks;
- (e) assistance with the design and implementation of compliance initiatives aimed at economic operators and consumers in order to stimulate investor and public confidence.

Scope

This Part shall apply to any dispute concerning the interpretation and application of this Agreement.

CHAPTER 1

Consultations and mediation

Article 204

Consultations

1. The Parties shall endeavour to resolve any dispute referred to in Article 203 by entering into consultations in good faith with the aim of reaching an agreed solution.

2. A Party shall seek consultations by means of a written request to the other Party, copied to the CARIFORUM-UK Trade and Development Committee, identifying the measure at issue and the provisions of the Agreement that it considers the measure not to be in conformity with.

3. Consultations shall be held within 40 days of the date of the submission of the request. The consultations shall be deemed concluded within 60 days of the date of the submission of the request, unless both Parties agree to continue consultations. All information disclosed during the consultations shall remain confidential.

4. Consultations on matters of urgency, including those regarding perishable or seasonal goods shall be held within 15 days of the date of the submission of the request, and shall be deemed concluded within 30 days of the date of the submission of the request.

5. If consultations are not held within the timeframes laid down in paragraph 3 or in paragraph 4 respectively, or if consultations have been concluded and no agreement has been reached on a mutually agreed solution, the complaining Party may request the establishment of an arbitration panel in accordance with Article 206.

6. A Party shall not bring a dispute under this Part concerning the interpretation and application of Chapters 4 and 5 of Title IV unless the procedures of Article 189(3), (4) and (5) and Article 195(3), (4) and (5), respectively have been invoked and the matter has not been satisfactorily resolved within 9 months of the initiation of the consultations. The selection shall be made within 25 days of the date of the submission of the agreement to request mediation and in the presence of a representative of each Party. The mediator will convene a meeting with the Parties no later than 30 days after being selected. The mediator shall receive the submissions of each Party no later than 15 days before the meeting and notify an opinion no later than 45 days after having been selected.

3. The mediator's opinion may include a recommendation on how to resolve the dispute consistent with the provisions of this Agreement. The mediator's opinion is non-binding.

4. The Parties may agree to amend the time limits referred to in paragraph 2. The mediator may also decide to amend these time limits upon request of any of the Parties or on his own initiative, given the particular difficulties experienced by the Party concerned or the complexities of the case.

2. Within 10 days of the date of the submission of the request for the establishment of an arbitration panel to the CARIFORUM-UK Trade and Development Committee, the Parties shall consult in order to reach an agreement on the composition of the arbitration panel.

3. In the event that the Parties are unable to agree on its composition within the time frame laid down in paragraph 2, either Party may request the Chairperson of the CARIFORUM-UK Trade and Development Committee, or her or his delegate, to select all three members by lot from the list established under Article 221, one among the individuals proposed by the complaining Party, one among the individuals proposed by the Party complained against and one among the individuals selected by the Parties to act as Chairperson. Where the Parties agree on one or more of the members of the arbitration panel, any remaining members shall be selected by the same procedure.

4. In the event of a dispute concerning the interpretation and application of Chapters 4 and 5 of Title IV the panel shall comprise at least two members with specific expertise on the matters covered by that Chapter drawn from a list of 15 persons established by the CARIFORUM-UK Trade and Development Committee as provided for under Article 221.

5. The Chairperson of the CARIFORUM-UK Trade and Development Committee, or her or his delegate, shall select the arbitrators within five days of the request referred to in paragraph 3 by either Party and in the presence of a representative of each Party.

Under no circumstances should the ruling be notified later than 180 days from the date of the establishment of the arbitration panel.

2. In cases of urgency, including those involving perishable and seasonal goods, the arbitration panel shall make every effort to notify its ruling within 75 days from the date of its establishment. Under no circumstance should it take longer than 90 days from its establishment. The arbitration panel may give a preliminary ruling within 10 days of its establishment on whether it deems the case to be urgent.

3. Either party may request the arbitration panel to provide a recommendation as to how the Party complained against could bring itself into compliance. In the event of a dispute concerning the interpretation and application of Chapters 4 or 5 of Title IV the arbitration panel shall include a recommendation on how to ensure compliance with the relevant provisions of these Chapters.

Section 2

Compliance

Article 210

Compliance with the arbitration panel ruling

Each Party shall take any measure necessary to comply with the arbitration panel ruling, and the Parties will endeavour to agree on the period of time to comply with the ruling.

Article 211

The reasonable period of time for compliance

1. No later than 30 days after the notification of the arbitration panel ruling to the Parties, the Party complained against shall notify the complaining Party and the CARIFORUM-UK Trade and Development Committee of the time it will require for compliance (reasonable period of time).
2. If there is disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party shall, within 20 days of the notification made under paragraph 1, request in writing the arbitration panel to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the other Party and to the CARIFORUM-UK Trade and Development Committee. The arbitration panel shall notify its ruling to the Parties and to the CARIFORUM-UK Trade and Development Committee within 30 days from the date of the submission of the request.
3. The arbitration panel shall, in determining the length of the reasonable period of time, take into consideration the length of time that it will normally take the Party complained against to adopt comparable legislative or administrative measures to those identified by such Party as being necessary to ensure compliance. The arbitration panel shall also take into consideration demonstrable capacity constraints which may affect the adoption of the necessary measures by the Party complained against.
4. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 207 shall apply. The time limit for notifying the ruling shall be 45 days from the date of the submission of the request referred to in paragraph 2.
5. The reasonable period of time may be extended by agreement of the Parties.

Article 212

1. The Party complained against shall notify the other Party and the CARIFORUM-UK Trade and Development Committee before the end of the reasonable period of time of any measure that it has taken to comply with the arbitration panel ruling.
2. In the event that there is disagreement between the Parties concerning the compatibility of any measure notified under paragraph 1, with the provisions of this Agreement, the complaining Party may request in writing the arbitration panel to rule on the matter. Such request shall identify the specific measure at issue and it shall explain how such measure is incompatible with the provisions of this Agreement. The arbitration panel shall notify its ruling within 90 days of the date of the submission of the request. In cases of urgency, including those involving perishable and seasonal goods, the arbitration panel shall notify its ruling within 45 days of the date of the submission of the request.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 207 shall apply. The time limit for notifying the ruling shall be 105 days from the date of the submission of the request referred to in paragraph 2.

Article 213

Temporary remedies in case of non-compliance

1. If the Party concerned fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measure notified under Article 212(1) is not compatible with that Party's obligations under the provisions of this Agreement, the Party complained against shall, if so requested by the complaining Party, present an offer for compensation. Nothing in the Agreement shall require the Party complained against to offer financial compensation.
2. If no agreement on compensation is reached within 30 days of the end of the reasonable period of time or of the arbitration panel's ruling under Article 212 that a measure taken to comply is not compatible with the provisions of this Agreement, the complaining Party shall be entitled, upon notification to the other Party, to adopt appropriate measures. In adopting such measures the complaining Party shall endeavour to select measures that least affect the attainment of the objectives of this Agreement and shall take into consideration their impact on the economy of the Party complained against and on the individual CARIFORUM States. In addition, where the United Kingdom has obtained the right to adopt such measures, it shall select measures which are specifically aimed at bringing into compliance the CARIFORUM State or States whose measures were found to be in breach of this Agreement. The other CARIFORUM States shall facilitate the adoption of measures to comply with the arbitration panel ruling by the CARIFORUM State or States found to be in breach. In cases involving a dispute under Chapter 4 and 5 of Title IV, appropriate measures shall not include the suspension of trade concessions under this Agreement. The complaining Party may adopt the appropriate measures 10 days after the date of the notification.

3. The United Kingdom shall exercise due restraint in asking for compensation or adopting appropriate measures pursuant to paragraphs 1 or 2.

4. Compensation or appropriate measures shall be temporary and shall be applied only until any measure found to violate the provisions of this Agreement has been withdrawn or amended so as to bring it into conformity with those provisions or until the Parties have agreed to settle the dispute.

Article 214

Review of any measure taken to comply after the adoption of appropriate measures

1. The Party complained against shall notify the other Party and the CARIFORUM-UK Trade and Development Committee of

any measure it has taken to comply with the ruling of the arbitration panel and of its request for an end to application of appropriate measures by the complaining Party.

2. If the Parties do not reach an agreement on the compatibility of the notified measure with the provisions of this Agreement within 30 days of the date of the submission of the notification, the complaining Party shall request in writing the arbitration panel to rule on the matter. Such request shall be notified to the other Party and to the CARIFORUM-UK Trade and Development Committee. The arbitration panel ruling shall be notified to the Parties and to the CARIFORUM-UK Trade and Development Committee within 45 days of the date of the submission of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with the provisions of this Agreement, the arbitration panel will determine whether the complaining Party can continue to apply appropriate measures. If the arbitration panel rules that any measure taken to comply is in conformity with the provisions of this Agreement, the appropriate measures shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 207 shall apply. The period for notifying the ruling shall be 60 days from the date of the submission of the request referred to in paragraph 2.
